## PREFACE

Section 1008.385(2), Florida Statutes, mandates that each school district and the Florida Department of Education develop and implement a comprehensive management information system which is made up of compatible components.

See: [http://www.leg.state.fl.us/statutes/index.cfm?App\\_mode=Display\\_Statute&Search\\_String=&URL=1000-1099/1008/Sections/1008.385.html](http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=1000-1099/1008/Sections/1008.385.html)

In order to support the statewide process of implementing compatible local- and state-level automated information systems, the Florida Department of Education developed the following documents:

- \* DOE INFORMATION DATABASE REQUIREMENTS:  
VOLUME I - AUTOMATED STUDENT INFORMATION SYSTEM
  
- \* DOE INFORMATION DATABASE REQUIREMENTS:  
VOLUME II - AUTOMATED STAFF INFORMATION SYSTEM

This document contains the required data elements, functions and timelines which each automated information system component must incorporate within its automated staff information system. Further information or questions concerning this document should be addressed to PK - 12 Education Information Services, Florida Department of Education, 532 Turlington Building, Tallahassee, Florida 32399-0400 or [askeias@fldoe.org](mailto:askeias@fldoe.org).

**A - AUTOMATED STAFF INFORMATION  
SYSTEM REQUIREMENTS**

## **AUTOMATED STAFF INFORMATION SYSTEM REQUIREMENTS**

Section 1008.385(2), F.S., requires the development and implementation of a comprehensive management information system linking all levels of the state education system. Each school district and the Florida Department of Education shall implement an automated information system component containing staff information which is compatible with the statewide comprehensive management information system.

The automated staff information system functions and timelines implemented by the Florida Department of Education and each school district are as follows:

### **HISTORY**

1. An automated staff information system was required to be implemented in each school district by June 30, 1987.

Each school district must install an automated staff information system that includes the data elements as listed in the Automated Staff Information System and as prescribed in Section B of this document and which contains the procedures for performing the automated state reporting and records transfer functions defined in subsections 4. Each system shall provide payroll, Professional Development and basic personnel recordkeeping.

2. State-level automated staff information database design was required to be implemented in the Florida Department of Education by July 1, 1987.

A state-level staff database of information has been installed for access by state and local education managers and the Legislature. The database design integrates existing department reports previously collected separately from school districts within the automated reporting formats defined in subsection 4., thereby reducing data burden, improving compatibility among data elements and providing a more comprehensive and flexible database of information. The Florida Department of Education has implemented strict controls for privacy and security of staff records as contained in Section C of this document.

3. Automated state reporting functions were required to be implemented by each school district beginning July 1, 1987.

Current state reporting functions are defined in subsection 4.

**AUTOMATED STATE REPORTING FUNCTIONS**

4. Each school district shall implement the following automated state reporting functions according to the timelines provided:

AUTOMATED STAFF REPORTING FORMATS	DATA COLLECTION ACTIVITY NUMBER	SURVEY PERIOD							
		S1 (JUL)	S8 (AUG)	S6 (SEP)	S2 (OCT)	S3 (FEB)	S4 (JUN)	S5 (AUG)

**B - AUTOMATED STAFF INFORMATION SYSTEM  
DATA ELEMENT REQUIREMENTS**

## INTRODUCTION

All automated staff data elements included in Volume II of the Automated Staff Information System must be incorporated within each school district's automated staff information system. Districts may add additional data elements within their local automated system to meet local needs.

### DEFINITION:

There is a working definition associated with each data element, along with applicable examples, codes, notes and exceptions.

### LENGTH AND DATA TYPE:

Length and data type define the technical field characteristics to be maintained in the automated system for each data element. Numeric elements must have a number in every position, including leading zeros.

### STATE REPORTING FORMATS REQUIRING THE DATA ELEMENT:

A section which specifies the state reporting formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which require the data element.

### COMPATIBILITY REQUIREMENT:

All elements must use the specified length, data type and coding definitions given in the automated staff data elements whenever automated state reporting is performed.

The degree of required compatibility between state and local elements varies. Many elements listed in this document need merely be **compatible**, while others must meet stricter **state standards**.

### Compatible elements

For data elements which are designated 'No', for **State Standard** the coding structures used by the districts, the data element names presented in user documentation and the length and format of the data fields may be the same as that contained in Volume II or they may be completely locally defined depending on the district's staff information needs. If local definitions are used, it must be possible to convert the information into the state-required codes, descriptors and formats by calculation, computer procedures or subroutines whenever state formats are required.

District documentation of locally defined elements must reference the state data elements for which they are surrogates.

Even though the state does not require the use of the state-defined codes for these

compatible elements, districts are encouraged to keep each of these elements in the state format whenever possible to minimize the need for and cost of conversion.

### **State Standard elements**

For data elements which are designated 'Yes' for **State Standard**, the coding structures used by the district, the data element names presented in user documentation, the length and format of the data fields for all external occurrences of information in reports, user documentation and display and entry screens must be the same as those contained in this volume.

Thus, **State Standard** elements must meet these additional requirements:

- 1) the state codes **must be used locally exactly as defined** in this document for automated staff data elements;
- 2) user documentation must list the **State Standard** data element name;
- 3) input and output documents and reports must use the state-defined codes; and
- 4) local screen displays must use the state-defined codes.

These requirements do not address the **physical storage** of the data on tape, disk or other medium, but only how the data elements are to be presented to users in the paper format or on screen displays. The stricter definition of **State Standard** still allows the district the flexibility to use its own district-defined codes for **physically** storing elements in the staff record system while, at the same time, using **State Standard** codes for display, input, reports, and user documentation. For example, a date might be required to appear always to the user as MMDDYYYY or MM/DD/YYYY but could be physically stored as YYDDD with non-user system documentation recording this fact.

In many of the data element definitions included in Volume II, a code has been defined for "not applicable." In cases of very specialized data elements, it would seem more sensible in terms of the design of the staff records system to record information for such specialized elements only for staff to whom the element is pertinent. For both **Compatible** and **State Standard** data elements, the codes defined as "not applicable" need not be maintained in the local data records or displayed on local screens. At the time of reporting, if it is determined that a particular characteristic or condition is "not applicable" for an individual staff member, the value meaning "not applicable" may be programmatically inserted into the reporting structure at that time.

These standards do not require the district to show or print the Social Security Number on all screens and reports. A local identification number may be displayed or printed as long as the local identification number can be cross walked to the Social Security Number for state reporting purposes.

This interpretation should allow segmentation of records and help reduce the need to

store large numbers of characters of “non-information” in the local data records, thereby reducing the need for disk or other data storage space.

### **USE TYPES:**

**Use Types** define the major purposes for which information is collected, maintained and utilized as follows:

**State reporting** means the data element is required for a state report and must be forwarded to the Florida Department of Education as per the format descriptions.

**Local accountability** identifies those data elements which the school district must maintain as an audit trail in support of statutorily required activities.

### **DATA ELEMENT NUMBER:**

The data element number is an internal number assigned by the PK - 12 Education Information Services office to facilitate use of the data elements. School districts need not maintain this number in their local automated system.

### **SURVEY PERIODS REQUIRED:**

See data element “Survey Period Code” for an explanation of these codes. The Survey Periods that pertain are listed for each data element. If the Survey Period has ‘Yes’ next to it, the data element is fully reported in the survey period indicated. If the Survey Period has ‘Default’ next to it, the data element must contain the default value when submitted to the department for the survey period. If the Survey Period has ‘Varies’ next to it, the data element must be fully reported on at least one format for the survey period and a default value must be reported on at least one additional format for the survey period, as indicated in the notes on the format layouts. If the Survey Period has ‘Optional’ beside it, the district has the option of sending actual data or the default value for the element for the survey period. For survey periods with “Optional” indicated, the data or default value will be ignored by the department’s system and default values will be loaded to the database for these elements.

### **YEAR:**

The Year indicates the fiscal year for which this version of the data element is applicable. The Year is updated each July 1 for the next fiscal year until the element is no longer active. Only active data elements are included in each year’s listing of data elements in the Automated Staff Information System.

The Year Implemented indicates that a data element was first required at the beginning of the indicated fiscal year (July 1).

**APPENDICES:**

Each appendix that applies to the data element is listed. Each appendix provides one or more of the following: the universe of codes that are valid for the element, expanded explanation of the codes that are valid for the data element, background information about the data element and coding structure and additional information relevant to understanding and reporting the element.

**DESCRIPTION OF CHANGES:**

Beginning with 2011-12, each change to the data element is listed with the date the change was made, the part of the data element that was changed (e.g., definition, codes, required formats, required surveys, etc.) and a detailed description of the change.

**C - SECURITY AND RETENTION OF PUBLIC SCHOOL  
AUTOMATED STAFF RECORDS**

## SECURITY AND RETENTION OF PUBLIC SCHOOL AUTOMATED STAFF RECORDS

The following procedures shall be implemented by the Florida Department of Education for the privacy, security and retention of public school staff records collected, maintained and utilized at the state level.

### **Data Security:**

Access to individual staff records will be stringently controlled through technical security conventions and procedures established by Florida Department of Education DQ2 System. The district's Single Sign-on (SSO) Administrator will need to authorize district users with the following roles:

<b>Role</b>	<b>Description</b>	<b>Required Roles</b>
STAFF	Staff users can access Staff survey data for their district.	User, K-12, Staff
DELETEFILE	Delete users can delete survey data and reports.	User, K-12, Staff, Deletefile

Appropriate SSO authorization shall be assigned to users in order to establish each user's data access authority only to the records or data elements required to complete federal or state mandated activities.

### **Records Retention:**

Individual, personally identifiable staff records shall be destroyed according to a records retention schedule established by the Department of State, Division of Library and Information Services, Records Management Program, consistent with the requirements of Section 257.36, F.S. Personally identifiable staff records shall be maintained for five years or until applicable federal or state audit functions have been completed, at which time all such records shall be destroyed except for those required for the evaluation of state or federal education programs. Personally identifiable, individual staff records maintained for the evaluation of state or federal education programs shall be destroyed when no longer required.

Year: 2021-22

Data Element Number: **217385**

Data Element Name: **Additional Compensation Type**

A code to identify each type of annual compensation scheduled to be paid.

Code	Definition/Example
1	Supplement for assignment to a school in the bottom two categories of the school improvement system under s.1012.22(1)(c)(5)(c)(II), F.S. such that the supplement remains in force for at least 1 year following improved performance in that school.
2	Supplement for certification and teaching in critical teacher shortage areas per s. 1012.22(1)(c)(5)(c)(III)F.S. Statewide critical teacher shortage areas are identified by the State Board of Education under s.1012.07, F.S. However, the district school board may identify other areas of critical shortage within the school district for district purposes and may remove areas identified by the State Board which do not apply within the school district.
3	Supplement for assignment of additional academic responsibilities per s. 1012.22(1)(c)(5)(c)(IV)F.S.
4	Bonus for instruction in a course that led to a CAPE Industry Certification per s. 1011.62(1)(o), F.S.
A	Supplement for Athletic - includes additional compensation to athletic directors, trainers, head coaches, assistant coaches, etc.
B	Supplement for Academic - includes additional compensation to band directors, department heads, cheerleader sponsors, yearbook directors, drama sponsors, etc.
E	Supplement for Inservice Stipends - additional compensation paid to an employee who has completed certain inservice hours, coursework, or other training.
F	Supplement for Extended Day - additional compensation to those who teach an extended period for extra pay beyond the regular contracted day, including teaching during a planning period and after-school tutoring.
G	Other
H	Bonus for Florida Excellent Teaching Program - includes salary bonuses and mentoring bonuses as indicated in s. 1012.72, F.S.
I	Florida School Recognition Program as defined in s. 1008.36, F.S.
J	Bonus for Performance

AUTOMATED STAFF DATA ELEMENTS

Year: 2021-22

Data Element Number: **203070**

Data Element Name: **Days Absent, Other**

---

Number of days in the 180 day school year that the teacher or school administrator was absent attributed to reasons other than personal leave, sick leave, and temporary duty elsewhere. The school year comprises the student contact days for that school. (Round to the nearest full day.) Examples of reasons for these absences include annual leave, vacation leave, professional leave, suspension with or without pay, illness-in-line-of-duty leave, sabbatical leave, military leave, absence without leave, etc. These examples are guidelines only and may vary from district to district.

Use 999 for teachers and school administrators who were on leave with pay and those who received only benefit or supplement pay for the fiscal year. Use 000 for employees other than teachers and administrators.

Note: Teachers are those employees whose job codes place them on lines 21-33 of the Public Schools Staff Survey (EEO-5). School administrators are those whose job codes place them on lines 9-19 of the Public Schools Staff Survey (EEO-5).

Data Element Name: **Migrant Regular School Year**

---

A code to identify the job category of the employee who worked with the Migrant program during the regular school year and who was paid from Title I, Part C, Migrant Education Program funds and the corresponding full-time equivalency (FTE) of this assignment.

<b>Code</b>	<b>Definition/Example</b>
A	Administrators and coordinators (non-clerical)
B	Teachers
C	Paraprofessionals (instructional)
D	Paraprofessionals (non-instructional)
E	Counselors
F	Recruiters
G	Records Transfer Staff
H	Other employee paid from Title I, Part C, MEP funds but not included in codes A-G above.
Z	Employee was not paid from Title I, Part C, Migrant Education Program funds during the regular school year or was employed in a school-wide program where MEP funds were combined with those of other programs.

Examples:

B050 Fifty percent of the teacher's assignment was in the Migrant Education Program during the regular school year and was paid from Title I, Part C, Migrant Education Program funds.

C100 One hundred percent of the instructional paraprofessional's assignment was in the Migrant Education Program during the regular school year and was paid from Title I, Part C, Migrant Education Program funds.

Z000 This employee was not paid from Title I, Part C, Migrant Education Program funds during the regular school year or was employed in a school-wide program where MEP funds were combined with those of other programs.

NOTE: To calculate FTE, use the percentage of time the employee was funded by MEP funds. Alternatively, calculate FTE using the number of days worked. One regular school year FTE equals 180 full-time work days. To calculate FTE, sum the total days the individual worked for the regular school year and divide this sum by the number of full-time days that constitute one FTE, i.e., 180 days.

Data Element Number: 211930

Data Element Name: **Migrant Regular School Year**

---

Use only the percentage of days worked by an individual that were paid by MEP funds in calculating the total FTE numbers to be reported.

Do not include staff employed in school wide programs where MEP funds are combined with those of other programs. These employees should be coded Z000.

A one-character code to describe the primary means (50 percent or more) of evaluating the impact and/or fidelity of implementing the professional development.

Code	Definition/Example
A	Changes in instructional or learning environment practices implemented in the classroom or directly with students (observed or measured impact on educator proficiency through the district's instructional or school leader evaluation system indicators, components, and/or domains, and/or deliberate practice or IPDP/ILDP growth targets, and/or district or school level processes for tracking student progress)
B	Changes in instructional leadership or faculty development practices (observed or measured impact on leader proficiency, faculty or students)
C	Changes in student services/support practices
D	Other changes in practices supporting effective implementation of job responsibilities (observed or measured impact on specific job responsibilities)
E	Fidelity of Implementation of the professional learning process (where impact on the job is not or cannot be observed or measured, evaluation is on alignment of actual training/development with planned high quality professional learning design and specific learning objective(s))
F	Changes in observed educator proficiency in implementing targeted state standards or initiatives (e.g. FEAPs practices, Principal Leadership Standards, PD Evaluation Protocol Standards, MTSS)
G	Changes in observed educator proficiency in practices that occur generally without students present (e.g. lesson design, collegial team learning processes, problem solving processes, needs assessments, data analyses, sharing practices with colleagues)

Note: Having no impact or fidelity evaluation method for a component is not an option. All components must include an evaluation method.
