2022–23 Florida Assessment of Student Thinking (FAST) Fact Sheet
Grades 3–10 ELA Reading and Grades 3–8 Mathematics

FAST Overview
In March 2022, Governor Ron DeSantis signed new legislation that replaces the grade-level Florida Standards Assessments (FSA) in English Language Arts (ELA) and Mathematics with the Coordinated Screening and Progress Monitoring System, also called the Florida Assessment of Student Thinking (FAST), required in section 1008.25(8), F.S. This fact sheet provides an overview of the new FAST system for grades 3–10 ELA Reading and grades 3–8 Mathematics that will be administered for the first time during the 2022–23 school year.

Grades 3–10 FAST Overview
• Grades 3–10 FAST ELA Reading and grades 3–8 FAST Mathematics assessments are aligned to the Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards.
• Because all FAST assessments are computer-adaptive, items may become progressively harder as students successfully respond to items and easier if students answer more questions incorrectly.
• FAST assessments are administered three times during each school year: once at the beginning of the year (PM1), once in the middle of the year (PM2), and once at the end of the year (PM3).
• Each PM event is tied to a blueprint for the full grade-level content. The ELA and Mathematics blueprints show how many items in each reporting category students will encounter during each PM window.
• Here are descriptions of each PM opportunity for students:
  o PM1 – because this administration occurs at the very beginning of the school year, it is designed to provide a baseline score so teachers can track student progress in learning the B.E.S.T. Standards from PM1 to PM2.
  o PM2 – by the time of this administration window, students will have had an opportunity to learn the grade-level standards, and this administration will provide a mid-year score to compare to the baseline score from PM1.
  o PM3 – this last administration will provide a summative score that will accurately measure student mastery of the B.E.S.T. Standards at the end of the school year. While PM1 and PM2 are for informational purposes only, PM3 will be used for school accountability beginning in the 2023–24 school year.

Administration Windows
FAST will be administered during three windows in the school year (PM1, PM2, and PM3). The following windows have been established to provide schools with maximum scheduling flexibility; they do not reflect the amount of time one school will spend administering tests.
• PM1: August 15–September 30, 2022
• PM2: December 5, 2022–January 27, 2023
• PM3: May 1–June 2, 2023

Session Lengths
All FAST assessments are administered in one session in one day, and it is recommended that students only take one subject test per day. After reviewing the test blueprints, committees of Florida educators made the
following timing recommendations for the FAST assessments. These times indicate the maximum amount of time that should be provided for students who require it:

<table>
<thead>
<tr>
<th>Grades/Subject</th>
<th>PM1 and PM2</th>
<th>PM3*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grades 3–10 ELA Reading</td>
<td>Up to 90 Minutes</td>
<td>120 Minutes</td>
</tr>
<tr>
<td>Grades 3–5 Mathematics</td>
<td>Up to 80 Minutes</td>
<td>100 Minutes</td>
</tr>
<tr>
<td>Grades 6–8 Mathematics</td>
<td>Up to 100 Minutes</td>
<td>120 Minutes</td>
</tr>
</tbody>
</table>

*The PM3 administration is slightly longer than PM1 and PM2 because the assessments contain embedded field test items.

For PM1 and PM2, the Bureau of K–12 Student Assessment provides scheduling guidance in the test administration manual and scripts. For scheduling purposes, a recommended session length is provided, but students who are still working at the end of that time should be provided with the maximum allowable time as indicated in the table above. For PM3, students must be provided with the total time indicated in the table.

**Testing Systems**

All grades 3–10 FAST assessments are computer-adaptive and will be administered and reported using the following systems:

<table>
<thead>
<tr>
<th>Online Management/Student Data</th>
<th>Test Information Distribution Engine (TIDE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Online Test Delivery</td>
<td>Test Delivery System (TDS) with Secure Browser</td>
</tr>
<tr>
<td>Results Reporting</td>
<td>Florida Reporting System (FRS)</td>
</tr>
<tr>
<td>Results for Parents</td>
<td>Family Portal</td>
</tr>
</tbody>
</table>

**FAST Mathematics**

Please note the following information specific to FAST Mathematics:

- Students must be provided with blank scratch paper for all FAST Mathematics tests.
- Students will access and use the calculator provided in the student testing platform for the calculator segments of grades 6–8 FAST Mathematics. Handheld calculators are not permitted, except for students with an accommodation for a handheld calculator on an Individual Education Plan (IEP)/Section 504 Plan. Students can familiarize themselves with the calculator online:
  - Grade 6 (four-function)
  - Grades 7 and 8 (scientific)
- Online mathematics reference sheets are available in the testing platform for students in grades 4–8.
- For more information about calculators and reference sheets, please refer to the [Florida Statewide Assessments Calculator and Reference Sheet Policies](#) document.

**Grades 3–10 FAST Reporting**

In the first year of a new statewide assessment system, only certain information can be reported until standard setting takes place and new scale scores are established.

For the 2022–23 school year, the following information for grades 3–10 FAST ELA Reading and grades 3–8 FAST Mathematics will be reported:

- Provisional scores will be linked to an FSA equivalent scale.
- Students will receive an overall scale score and achievement level for the overall scale score on the equivalent scale.
• Students will also receive reporting category scale scores and achievement levels for reporting categories.
• Teachers will see results, by benchmark, at the student and classroom level.
• School and districts will see all results at the school and district level.
• After the close of the window, the Florida Department of Education (FDOE) will report percentile ranks at the student level for parents, schools, and districts.

PM1 and PM2
For this transitional year, it is important for teachers and families to understand that this information is intended to provide baseline and mid-year results for PM1 and PM2 respectively. These results are for informational purposes only and should be used to identify areas that may need additional instruction and support. These results should not be considered student achievement designations.

PM3
PM3 provides a summative score at the end of the year to measure student mastery of the grade-level content standards.

In the 2023–24 school year and beyond, FDOE will report on a new FAST score scale that will be presented for approval to the State Board of Education once standard setting is conducted in the summer of 2023. For more information on the standard setting process, please visit the Standard Setting page on the FDOE website.

Sample Test Materials
Sample test materials (STMs) contain sample test items aligned to the B.E.S.T. Standards and allow teachers, parents/guardians, and students to become familiar with the various item types that will be encountered on the assessments, as well as the system, functionality, and tools on computer-based tests. Please note the following:
• While students are encouraged to use STMs, practice test sessions are not required prior to testing.
• For students taking grades 6–8 Mathematics, it is strongly encouraged that they become familiar with the online calculator prior to testing (handheld calculators are not permitted, except for limited accommodations).
• STMs for paper-based accommodations will be available (online only) in fall 2022.

STMs may be accessed through the Sample Test Materials area of the FAST Portal. This site also allows test administrators to practice creating and starting test sessions in TDS for grades 3–10 FAST.

Remote Testing
Remote testing will be available for FAST assessments during PM1 and PM2 only and will only be available for students enrolled full-time in a virtual school program or for those students who are hospital/homebound. Resources for administering tests remotely can be found in the 2022–2023 FAST Remote Proctoring for Students and Families document.

Remote testing is not available for PM3, Writing, grades 5 & 8 Science, EOCs, or retake administrations.

Additional Resources
Please use the links below to access resources addressing the following topics:
• Accommodations
• Statewide Assessment Schedules
Additional Information

- Students in grade 3 must achieve a Level 2 or higher on PM3 of the Grade 3 FAST ELA Reading Assessment for promotion purposes. For more information on this requirement, as well as good cause exemption information for students who score in Level 1, please see the Third Grade Guidance page on the FDOE website.

- Reading Scholarships are available for eligible grades 3–5 students enrolled in a public school who scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year.

- Students who entered grade 9 in 2013–14 and beyond must pass the Grade 10 ELA assessment for graduation purposes. For more information, including concordant score and alternate passing score information, please see Graduation Requirements for Statewide Assessments.

Please visit the FDOE website and the Florida Statewide Assessments Portal for more information about the statewide assessment program.
