

Comprehensive Local Needs Assessment (CLNA) Process Overview

Training Module

Prepared by the Division of Career and Adult Education

CLNA Presentation Overview

This webinar will cover CLNA:

Process overview

CLNA Process Overview

 Determine tasks Pre-Plan Assign roles • Data Gather Stakeholder input • Process, display, interpret, analyze, Analyze verify, and determine root causes Assess importance and Prioritize achievability of needs Yearly RFA Plan • 4-Year Plan Budget

Pre-Planning As a Leadership Team

- Create a CLNA leadership team and make assignments
- Determine local, personalized priorities and purposes for the CLNA
- Devise a timeline of major CLNA events
- Identify data sources and analysis techniques
- Determine strategies for stakeholder engagement and regional collaboration

Data Analysis

Examples:

- Student performance, equity, and access
- Labor market information
- Information on programs, and faculty and staff

Look for:

- Patterns
- Trends
- Gaps
- Disparities

Dig deeper by:

- Corroborating results
- Performing root cause analysis

Stakeholder Consultation Means:

- <u>Involve</u> stakeholders as active co-creators of policies and programs.
- Inquire for input on CTE weaknesses, strengths, opportunities, and barriers.
- Inform stakeholders on a host of topics throughout the consultation process – the CLNA process, what CTE is, how they can get involved, etc.
- Inspire stakeholders about the importance of CTE as a critical means of shaping student's career trajectories and the labor market.

Example Stakeholder Engagement Strategies and Opportunities

- Input Through Existing Events professional development, advisory meetings, CTE showcases, PTO meetings, CTSO events, etc.
- **Planned Discussions** regional summit, roundtable, focus group, work group, listening session, classroom discussions, etc.
- Digital surveys social media/blog, website, newsletter/listserv, e-blast, etc.
- Webinars
- Paper surveys direct mail or in-class or in-meeting dissemination
- Personalized emails
- Phone conferences

Root Cause Analysis

Investigate further to identify causes of the effects made known through data analysis and stakeholder engagement

- Interview experts and stakeholders on causes
- Corroborate results with additional data sources
- Read evidence-based research
- Brainstorm possible causes using:
 - The "Five Whys" technique
 - Fishbone diagraming

Prioritization of Results

- You will not be able to address all identified needs
- Strategize how you wish to accomplish high-priority and mediumpriority needs in your short-term and long-term planning

Low Achievability

High Achievability

High Importance

Medium Priority

Where possible, address in your long-term plans.

High Priority

Address in your shortterm plans.

Low Importance

Low Priority

Maintain a record of these.

Medium Priority

Where beneficial, address in your short-term plans.

The Start of Your RFA – Identifying Solutions to Your Needs

Create Solutions

- Analyze issues as a leadership team to come up with solutions
- Consult stakeholders on viable options

Find Solutions

- Read evidence-based research to find effective interventions
- Ask similar agencies regarding what they have tried, are trying, and what has been effective
