SUBJECT: OSFA Communication – Extension for Receipt of DES Reimbursement Request
(Forwarding message: Dual Enrollment Scholarship)

Section 1009.30(5), Florida Statutes, require that all dual enrollment reimbursement requests be submitted by March 15 for the fall and spring terms. It has been brought to our attention that this date falls in the middle of spring break for many institutions which creates significant burden for these institutions to report timely. As a result, we have requested and received approval to accept reimbursement requests submitted via the prescribed methods through 11:59pm on April 1, 2022.

If you have any questions, please contact Rashad Crawford via e-mail at Rashad.Crawford@fldoe.org or at 850-245-1954.

You have received this message because you were reported on the Institutional Renewal Application as the Financial Aid Director, as an alternative contact person, or a state program contact at your institution.
