2023–24 Florida Statewide Science Assessments Fact Sheet

Florida Statewide Science Assessments Overview
This fact sheet provides information regarding the grades 5 and 8 Science assessments that measure student achievement of the state academic standards.

Students to Be Tested
- Students enrolled in grades 5 and 8 participate in the Statewide Science Assessments.
  - In accordance with section 1008.22(3)(b)2., Florida Statutes, middle grades students may not be tested on both the grade-level Statewide Science Assessment and the Biology 1 end-of-course (EOC) assessment. Students enrolled in Biology 1 must take the EOC assessment, not the grade-level Statewide Science Assessment.
- Students receiving accelerated instruction may participate in the appropriate assessment above grade level. Students may not participate in an assessment below their enrolled grade level.

Test Administration Schedule
The testing window for grades 5 and 8 Science is May 1–31, 2024. For a full schedule of all statewide assessments, see the 2023–2024 Statewide Assessment Schedule.

Test Administration Information
- Beginning in Spring 2024, Grades 5 and 8 Science will be delivered via a computer-based test (CBT) platform called the Test Delivery System.
- Paper-based versions (regular print, large print, braille, and one-item-per-page) of CBT assessments are provided for students with disabilities who cannot access assessments on the computer as specified in their Individual Educational Plans (IEP) or Section 504 Plans.
- CBT accommodations (e.g., text-to-speech) are available for students whose IEPs or Section 504 Plans indicate these accommodations.
- Science assessments contain 46–52 items.
- Science assessments are administered in one 120-minute session with a short break after the first 60 minutes. Any student not finished by the end of the 120-minute session may continue working for up to the length of a typical school day.
- For Grade 8 Science, students are provided CBT Worksheets for each session.
- For Grade 8 Science, students are provided with a four-function calculator and Periodic Table of the Elements in the CBT platform. The calculator is available for practice on the Florida Statewide Assessments Portal. The Calculator and Reference Sheet Policies for Florida Statewide Assessments document provides more information regarding calculator and reference sheet policies for all assessments.
- The Test Design Summary provides a map or blueprint for how each assessment is designed. The summary shows the possible item types, standards assessed within each reporting category, and the representation of each category, in percentages, on the test.
Practice Tests
• Practice test materials allow teachers, parents/guardians, and students to become familiar with the various item types that will be encountered on the assessments, as well as the system, functionality, and tools on the online platform.
• Computer-based and paper-based practice tests and answer keys for each assessment are available on the Students & Families portal page. For resources to better understand the standards to which the assessments are aligned, please visit CPALMS.
• Districts may order paper-based large print, one-item-per-page, and braille practice materials for students participating with these accommodations.

Achievement Levels and Scale Scores
Student performance on Florida's statewide assessments is categorized into five achievement levels. Beginning in Spring 2024, results for Statewide Science assessments will be reported in the Florida Reporting System within 24 hours of student testing. Table 1 provides information regarding student performance at each achievement level; this information is provided on student reports so that students, parents, and educators may interpret student results in a meaningful way.

Table 1. Achievement Levels

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inadequate: Highly likely to need substantial support for the next grade</td>
<td>Below Satisfactory: Likely to need substantial support for the next grade</td>
<td>Satisfactory: May need additional support for the next grade</td>
<td>Proficient: Likely to excel in the next grade</td>
<td>Mastery: Highly likely to excel in the next grade</td>
</tr>
</tbody>
</table>

Achievement Level Descriptions further specify what students should know and be able to do in each grade level and subject as indicated in the applicable standards and can be found at the links below:
• Grade 5 Science Achievement Level Descriptions
• Grade 8 Science Achievement Level Descriptions

Achievement level scale score ranges for Florida's statewide assessments are adopted by the State Board of Education as represented by State Board of Education Rule 6A-1.09422, Florida Administrative Code. The lowest score in Level 3 is the passing score for each grade level and subject. The table below shows the score ranges for each achievement level on the applicable score scale.
