

# EQUIPMENT LIST

## **DIAGNOSTIC MEDICAL SONOGRAPHY TECHNOLOGY (postsecondary)**

Students in this program should have access to the following equipment:

anatomy charts  
AV equipment  
AV materials  
computer system  
computer software  
computer table  
crash cart kit  
doppler, color (real time)  
film bin  
film cassettes  
film copier  
film processor  
first aid kit, wall mount  
gel warmers  
hamper, folding  
imagers, film camera  
monitors, TV  
oxygen tanks  
phantoms, doppler quality assurance  
phantom, half size body  
phantom, internal organs  
phantom, life size axial torso  
phantoms, multipurpose quality assurance  
printers, black & white thermal paper  
printers, color thermal paper  
slide maker  
sphygmomanometers: aneroid manometer  
step stools  
stethoscope  
stretchers  
thermometer  
transducers:  
    3.5 MHz sector,  
    5 MHz sector,  
    5 MHz curvilinear,  
    7.5 MHz linear,  
    10.0MHz linear

ultrasound equipment  
universal precautions kit  
view boxes, free standing  
view boxes, wall mount  
wheelchair
