Credit or Clock Hour for Military Experience Equivalency List

Section (s.) 1004.096, Florida Statutes, requires that the Articulation Coordinating Committee (ACC) "shall approve a prioritized list of postsecondary course equivalencies and the minimum postsecondary credit or career education clock hours that must be awarded for courses taken and occupations held by individuals during their service in the military." In compliance with the *Articulation Coordinating Committee Policy Regarding the Evaluation and Awarding of Postsecondary Credit for Prior Military Training, Courses and Occupations*, and s. 1004.096(f), F.S., State University System (SUS) institutions, Florida College System (FCS) institutions, and career centers must award postsecondary credit, or career education clock hours, for courses taken and occupations held by military service members based on the list adopted by the Board of Governors and the State Board of Education if the credit or clock hours are applicable toward the student's degree or certificate.

This list was compiled from subject area discipline committees made up of content experts from our SUS institutions, FCS institutions, and Career Centers. The Course(s) Award column contains equivalencies gathered from a majority vote through survey submission.

- Institutions may award additional postsecondary credit or career education clock hours, if appropriate.
- Institutions must use the course number listed, unless it would be advantageous to the student to award a specific course number with equal credit that satisfies program prerequisites or other requirements.
- Institutions must award the same number of credits or clock hours that are awarded for the course.
