Student Housing
in the Florida College System

What is the Florida College System?

The Florida College System is a network of 28 community colleges, colleges and state colleges serving nearly a million Floridians.

It is the primary access point to higher education for Floridians, offering an array of programs designed to prepare students for entry into the workforce or opportunities to continue their education.

Find a college near you!

Housing within the Florida College System (FCS) is predominately off campus and provided through a third party. Few FCS institutions manage their own residence facilities or have on-campus housing. Colleges were initially designed to accommodate commuter students; therefore, on-campus housing was limited or nonexistent.

Currently some FCS institutions provide housing for specific student populations such as international students, student athletes or specific scholarship recipients. However, affordable housing can generally be found close to most campuses.

> Here is a list of FCS Institutions that provide unique housing opportunities for students:

- College of Central Florida
- Edison State College
- Florida Keys Community College
- Hillsborough Community College
- Indian River State College
- Northwest Florida State College
- Tallahassee Community College

> I do not plan to attend any of the institutions listed above but am curious about student housing or options for living that are close to campus. What should I do?
Contact the admissions or enrollment office at the campus you plan to attend. They can provide resources and recommendations for living near campus.

> I have a Florida Prepaid plan. How do I find out if there is housing that will accept my prepaid plan near the institution I plan to attend?
Visit the Prepaid website to find information on the dormitory plan.
