Subject: Additional Information Requested for Turnaround Plans
Importance: High

Chancellor,

Below please find the information requested regarding the track record of the principals at Ribault, Gilbert, and Northwestern Middle Schools. In addition, your staff reached out to Mason Davis, Assistant Superintendent, for the names of the principals who have led those schools over the years, including Hyde Grove and Oak Hill Elementary Schools. Although that information is also included below, I continue to wonder why that principal information is requested considering that, again, those schools (Oak Hill and Hyde Grove) will be closed/converted, respectively, as an Autism Lab School and an Early Learning Center. Both will not generate school grades and will serve different populations of children than previous years. The district, community, and school board at the local level have already moved forward in that direction. In essence, the turnaround models that are offered do not match the schools' (Oak Hill and Hyde Grove) configuration and educational offerings next year. The turnaround models for those schools are irrelevant for the next school year.

Nikolai P. Vitti, Ed.D.
