EXECUTIVE SUMMARY

At the October 2022 State Board of Education meeting, Senior Chancellor Oliva identified several school districts that have policies or procedures that may conflict with recent legislative changes or State Board of Education rules, so that these districts could evaluate and consider revisions to their documents.

On November 18, 2022, ten districts were sent a letter identifying the language from their district documents. The letters indicated that an update would be provided to the State Board of Education on the districts' latest status as of December 9, 2022.
