Grading Florida Public Schools

2021-22

School grades provide an easily understandable metric to measure the performance of a school. Parents and the general public can use the school grade and its associated components to understand how well each school is serving its students. The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the Florida Standards Assessments (FSA). The 2021-22 school grades model uses the school grades model adopted for 2014-15.

The school grading system focuses the school grading formula on student success measures:

- Achievement
- Learning gains
- Graduation
- Acceleration success
- Maintaining a focus on students who need the most support

The 2021-22 School Grades Model

English Language Arts (FSA, FSAA)	Mathematics (FSA, FSAA, EOCs)	Science (NGSSS, FSAA, EOCs)	Social Studies (EOCs)	Graduation Rate	Acceleration Success
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	4-year Graduation Rate (0% to 100%)	High School (AP, IB, AICE, Clock Hour Dual Enrollment, Dual Enrollment or Industry Certification) (0% to 100%)
Learning Gains (0% to 100%)	Learning Gains (0% to 100%)				
Learning Gains of the Lowest 25% (0% to 100%)	Learning Gains of the Lowest 25% (0% to 100%)				Middle School (EOCs or Industry Certifications) (0% to 100%)

Components

In 2021-22, a school's grade may include up to 11 components. There are four achievement components, as well as components for learning gains, learning gains of the lowest 25% of students, middle school acceleration, graduation rate and college and career acceleration. Each component is worth up to 100 points in the overall calculation.

Four Achievement Components – The four achievement components are English Language Arts, Mathematics, Science and Social Studies. These components include student performance on statewide standardized assessments, including the comprehensive assessments and end-of-course (EOC) assessments. The components measure the percentage of full-year enrolled students who achieved a passing score.

Four Learning Gains Components – These components are learning gains in English Language Arts and Mathematics, as well as learning gains for the lowest performing 25% of students in English Language Arts and Mathematics. These components include student performance on statewide standardized assessments, including the comprehensive

assessments and EOC assessments for the current year and the prior year. The components measure the percentage of full-year-enrolled students who achieved a learning gain from the prior year to the current year.

Middle School Acceleration – This component is based on the percentage of eligible middle school students who passed a high school level EOC assessment or industry certification.

Graduation Rate – The graduation rate is based on a four-year adjusted cohort of ninth grade students, and the rate measures whether the students graduate within four years.

College and Career Acceleration – This component is based on the percentage of graduates from the graduation rate cohort who earned a score on an acceleration examination (AP, IB, or AICE), a grade in a dual enrollment course that qualified for college credit, earned 300 clock hours through career dual enrollment courses in the same approved program, or earned an industry certification.

School Grades Calculation

The points earned for each component are added together and divided by the total number of possible points to determine the percentage of points earned.

School Grading Percentages

- A = 62% of points or greater
- B = 54% to 61% of points
- C = 41% to 53% of points
- D = 32% to 40% of points
- F = 31% of points or less

Percent Tested

Schools must test 95 percent of their students.

School Accountability measures for 2019-20 and 2020-21

On March 23, 2020, Florida Department of Education (FDOE) Emergency Order No. 2020-EO-1 was issued, cancelling all spring K-12 statewide assessment test administrations for the 2019-20 school year; accountability measures reliant on such data were not calculated for the 2019-20 school year.

Pursuant to FDOE Emergency Order No. 2021-EO-02, only schools for which an opt in request was submitted by the school district superintendent or charter school governing board have a letter grade assigned for the 2020-21 school year. More information can be found at <https://www.fldoe.org/core/fileparse.php/19861/urlt/2021-EO-02.pdf>.

Due to the above emergency orders, the comparisons in this document are to the last normal calculations of school accountability measures which was the 2018-19 school year.

There were 8 “F” schools in 2019 that received a school grade in 2022. Of these “F” schools in 2019, 2 improved to a “B” 5 improved to a “C” and 1 improved to a “D.”

Florida's Focus on Low-Performing Schools is Paying Off

The number of "D" or "F" schools has declined 64% since 2015 and the number of "F" schools has declined 87% since 2015.

Source: Florida Department of Education

In 2022, there were a total of 208 "D" or "F" schools, up from 173 in 2019, but still below 230 in 2018, 267 in 2017, 497 in 2016, and 573 in 2015. In 2022, there were a total of 26 "F" schools, up from 14 in 2019 but down from 35 in 2018, 43 in 2017, 111 in 2016, and 205 in 2015.

School Improvement Ratings for Alternative Schools and Exceptional Student Education Center Schools

School improvement ratings are calculated for alternative schools and exceptional student education (ESE) center schools that choose to receive a school improvement rating in lieu of a school grade, as defined in Rule 6A-1.099822, Florida Administrative Code (F.A.C.), Rule 6A-1.099828, F.A.C., and under the authority of Sections 1008.341 and 1008.3415, Florida Statutes (F.S.).

Components

Schools that elect a school improvement rating in lieu of a school grade will have the rating based on student learning gains for English language arts and/or mathematics, including retake assessments and concordant scores; schools will be rated on only those components for which they have sufficient data. Sufficient data exists when at least ten students are eligible for inclusion in the calculation for the component; eligibility criteria are described within the guide to calculations, which can be found at <http://fldoe.org/accountability/accountability-reporting/school-grades/>.

English Language Arts Learning Gains— This component includes student performance on statewide standardized English language arts assessments, including retake assessments and concordant scores, and measures student learning gains from one year to the next year.

Mathematics Learning Gains— This component includes student performance on statewide standardized mathematics assessments, including the comprehensive assessments, EOC assessments, retake assessments, and concordant scores. This component measures student learning gains from one year to the next year.

School Improvement Ratings Calculation

The points earned for each component for which there are sufficient data are added together and divided by the total number of possible points to determine the percentage of points earned.

School Improvement Ratings Percentages

- Commendable = 50% of points or greater
- Maintaining = 26% to 49% of points
- Unsatisfactory = 25% of points or less

Percent Tested

Schools must test at least 80 percent of their students in order to receive a rating. To be eligible for a rating of Commendable, a school must test 90 percent or more of their students.

District Grades for 2022

The commissioner assigns a letter grade of A, B, C, D, or F to each school district annually as provided in s. 1008.34(5), F.S., and Rule 6A-1.09981 School and District Accountability, F.A.C., based on the components and processes for school grades. The district's grade is calculated as if the district's students are enrolled in one large combination school. All students who are full-year enrolled in the district will be included in the district's grade. This means that students who were not full-year enrolled at an individual school but who were full-year enrolled within the district will be included in the district's grade.

Detailed information on district grades is available at <http://fldoe.org/accountability/accountability-reporting/school-grades/> (see the link "District Grades").
