

Continuing Education and Inservice Training for Youth Mental Health Awareness and Assistance

Included Job Codes for the 2024-2025 School Year

Pursuant to <u>Rule 6A-1.094120(4)(a)</u>, <u>Florida Administrative Code</u>, the Florida Department of Education has identified a list of job codes in order to identify the positions that must receive Youth Mental Health Awareness Training (YMHAT) as required by <u>section 1012.584</u>, <u>Florida Statutes</u>.

For the 2024-2025 school year, changes or clarifications were made to the list of job codes and categories under job codes 61 (Health Services), 73, and 76. School districts must certify that at least 80 percent of school personnel in elementary, middle, and high schools have received YMHAT no later than July 1.

Unless a school district submits a request to establish another method of identifying school personnel and receives approval from the Department, a school district must use these job codes and categories and the persons who hold these positions as of February 1, when providing the certification required by this rule.

School districts may determine additional personnel that may benefit from YMHAT, and districts are encouraged to provide training to such persons. For the complete list of job codes for the 2024-25 school year (both included and excluded), please visit https://www.fldoe.org/core/fileparse.php/20743/urlt/2425-sfappende.pdf.

Note: This list is updated annually and posted by February 1.
