MEMORANDUM

TO: College Presidents
District Technical Center Directors
Florida College System Occupational Deans

FROM: Dr. Eric Hall, Chancellor for Innovation

DATE: October 18, 2019

SUBJECT: Postsecondary Student Survey about Career and Technical Education

This summer, the Florida Department of Education has a unique opportunity to take a look at career and technical education as it is offered in the State of Florida. A short survey has been designed for postsecondary career and technical education students, which should take at most 10 minutes to complete. The survey will take a look at the student's participation, experiences, and opinions on career and technical education programs like culinary arts, manufacturing, digital technologies and more. Responses will remain completely confidential. Names and other identifying information will not be requested, and all the results will be analyzed in such a way that responses will not be linked to an individual.

The survey is accessible at the following link: <https://www.surveymonkey.com/r/R98JJ9H>.

We ask that you circulate the above link, which includes the above information. Participation is critical as it will serve to identify areas for improvement.

If you have any questions about this survey, please contact Tara Goodman at tara.goodman@fldoe.org or 850-245-9002.

The survey will also be posted on the department's social media for easy access and sharing.
