SCHOOL DISTRICT WORKFORCE EDUCATION FUNDING POLICY

The following describes the present State Funding Policy for School District Workforce Education Programs:

General appropriations for workforce education programs are provided to each district in what is called a lump sum. The district is given an amount of money to run various programs and then allowed to determine how to use that money for the designated program. The annual Appropriations Act provides that districts may only use this lump sum for workforce education programs. The source for these operating funds is state General Revenue. The balance of the district operating funds is made up of student tuition, fees and other local funds.

Local school boards are expected to develop priorities for offering programs and meeting local needs.

Local school boards are provided the flexibility and responsibility to set policy on pay, salary increases, most fringe benefits, and job qualifications.

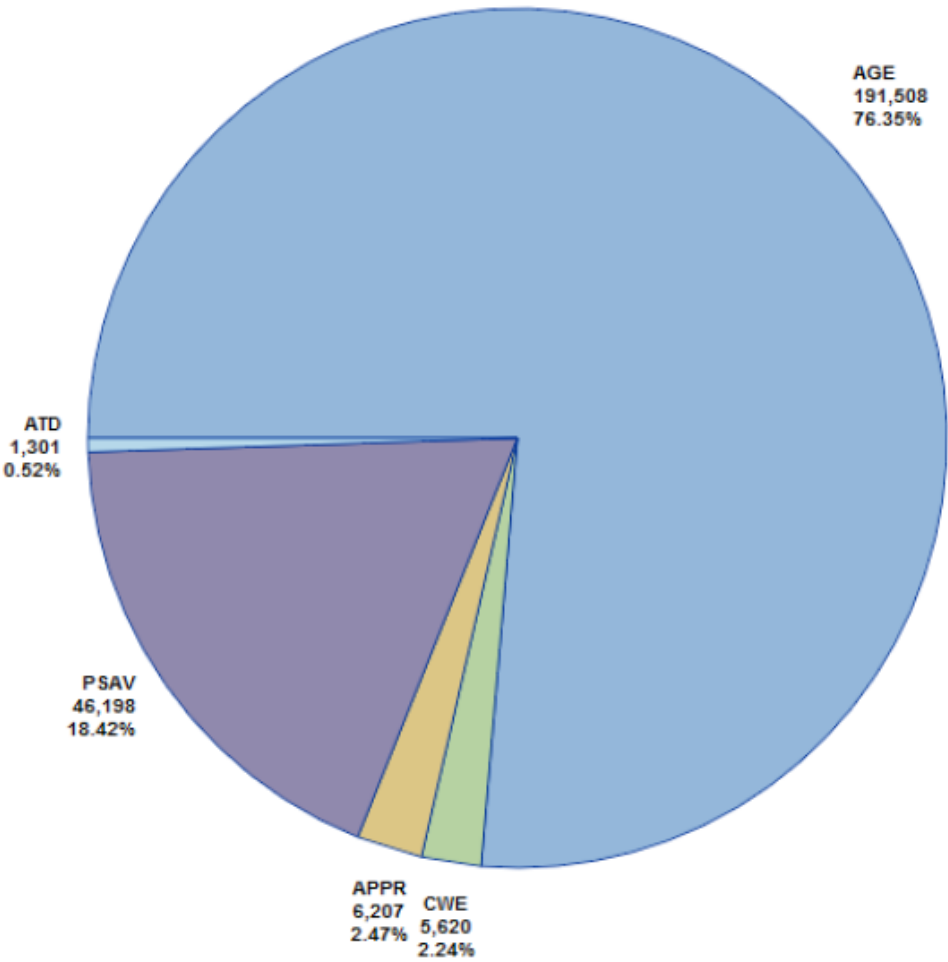

The Florida Legislature specifies each year a standard student fee amount per credit hour (or an appropriate range) to be charged by districts for workforce education programs.

Categorical funding may be provided for certain issues. The Florida Legislature determines the specific amount to be funded for the issue and expenditures of these funds are to be limited in purpose.
