AUTOMATED STUDENT DATA ELEMENTS

Year: 2019-20

Data Element Number: **197260**

Data Element Name: **Postsecondary School of Enrollment**

Definition: The state assigned four-digit school number in which the student is officially enrolled in postsecondary instruction.

Postsecondary School of Enrollment will be used for reporting performance outcomes by school for legislatively required reports. Examples of situations where the school number for current instruction/service matches the Postsecondary School of Enrollment include when instruction is provided at a Council on Occupational Education (COE) accredited school, a non-COE accredited institution providing instruction in districts that do not have a COE accredited site, and an institution in which the local provider has determined should be a school of enrollment for reporting of performance outcomes.

School of Instruction should not match School of Enrollment in the following situations:

- Instruction is provided on an extension campus which falls under the accreditation of a Council on Occupational Education (COE) accredited site. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
- Instruction is provided at a separate school that has been approved as an alternate site under an accredited institution. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
- A student is dual enrolled and instruction is provided at the secondary school. In this situation, the school of enrollment would be the school that was providing the instructional services, not the physical location of the instruction.
