EXECUTIVE SUMMARY

Senate Bill 366 (2021) amended multiple Florida Statutes to expand the mechanisms institutions may use to assess readiness for college-level work. In addition to identifying approved common placement tests, the State Board of Education (SBOE) adopted an amendment to Rule 6A-10.0315, F.A.C., Demonstration of Readiness for Communication and Computation, which identifies alternative methods for assessing communication and computation skills.

The purpose of this rule amendment is to replace outdated language with the language from Rule 6A-10.0315, F.A.C., effective March 2022. In addition, the rule amendment incorporates by reference a form that postsecondary career centers must use to annually report course substitutions. This change aligns the career center reporting requirements with the Florida College System reporting requirements. Other technical changes will be made.
