Standards are simple statements about what students are expected to know or do as a result of what they learn in class.

Standards ensure that all schools and all classrooms have the same expectations for students. They help to make sure all children have access to a high-quality education. Without shared standards, differences in expectations between schools or between classrooms could have a negative impact on student outcomes.

Standards in Florida are the same for all school districts. Families that move to different schools or different districts should find about the same student expectations from school to school.

The term standard is different than the term curriculum.

While we have the same standards or expectations for student achievement, schools and even classrooms in schools can use many different curricula resources to help students learn. Curriculum is a general term that includes all the learning materials and learning strategies used to support student achievement of the standards. While standards are statewide to ensure the same learning expectations, curriculum can be a district, school, or even classroom choice. Good curriculum is very closely aligned to standards.

You can explore this site for information on standards for every subject and grade for which there is a

the standards your students will be striving to achieve.

*Great question for your student's teachers:
How well do your curriculum and your daily activities align to the standards for this class?
Look at the standards for the class and talk with your teacher about how well your student is doing in each area.*

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

- a. Print many upper- and lowercase letters.
- b. Use frequently occurring nouns and verbs.
- c. Form regular plural nouns orally by adding /s/ or /es/ (e.g., dog, dogs; wish, wishes).
- d. Understand and use question words (interrogatives) (e.g., who, what, where, when, why, how).
- e. Use the most frequently occurring prepositions (e.g., to, from, in, out, on, off, for, of, by, with).
- f. Produce and expand complete sentences in shared language activities.

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

- a. Capitalize the first word in a sentence and the pronoun I.
- b. Recognize and name end punctuation.
- c. Write a letter or letters for most consonant and short-vowel sounds (phonemes).
- d. Spell simple words phonetically, drawing on knowledge of sound-letter relationships.

Academic Performance Trend: Learning Gains

Explaining this Graph

The *Learning Gains* calculation is a great indicator of the quality of the educational experience at a school.

For each subject (English language arts and math), the graph shows the percentage of students who earned a learning gain in the years displayed.

Parent Guide to Florida Educational Options

One of the ways Florida has significantly increased student performance is by offering parents access to a wide array of educational choices. Competition tends to have a positive impact on school performance! As the number of educational choice options continues to expand in Florida, things can get a little confusing for parents. The information here is intended to help you make sense of all the great options available for your student at any grade level.

The middle grades are an exciting time for your child's growing mind. As they become more mature and independent in life, they begin to have more options at school.

Electives, athletics, and clubs are a few things they may be getting involved with during the day that will help build their social-emotional skills. In academics, students have to [successfully complete certain courses](#) for promotion to high school. How a student completes a course and is promoted is determined by local school districts. Of course, there are opportunities for your middle-schooler to earn high school credit that you may want to explore together. We hope you find the resources on this site that will help you help your child make the most out of their middle school adventure.

Growth Mindset

Have you heard about a movement called the Growth Mindset? Research completed by Dr. Carol Dweck states that the way our students think impacts their attitude toward learning and how they perform in our classrooms. As parents, you can help your child develop a Growth Mindset, in which they believe they can
