Sanford, FL 32773

RE: Bachelor of Science in Public Safety Administration

Dear Dr. Lorenz,

Seminole County Office of Emergency Management is honored to support Seminole State College's proposal for a Bachelor of Science in Public Safety Administration. This program will assist with filling a need for qualified employees in the fields of emergency planning, emergency management, criminal justice, fire science technology, and emergency medical services. The Office of Emergency Management is committed to provide experiential learning opportunities for students enrolled in the program.

Through our long lasting partnership, the Office of Emergency Management understands Seminole State College continues to develop and promote programs that address future workforce needs and current employment opportunities. There is an incredible need in the area of disaster planning and managements. The ability to expand baccalaureate degree offerings can only mean an increased opportunity for students to obtain degrees locally in high-demand areas. This baccalaureate degree program is critical in creating high-paying jobs within our industry.

The Seminole County Office of Emergency Management fully supports Seminole State College in their effort to offer a baccalaureate degree in Public Safety Administration.

Please contact me if you have any questions at 407-665-5017 or
AHarris@seminolecountyfl.gov.

Sincerely,
SEMINOLE COUNTY EMERGENCY MANGEMENT

RE: Bachelor of Applied Science in Public Safety Administration

Dear Dr. Lorenz,

Please accept this letter as my support of Seminole State's development of a Bachelor of Applied Science in Public Safety Administration. Our agency is excited to hear of the learning opportunities that students will have throughout the degree. We are in desperate need of a degree that prepares students for administrative and management level opportunities in the public safety sectors of law enforcement, fire services, corrections, and emergency medical services. The graduates need to have the interpersonal skills and abilities to enter an in-demand, high skill, workforce-based career. Based upon our past and current relationship with Seminole State College, I am confident a program will be delivered that provides baccalaureate graduates with the skills to lead within their field.

It is important to our agency that students have the ability to complete a degree program in Public Safety Administration that is affordable, accessible, and workforce oriented. Seminole State College is committed to meeting this need while supporting students throughout their program of study. The commitment to excellence through advanced knowledge that students will gain through this needed degree will have a direct impact on our local, state, and federal governments, as well as in the private sector.

Please accept this letter as my endorsement of Seminole State in their efforts to offer a Bachelor of Applied Science in Public Safety Administration.

Sincerely,

Dale Coleman
Chief of Police
Oviedo Police Department

RE: Bachelor of Applied Science in Public Safety Administration

Dear Dr. Lorenz,

Please accept this letter as my support of Seminole State's development of a Bachelor of Applied Science in Public Safety Administration. Our agency is excited to hear about the learning opportunities that students will have throughout the degree. As Seminole State College provides many opportunities for our members at the Seminole County Sheriff's Office, they are very deserving of this added degree program. We are in desperate need of a degree that prepares students for administrative and management level opportunities in the public safety sectors of law enforcement, fire services, corrections, and emergency medical services. The graduates need to have the interpersonal skills and abilities to enter an in-demand, high-skilled, workforce-based career. Based upon our past and current relationship with Seminole State College, we are confident that they will deliver a program that provides baccalaureate graduates with the skills to lead within their field.

It is important to our agency that students have the ability to complete a degree program in Public Safety Administration that is affordable, accessible, and workforce oriented. Seminole State College is committed to meeting this need while supporting students throughout their program of study. Our partnership with Seminole State College has allowed us to provide the best for our community and its students. The commitment to excellence through advanced knowledge that students will gain through this needed degree, will have a direct impact on our local, state, and federal governments, as well as in the private sector.

I fully support Seminole State in its efforts to offer a Bachelor of Applied Science in Public Safety Administration. If there is anything that we can do to ensure they are given this added degree program, please do not hesitate to contact us.

Sincerely,

A handwritten signature in blue ink that reads "Dennis M. Lemma". The signature is fluid and cursive.

RE: Bachelor of Science in Public Safety Administration

Dear Dr. Lorenz:

On behalf of the Florida Department of Health in Seminole County, I would like to submit a letter in support of Seminole State's development of a Bachelor of Science in Public Safety Administration.

The Florida Department of Health is responsible for the regulation of health practitioners for the preservation of the health, safety, and welfare of the public. We work to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts. Our agency is excited to hear of the learning opportunities that students will have throughout the degree. In public health, we are in need of a degree that prepares students for administrative and management level opportunities in the public safety sectors of law enforcement, fire services, corrections, and emergency medical services to assist with the overall wellbeing of the community. Based upon our past and current relationship with Seminole State College (SSC), we are confident that the college will deliver a program that provides baccalaureate graduates with the skills to lead and will assist with filling a need for qualified employees within their field. It is important to our agency that students have the ability to complete a degree program in Public Safety Administration that is affordable, accessible, and workforce oriented. The commitment to excellence through advanced knowledge that students will gain through this needed degree will have a direct impact on our local, state, and federal governments, as well as in the private sector.

In support of SSC's commitment to our community, the Florida Department of Health in Seminole County is a longstanding partner and gives its firm and resolute support for their efforts to offer a Bachelor of Science in Public Safety Administration.

Sincerely,

RE: Bachelor of Science in Public Safety Administration

Dear Dr. Lorenz,

The Seminole County Board of County Commissioners is pleased to support the College's proposal for a Bachelor of Science in Public Safety Administration. This program will assist with filling a need for qualified employees in the fields of emergency management, emergency planning, criminal justice, fire science technology, and emergency medical services. The commitment to excellence through advanced knowledge that students within this degree will gain directly aligns with the goals and requirements of the Seminole County workforce. College students need to be prepared to work in creative and diverse environments, while also bringing innovative ideas to manage and lead into the future of these ever-changing industries.

Seminole State College continues to develop and promote programs that address future workforce needs and current employment opportunities. The ability to expand baccalaureate degree offerings can only mean an increased opportunity for students to obtain degrees locally in high-demand areas. Our Board believes that this baccalaureate degree program is critical in creating high-paying jobs within the public safety field.

The Seminole County Board of County Commissioners is in full support of Seminole State College in the effort to offer a baccalaureate degree in Public Safety Administration.

RE: Support for Seminole State College's proposed Bachelor of Applied Science in Management and Organizational Leadership and Bachelor of Science in Public Safety Administration, Bachelor of Science in Exceptional Student Education K-12, and Bachelor of Science in Elementary Education K-6

On behalf of the University of Central Florida (UCF) and the Central Florida Higher Education Consortium including representation from College of Central Florida, Daytona State College, Eastern Florida State College, Lake-Sumter State College, Seminole State College, Valencia College, and UCF, I am writing this letter to support the Bachelor of Applied Science in Management and Organizational Leadership and Bachelor of Science in Public Safety Administration, Bachelor of Science in Exceptional Student Education K-12, and Bachelor of Science in Elementary Education K-6 being proposed by Seminole State College.

In 2005, the Central Florida Higher Education Consortium was formed to guarantee students graduating with an Associate of Arts, as well as selected Associate of Science degrees, from Consortium member institutions admission to the University of Central Florida. The Consortium operates within the guidelines of a Regional Operational Plan. With this agreement, Consortium member institutions agree to conduct a collaborative review of new baccalaureate degrees being proposed by any of the six state college members. This review process involves a regional workforce supply-demand gap analysis, and an extensive review of data shared among the chief academic officers of each member institution.

The Consortium members believe that this review process is thorough, and it is consistent with the members' shared goals of meeting local and regional workforce demands without unnecessary duplication of degree programs.

Therefore, I add my support to this proposed Bachelor of Applied Science in Management and Organizational Leadership and Bachelor of Science in Public Safety Administration, Bachelor of Science in Exceptional Student Education K-12, and Bachelor of Science in Elementary Education K-6 for Seminole State College.

Sincerely,

Theodorea Regina Berry

Theodorea Regina Berry, Ed.D.

---------------	-----------------

- How much money do people with this degree make
- Accreditation
- Worried if program will be what I need for my chosen career as homicide detective versus Criminal Justice degree.
- Interesting subject.
- N/A
- - -
- law
- Shift friendly for firefighters that are interested!
- pursuing fire science degree
- N/A
- financially
- Need break from finishing up from current program
- asd
- Major change
- N/A
- changing to nursing
- Acceptance of current Fire Science classes from UF
- I am wanting to get a degree in Microbiology, not Public Safety.
- Already have a bachelors in Criminal Justice.
- none
- The curriculum
- 100% online, no at school testing.
- Real life experience credits are applied
- Flexible schedule is very important to me as well as some in class session
- I'm not interested in Public Safety Admin
- Certifications for those who already have a BS would be great!
- N/A, Not interested
- I seek a program that has instructors that are current practitioners not loaded with academics and not locked in on the public rhetoric that is being professed.

Seminole State College of Florida

Seminole State Public Safety Administration BAS

5 - 4. Are there any special considerations that would affect whether you would enroll in a bachelor's in applied science program in Public Safety Administration offered by Seminole State? If yes, please explain:

Response Rate	111/3296 (3.37%)
----------------------	------------------

- No
- Price, and a good all around program, works with fire/ems scheduling. Mix of online and field internships and in person class teaching would be nice.
- no
- As an employee I would love to pursue a Bachelors at Seminole State, I already have an AS in Criminal Justice Technology as well as several certificates and I am also a graduate of the Law Enforcement Academy at SSC. Pursuing this degree would help keep my costs lower via fee waiver and tuition reimbursement. If the degree is a BS then I would likely pursue it, however, if it is a BA I would not pursue it because it would mean I would have to take additional courses (in areas that are not my greatest strength, like Math). Lastly the ability to complete the degree fully online is something that will leverage my decision as well ... if I am forced to come on campus for classes at times that may be difficult I will likely continue with my current plan (I am considering taking Legal Studies at UCF which can be completed fully online).
- No
- If it was offered online that would be a huge bonus.
- No
- Yes. If my financial aid money can also pay off this class as well, just like my 4 classes.
- N/A
- no
- The same applies here with the "other" option before.
- Number of classes accepted from ucf
- I am at Seminole state on scholarship, money is a huge part of whether or not I could pursue a bachelors.
- If you transfer credits from other degrees or if you substitute this class for that class. If attend Lynn for BA will credits go towards BS
- Due to my schedule with my children, online learning would work best, maybe even Saturday courses.
- Would need online only coursework.
- I'm not sure that i would pursue public safety administration
- No
- no
- If at all possible, maybe offer transferability into the program for students who are in progress of completing a BA or BS, or have been awarded their degree.
- no
- No.
- If I can still go on my future career path
- No
- No
- N/A
- Being able too at the moment. I am definitely going to work towards a degree like this but right now I am just getting my career started and going to most likely work towards medic.
- I'm a police officer that works a Monday through Friday shift during the day. I would need night classes or online classes to be able to pursue this degree.
- N/A
- -_-
- N/A
- No
- no
- No not at all
- n/a
- phycologist
- none
- No
- No
- No.
- no
- I'd personally love this degree as I am searching for a degree related to my field (currently a firefighter). I would love to see shift based classes that I can attend without causing conflicts at work.
- I will considered in the future but currently working on a different degree.
- I have a busy schedule and being able to fit school between work and my family is really important to me. Also, being able to contact faculty within the program has been a hassle so far. If I can't get assistance when I need it, I wouldn't be interested in pursuing another two years at Seminole State College.
- no
- no
- n/a
- No
- N/A
- N/A
- My considerations are to know if this will get me closer to becoming a detective after joining aaw enforcement agency.
- The resources for Financial Aid and if it is offered online as I am a Law Enforcement officer.
- I just graduated SSC with CJ AA and now I'm at UCF going for my BS degree. I don't think I want to switch back over to SSC, but I may be interested in going for that degree after I finish at UCF.
- As long as I could complete it in a year I would sign up today for the program
- sd

Seminole State College of Florida

Seminole State Public Safety Administration BAS

- I switched careers and would not be interested in this degree, I would be interested in pursuing the bachelors of nursing.
- Yes, I won't be able to attend without financial aid because I already have 130k student loans and can't effort student loans anymore.
- No
- I am employed with a law enforcement agency. My work schedule would be my biggest factor in enrollment.
- I am currently working on going to UCF after this next upcoming semester.
- No
- Flexibility with those who are already working full time in a professional capacity.
- It would have to be a completely online program
- I am already on the path for a bachelor's in Criminal justice.
- face to face classes
- no
- N/A
- no
- Price, online courses and flexibility. I work 48 hours a week and have family responsibilities as well.
- N/A
- Not accepting my credits from UF for my emergency management classes.
- No.
- If it was offered online.
- Interested in Microbiology.
- N/A
- n/a
- n/a
- N/A
- No.
- Yes, I am at this time reconsidering my major.
- n/a
- Yes, if it'd help me advance and progress in my career down the road
- No special considerations
- none
- No.
- no
- no
- Would our credits from our A.S degrees count towards the bachelors, I.e A.S Fire Science
- Previously it was very difficult for students to complete a degree 100% online. Many classes required some time to travel to a SSC campus and test.
- Well working in the field now as a paramedic I would like it to be shift friendly so I could attend classes that are needed in person. If it's able to be completed online then I have no real concerns.
- The program should accept life experience credit and FL Fire/ProBoard credits to be applied to the program
- most of us are on 24/48's or 223 schedules flexibility is very important. I would also appreciate some in class time. I find I lean best when I can interact and have discussions. Not just sit in front of a screen and reply to 2 student posts.
- Not interested in pursuing this degree
- no
- Online classes would make attending more feasible
- Cost of classes
- I am going for my masters at Embry-Riddle.
- I would like to be able to come to the campus for classes. Online learning is not my strong suit. I'm definitely more engaged in a class environment. As previously noted, a flexible schedule that is work oriented would be best.
- No.
- Eligibility. I have a BS already.
- No, I just want a to get a degree in a program that has hands on experience and I don't think I will here.
- no
- No
- Needs to be Firefighter shift friendly.
- N/A
- As noted, I seek a program that has instructors that are current practitioners not loaded with academics and not locked in on the public rhetoric that is being professed. There are only so many times that a person can hash over the technical aspects of these particular disciplines, whether it be fire, law, or emergency medicine the repetition is nauseating. What programs need to research and adjust to is what is causing strife, conflict, confusion, and most of all discharge and disharmony. There should be a greater focus on strategic goals and planning, human resource issues, training and personnel development, finance and governmental legal procedures, how to hold politicians, bureaucrats, and appointed persons to task and accountability when executing their respective policy mandates.
- no
- Cost of in-state tuition for the B.A.S. program
- No
- N/A
- No

Seminole State College of Florida

Seminole State Public Safety Administration BAS

6 - 5. Please share additional comments:

Response Rate	54/3296 (1.64%)
----------------------	-----------------

- I would very much be interested in this program
- I think this offering is a great idea but it needs to have multiple paths to completion ... traditional face to face, hybrid and fully online in order to achieve the best enrollment outcomes. Personally I'm on board if the program is fully online and depending on how soon it would be offered. I'm looking to start at UCF in the Spring and not sure I am willing to wait on political red tape to see if/when the program may be offered
- It is great for us majoring in Criminal Justice because it can open many more doors and we get more experience, and it involves real life scenarios. It can also help us get a career in local, state or federal, which is great. Although, my question is how would it work out? would that be like a separate class from the other 4? Will Financial Aid pay for that class as well? But I am very interested!
- I would love to see more opportunities to be a part of these very important courses that could help to shape a future career down public safety and administration.
- none
- This is a wonderful program, and I'm glad SSC is now offering it. I have to do some thinking and research to see of this is what I need versus a Criminal Justice degree, but I am interested in this.
- I think this would be a phenomenal idea.
- Bring public admin to SSC!
- If only this was being considered a year sooner!! I am in the process of completing my BS in Criminal Justice, scheduled to graduate Summer 2021. I think having this program concentration is much more appealing, and quite honestly, more practical for students who have yet to enter the work force. While a Criminal Justice degree is great, it is tracked just towards corrections, law enforcement, and private security. Having the Public Administration background would let someone truly branch out into nearly all forms of government and even the private sector due to the leadership traits learned.
- This would be a great opportunity for those of us that are trying to further advance our careers, but do not have the time to attend the UCF program.
- Great Idea.
- N/A
- I probably would have signed up for this major if it was offered before I started the BIM program.

- I plan on pursuing my bachelors degree in nursing.
- I've enjoyed being a student at SSC, from the campus to the professors, it made my time very enjoyable. I was saddened I had to move on because there wasn't a bachelors program geared towards criminal justice and public safety. Reading about the proposal and possibility this bachelors program may be offered is it exciting I'm sure not just for me but many others. If this proposal is approved I will definitely be completing my bachelors at SSC
- I am very interested in this program.
- nothing at this time
- Seminole State is a very good college that helps students pursue a career in the field they are learning in. I recently took EMT class there and would love to continue on to Paramedic and further my knowledge and skill set for my career as a firefighter. With being a firefighter I would love to grow with a degree in fire technology and eventually get my Bachelor's degree as well which is why I would highly recommend this course to people like me who may also be interested in furthering their careers.
- None.

- I think this would be a great program to add. I am highly interested in continuing my education.
- I was just thinking about going back to school for my bachelors and this would be absolutely perfect! I love SSC and I really hope you guys go through with this.
- I'm currently working on completing my Associates of science for criminal justice so if i could have the option of committing on in seminole state for a bachelors of science, I would love that! I loved learning at seminole state and if I had the option to continue my studies here, I would take it! Please make this proposal happen!
- Dont want

- I think this is a great proposal. If the degree is already offered as an A.S, I'm sure many students who've already gotten their associates would further be interested in acquiring their bachelors.
- Would only be interested if offered in an online format.
- N/A
- I have several credits in CCJ with Seminole State that are not applicable towards my degree at UF. I would really love to find a program that can combine both and reduce my time until I graduate which has been extended several times due to life, family and now Covid. I would really like to graduate with a B.S. before I turn 40!
- Please make this happen! I've been going to Seminole state for a while now as I was perusing my AA, and it's really sad knowing that I'd have to go to ucf to complete my bachelors in criminal justice. I am very comfortable with this college, the campus, the professors, literally everything so it's upstanding inconvenient that I am forced to leave everything behind only because they don't offer this degree yet! I'll be the first to sign up!

- I will be pursuing a Bachelors Degree in Public Safety starting next year. I really would like to stay in Seminole state if possible.
- none
- When is a target date to offer this?
- I love Seminole State and everything they have to offer. I believe that this program would be amazing and I would 100% participate as soon as possible.
- Would absolutely love if this program became available.
- dont have any thank you
- Seminole State College is the best.
- Trying to find funds for school and work at finding a full time job.

Seminole State College of Florida

Seminole State Public Safety Administration BAS

- Keep the surveys coming....
- I feel that this program would be beneficial for first responders across Florida and meets a demand that is currently limited at the state college level.
- I would love for the opportunity to attend Seminole State for this program. I recently graduated from Seminole State in 2017 with an A.A. in Criminal Justice and I am currently attending Lynn University for my Bachelors for a similar degree. It would be amazing to be able to come back to Seminole State and work towards earning this degree rather than going to a school hours away from where I live. I really hope this opportunity for this degree becomes a real thing at SSC!
