

EQUIPMENT LIST

RESPIRATORY CARE (postsecondary)

Students in this program should have access to the following equipment:

adaptors, assorted
adaptors, Brigg's (T-tubes)
aerosol generators/nebulizers, self-propelled cartridge type
air compressors, high pressure (50 psig) with reservoir
air compressors, low pressure (10-20 psig)
airways, nasopharyngeal
airways, oropharyngeal (Berman type)
airways, oropharyngeal (Guedel type)
alarm, pressure disconnect
analyzers, gas (carbon dioxide)
analyzers, gas (oxygen, representative models)
analyzer, blood gas with accessories
analyzer, blood gas with PCO₂ electrodes
analyzer, blood gas with pH electrodes
analyzer, blood gas with PO₂ electrodes
aneroid (diaphragm), assorted
AV equipment
AV materials
bed hospital
bite block
cannulae
cardiotachometer and alarms
catheters
centrifuge, hematocrit
chest drainage system, three-bottle
collectors, aspirant
connectors, bulk delivery system DISS
connectors, bulk delivery system quick-connect
CPAP apparatus, adult and pediatric
cuff pressure manometer
cylinders, air
cylinders, oxygen
cylinders, oxygen/carbon dioxide mixtures
cylinders, oxygen/helium mixtures
cylinders, sizes E, G, H
dispensers, aerosol
dispensers, diluents
electrocardiograph equipment, 12-lead
endotracheal tubes, assorted adult
endotracheal tubes, assorted pediatric
flashlight
flowmeter, calibrated laboratory type
forceps, magill
gauges, bourdon in different units & sensitivities
humidifier heaters, cascade
humidifier heaters, hot plate
humidifiers, blow-over
humidifiers, simple bubble
humidifiers, diffusing/bubble
intubation equipment
isolette
kymograph
laryngoscopes, adult with assorted blades,
laryngoscopes, pediatric with assorted blades,
lungs, mechanical test with variable resistance & compliance
lungs, simple test
manikin, adult intubation
manikin, arterial puncture arm
manikin, infant intubation
manikin, infant resuscitation
manikin, recording adult resuscitation
masks, aerosol
masks, assorted adult
masks, assorted pediatric/neonatal
masks, nonbreathing
masks, partial rebreathing
masks, simple
masks, tracheostomy
masks, venturi
meter, centimeter rules
model, heart
model, larynx
model, segmental lung
model, skeleton
model, thorax
model, upper airway
monitor, apnea
monitor, cardiac with oscilloscope display
nasal prongs, CPAP
nebulizers, electrical with accessories
nebulizers, large-volume medication
nebulizers, small-volume medication (pneumatic powered)
outlets, bulk delivery system DISS
outlets, bulk delivery system DISS quick-connect
oxygen blender and accessories
oxygen tent, adult
oxyhood
resuscitation devices, adult
resuscitation devices, pediatric/neonatal
resuscitators, gas-powered
S-tubes, adult
S-tubes, pediatric
sphygmomanometer, aneroid
sphygmomanometer, mercurial
spinaler (dry powder aerosol)
spirometer, bellows type with alarms
spirometers, incentive (flow-dependent)
spirometers, incentive (volumetric)
stethoscopes
stylet
suction, bulb

suction catheters/kits, adult
suction catheters/kits, pediatric
suction tip, Yankauer (tonsil)
syringe, calibrated super
thermometers, laboratory grade mercurial Celsius
thermometers, laboratory grade mercurial Fahrenheit
tool kit, calibrating repair
tracheostomy tubes, assorted adult
tracheostomy tubes, assorted pediatric
tubes, Thorpe pressure-compensated
tubing, high-pressure delivery (male/female combinations)
vacuum, portable or piped
valve, rotary alignment
valve, sliding alignment
ventilator accessories
ventilator alarms
ventilators, electrically powered
ventilators, pediatric/neonatal
ventilators, pneumatic
ventilators, pressure cycled
ventilators, volume-cycled (variety of types)
vials, multiple dose
vials, unit dose
x-ray viewbox
