Florida NGSSS EOC Assessments Overview
This fact sheet provides information about the Civics, Biology 1, and U.S. History end-of-course (EOC) assessments that measure student achievement of the Next Generation Sunshine State Standards (NGSSS), as outlined in their course descriptions.

NGSSS EOC Assessments—Students to Be Tested
All students enrolled in and completing one of the courses in Table 1 must participate in the appropriate assessment.

In addition, the following students are eligible to participate in the NGSSS EOC assessments:

- Students who have not yet taken an assessment to be averaged as 30% of their course grades.
- Students who are in grade forgiveness programs and wish to retake an assessment to improve their course grades.
- Students who need to earn a passing score for a standard diploma with a Scholar designation (Biology 1 and U.S. History only).
• Students in a credit acceleration program (CAP) who wish to take the assessment to earn course credit (may apply to all subjects except for Civics).

In accordance with section 1008.22(3)(b)2., Florida Statutes, middle grades students may not be tested on both the Statewide Science Assessment and the Biology 1 EOC assessment. Students enrolled in Biology 1 must take the EOC assessment, not the grade 8 Science assessment.

Test Administration Schedule
For a full schedule of Florida EOC assessments, see the 2022–2023 Statewide Assessment Schedule.

Test Administration Information
• Florida’s EOC assessments are delivered via a computer-based test (CBT) platform called the Test Delivery System.
• Paper-based versions (regular print, large print, braille, and one-item-per-page) of CBT assessments are provided for students with disabilities who cannot access assessments on the computer as specified in their Individual Educational Plans (IEP) or Section 504 Plans.
• CBT accommodations (e.g., text-to-speech) are available for students whose IEPs or Section 504 Plans indicate these accommodations.
• The Civics, Biology 1, and U.S. History EOC assessments are administered in one 160-minute session with a 10-minute break after the first 80 minutes. Any student not finished by the end of the 160-minute session may continue working for up to the length of a typical school day.
• The NGSSS Test Design Summary provides a map or blueprint for how each assessment is designed. The summaries show the possible number of items, item types, standards assessed within each reporting category, and the representation of each category, in percentages, on the test.
• For Biology 1, students are provided CBT Work Folders for each session.
• For the Civics and U.S. History EOC assessments, students are provided with a two-page CBT Worksheet.
• For Biology 1, students are provided with a four-function calculator and Periodic Table of the Elements in the CBT platform. The calculator is available for practice on the Florida Statewide Assessments Portal. The Calculator and Reference Sheet Policies for Florida Statewide Assessments document provides more information regarding calculator and reference sheet policies for all assessments.

Practice Test
• Practice test materials allow teachers, parents/guardians, and students to become familiar with the various item types that will be encountered on the EOC assessments, as well as the system, functionality and tools on the online platform.
• Computer-based and paper-based practice tests and answer keys for each assessment, as well as paper-based test item practice handouts, are available on the Students & Families portal page. For resources to better understand the standards to which the assessments are aligned, please visit CPALMS.
• Students may participate in a CBT practice test session at their schools prior to testing.
• Districts may order paper-based large print, one-item-per-page, or braille practice materials for students participating with these accommodations.

Achievement Levels and Scale Scores
Student performance on Florida’s statewide assessments is categorized into five achievement levels. Table 2 provides information regarding student performance at each achievement level; this information is provided on student reports so that students, parents, and educators may interpret student results in a meaningful way.

NGSSS Achievement Level Descriptions further specify what students should know and be able to do in each grade level and subject as indicated in the applicable standards.

Achievement level scale score ranges for Florida’s statewide assessments are adopted by the State Board of Education as represented by State Board of Education Rule 6A-1.09422, Florida Administrative Code. The lowest score in Level 3 is the passing score for each assessment. The table below shows the score ranges for each achievement level on the applicable score scale.
