Recommendation

Yes

Comments: This curriculum would be an effective teaching tool for the Florida third grade science standards. The lessons are engaging and include hands-on inquires, virtual labs and open-ended questioning. All materials are already created for educators to provide easy use in the classroom. There are connections within all lessons to reading and math standards. The curriculum also provides accommodations for ESE students and ELD students to help educators reach all learners. This is a strong curriculum that is clearly aligned to the Florida science standards.

When looking at standards alignment reviewers should consider not only the robustness of the standard coverage but also the content complexity (depth of knowledge level) if appropriate. More information on content complexity as it relates to Florida standards can be found at: http://www.cpalms.org/Uploads/docs/CPALMS/initiatives/contentcomplexity/CPALMS_ccdefinitions_140711.pdf

For example, if the standard is marked as a level 3 (strategic reasoning and complex thinking) then the materials coverage should reflect this. If the materials coverage is only sufficient to allow for recall (level 1) then this should be reflected in the points assigned.
