

STUDENT DATA ELEMENTS

2025-26

Data Element Number: **197260**

Data Element Name: **Postsecondary School of Enrollment**

Definition: The state assigned four-digit school number in which the student is officially enrolled in postsecondary instruction.

Postsecondary School of Enrollment will be used for reporting performance outcomes by school for legislatively required reports. The main campus school number must be reported for the postsecondary enrollment for institutions accredited by the Council on Occupational Education (COE). For all instruction offered through non-accredited instructional sites, the value of 9999 must be reported.

School of Instruction should not match School of Enrollment in the following situations:

- Instruction is provided on an extension campus which falls under the accreditation of a Council on Occupational Education (COE) accredited site. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
- □ Instruction is provided at a separate school that has been approved as an alternate site under an accredited institution. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
- □ A student is dual enrolled and instruction is provided at the secondary school. In this situation, the school of enrollment would be the school that was providing the instructional services, not the physical location of the instruction.

Code	Definition/Example
0001-0899	District school sites assigned a unique number in the state Master School ID File.
9999	Non-COE accredited institution

Data Element Detailed Information
