HISTORICAL DOCUMENTATION

Overview

The Annual Personnel Report has evolved and matured over the years since the original conceptualization in 1988. Understanding how, when, and why data elements were changed is critical when the Community College and Technical Center MIS (CCTCMIS) responds to requests for information that span several years. The historical change document outlines additions, deletions, and changes to the Student Database. This document was created by reviewing existing listings, catalogs, and dictionaries of data elements.

Historical data element change documentation

The short descriptions that follow outline each data element field tracked in the historical data element change document, along with the codes used to document the changes, additions, and deletions to the data elements over the previous years.
