

Statewide Course Numbering System Instructions

Steps to determine the number of institutions that offer course(s):

1. Navigate to the top of the page and select "FIND A COURSE"
2. Then click "Find a Statewide Course"
3. Under the "Search Statewide Course" tab, select or type in the "Prefix" and select from the drop down.
4. In the "Course Number Range", type in the course prefix number and click "Search".
5. Click in the course that populates in the "Course Number" column.
6. On the top left tab, click on "Institutions".
7. Count the number of institutions (FCS and SUS) that offer the course. Please note that courses with a "C" designator or with "Honors" in the course title will also count for non-designator courses. For example, if counting how many institutions offer MAC2311, then MAC2311C or MAC2311 Honors will also count. However, if counting courses with a "C" designator or with "Honors" in the title, then non-designator courses will not count.
