

EQUIPMENT LIST

Practical Nursing

The equipment below is common to the Practical Nursing program. Student access to this equipment better ensures successful completion of the program and employment opportunities.

Recognize and respond to emergency situations

1. Sphygmomanometer
2. Stethoscope/teaching stethoscope
3. Thermometer: digital: oral/rectal/tympanic/temporal
4. CPR manikins: adult and infant
5. AED: defibrillator pads
6. Face shields/one way valves
7. Disinfectant/bleach
8. Ambu bag
9. Face mask

Recognize and practice infection control procedures

10. Disposable gowns
11. Gloves non sterile: latex and Nitrile sizes small, medium, large and x-large
12. Face mask: surgical, N-95
13. Face shield/protective eye-ware
14. Isolation bags
15. Germ glo and UV light
16. Liquid soap/ hand towels/hand sanitizer
17. Sanitizing wipes/disposable stethoscope and thermometer
18. Sterile gloves: sizes small, medium, large and x-large
19. Surgical scrub nail brush
20. Biohazard bags/containers
21. Sharp containers

Describe the anatomy and physiology of the human body

22. Anatomical model: torso, cell, heart, kidney, lungs, reproductive, eye and ear, and skin
23. Skeleton

Perform aseptic techniques

24. Sterile gloves. Small medium, large, x-large
25. Sterile gowns
26. Sterile field
27. Sterile dressing Gauze Pads: 4x4, 2x2, kerlex and kling roll bandage, abdominal pad
28. Sterile cotton tip applicators, tongue blades
29. Sterile solutions

Perform nursing procedures

30. Hot and cold packs
31. Aquathermia pad
32. Cooling blanket
33. Sitz bath
34. Pelvic belt
35. Cervical collar
36. Chest drainage systems/Kelly clamps
37. Sterile dressing Gauze Pads: 4x4, 2x2, kerlex and kling roll bandage, abdominal pad
38. Sterile cotton tip applicators, tongue blades
39. Sterile solutions
40. Tape: Paper/Silk
41. Bandage scissors
42. Ace wraps: 2 in, 3 in rolls
43. Abdominal binder
44. T Binder/Double T binder
45. Breast binder
46. Orthopedic braces
47. Wrist sling
48. Sling/swathe
49. Wound simulators
50. Wound culture swab
51. Foley cath/straight catheter kit/external condom catheter
52. Colostomy/Ileostomy/Urostomy appliance with clamps, wafer, skin prep pads, powder or paste
53. Drains: Penrose, Jackson -Pratt, Hemovac
54. Cool ice machine
55. Nasogastric tubes
56. Suction set up
57. Irrigation kit with 60 cc piston syringe
58. Penlight
59. Tuning fork
60. Hammer
61. Enema: Fleets and Soap Suds
62. Guaic kit
63. Tracheostomy kits/fenestrated and non-fenestrated/cuffed and non-cuffed/straps
64. Tracheal suctioning/cleansing kits
65. Three-way catheter
66. Incentive spirometer
67. Acapella
68. Glucometer/test strips/lancets/alcohol pads
69. Humidifier
70. Oxygen apparatus, nasal cannulas, venti mask, partial and non-rebreather masks, trach collar, face mask
71. Oxygen tubing/adapters
72. IV bags: 50ml mini bags, 500 ml,, 1000 ml
73. IV tubing: primary and secondary
74. IV tubing with dial flow
75. IV pump and pole

Administer medications

76. Medication cart
77. Practice Topical medications/transdermal patches

78. Practice MDI inhalants/spacer
79. Practice oral tablets/capsules/liquids/ unit dose/30 day supply cards
80. Practice sublingual
81. Practice suppositories/water soluble gel
82. Practice injectables: ampules, single dose vials, multi dose vial, reconstitute vials,insulins, heparin, low molecular weight, cartridges
83. Practice otic/optic/nasal drops and ointment
84. Intramuscular Needles: 21 gauge,23gauge 1-1 1/2 inch
85. Subcutaneous Needles: 1/2-5/8 inch/ 25 gauge
86. Intradermal Needles: 3/8-5/8 inch 26-27 gauge
87. Syringes: 1ml TB,0.5ml insulin, 1ml insulin, 3ml
88. *Electronic medication dispensing system
89. *Barcode scanning system/computer software/computer on wheels

Provide care of medical/surgical/oncology patient, utilizing nursing principles

90. Simulators: man
91. Simulator software
92. Monitor and video equipment

Provide care for maternal/newborn patients, utilizing nursing principles

93. Simulators: birthing and infant
94. Simulator software
95. Monitor and video equipment
96. Bulb syringe
97. Perineal pads
98. Infant urine specimen collection bag
99. Diaper/wipes
100. Baby blanket/swaddle
101. Bottle/nipples

Provide care for pediatric patients, utilizing nursing principles

102. Simulator: pediatric
103. Simulator software
104. Monitor and video equipment
105. Crib with safety apparatus
106. Scale
107. Diaper weighing scale
