State Systemic Improvement Plan (SSIP)
State Identified Measurable Result (SIMR)

- Improve federal uniform graduation rate for all students with disabilities
- Decrease graduation gap between students with disabilities and all students
  - We have far exceeded our targets of 62.8% rate by 2018-19 and cutting the gap in half
Six Key Practices - Framework for Systemic Change

- Use Data Well
- Focus Your Goals
- Select and Implement Shared Instructional Practices
- Implement Deeply
- Monitor and Provide Feedback and Support
- Inquire and Learn

http://www.movingyournumbers.org/
Multi-tiered System of Support (MTSS) for Districts

Intensive Supports (Tier 3)

Most focused, targeted, frequent support in addition to and aligned with universal supports that are provided to individual districts in response to identified needs.

Supplemental Supports (Tier 2)

More focused, targeted, frequent support in addition to and aligned with universal supports that are provided to subgroups of districts in response to identified needs.

Universal Supports (Tier 1)

General, statewide support designed to inform, assist, and improve results for all districts.
Compassion and Grace During COVID

- No on-site monitoring visits fall 2020.
- Follow up calls were made to districts visited in 2019-20 and extensions offered on required action report submission deadlines.
- 1% self-assessment deadline (required by our approved 2019-20 waiver) extended.
- T-16 (secondary transition) monitoring deadline extended.

Youth Mental Health Awareness Training (YMHAT) and Section 1012.584, Florida Statutes
(1) Beginning with the 2018-2019 school year, the Department of Education shall establish an evidence-based youth mental health awareness and assistance training program to help school personnel identify and understand the signs of emotional disturbance, mental illness, and substance use disorders and provide such personnel with the skills to help a person who is developing or experiencing an emotional disturbance, mental health, or substance use problem.

(2) The Department of Education shall select a national authority on youth mental health awareness and assistance to facilitate providing youth mental health awareness and assistance training, using a trainer certification model, to all school personnel in elementary, middle, and high schools. Each school safety specialist shall earn, or designate one or more individuals to earn, certification as a youth mental health awareness and assistance trainer. The school safety specialist shall ensure that all school personnel within his or her school district receive youth mental health awareness and assistance training.
Youth Mental Health Awareness Training (YMHAT) Statistics for SY 2019-2020

Through collaborative efforts from the department and YMHAT, during 2019-2020, the following was accomplished:

- **537** Certified Youth Mental Health First Aid (YMHFA) Instructors through YMHAT
- **23,159** Certified YMHFA First Aiders through YMHAT
- **148,765** online activations for Kognito Gold Standard Modules
- **127,231** online completers for Kognito Gold Standard Modules
Youth Mental Health Awareness Training (YMHAT) Comprehensive Data

Through collaborative efforts from the department, SEDNET/ YMHAT, and Project AWARE, the following has been accomplished since 2014:

- **1,540** Certified YMHFA Instructors throughout the state (including community members)
- **114,237** Certified YMHFA First Aiders throughout the state (including community members)
- **199,276** Online Activations for Kognito Gold Standard Modules
- **168,675** Online Completers for Kognito Gold Standard Modules

Data and statistics through September 30, 2020
The YMHAT program, in partnership with the department, is currently issuing YMHAT allocation notices directly to districts.

- Emails are being issued to each district contact containing a Memorandum of Agreement (MOA) detailing the allocation amount and expectations for the use of funds (i.e., training for Youth Mental Health First Aid and supplemental Kognito Modules).
- District staff will be charged with oversight of all district-allocated funds.
- District School Safety Specialists (or designees) will continue to maintain data on all YMHFA trainers, “first aiders” and Kognito completers within their respective district.
Youth Mental Health Awareness Training (YMHAT) SY 2020-2021

- In addition to the allocation, there are state-sponsored trainings for YMHFA instructors, including online classes introduced during COVID-19.
- Please consult with YMHAT administration for all YMHFA instructor training needs.
- Instruct district contacts to respond to surveys as soon as possible.
- Training slots are filled according to response time, districts’ needs and resources.
- If you have a need for YMHFA instructors, please coordinate with your district contact and email the names and email addresses of the staffs to be trained.

Mental Health Support During COVID
Mental Health During COVID

- Collaborated with Department of Children and Families foster care liaison regarding provision of mental health services for students in care
- Conference call with ESE/SS district leads on School-Based Counseling, Health and Related Services in a Remote Learning Environment
- Hosted webinar with districts regarding Coping with COVID-19 Webinar with Dr. Scott Poland
- Student Services and Florida Association of Student Services Administrators conducted a joint webinar regarding mental health related services during COVID-19
- Collaborated with Dr. Poland to provide statewide webinar on Teletherapy and Other Virtual Supports
- FDOE Webinar with Chancellor Hall - State and Local Coordination in Developing World-Class Mental Health Plans for Florida’s Students and Families
Mental Health During COVID

- Student services coordinated with the Agency for Health Care Administration to ensure students’ who receive tele-health services continue to be covered by Medicaid. This provision provides tremendous benefits to students and families by removing potential barriers to care.
- Provided trainings and virtual support to all districts mental health leads on the completion of Mental Health Allocation Plan and the Outcome and Expenditures report.
- October 16th: Mental Health Assistance Allocation Plan monthly meeting.
- October 23rd: Monthly meetings Community connections: Districts and community partners to build best practices supporting districts with mobile responses toward mental health and COVID related situations.
- 25th annual conference on Advancing Mental Health on October 29th: Florida Cares: Mental Health Services for all Public School Students.
ESSA Impact on Federal 1% Alternate Assessment Cap
2015 Reauthorization of ESEA to Every Student Succeeds Act (ESSA)

- ESSA reaffirmed that the alternate assessment is an appropriate assessment for students with the most significant cognitive disabilities to demonstrate their knowledge and skills, but rather than placing a cap on accountability proficiency rates for the alternate assessment, ESSA places a 1% cap on participation in the assessment.

- The shift in policy means that states, districts, schools, and Individual Educational Plan (IEP) teams need to think carefully about which students should be included in the alternate assessment, which, as indicated in ESSA, is for students with the most significant cognitive disabilities.

Source: https://nceo.umn.edu/docs/OnlinePubs/NCEOBrief12OnePercentCap.pdf
Florida’s Response to the 1% Cap

- Memo sent to districts July 2017 explaining that the 1% cap is at the state level and **appropriate** participation in the alternate assessment would be monitored.

- In 2019, participation was at 1.5% in ELA and 1.6% in Math and Science. Exceeding the 1% threshold may result in Title 1 funds being withheld.

- The state submitted and was approved for the 2019-2020 US Department of Education’s ESSA Alternative Assessment 1% Cap Waiver Request.

- Districts must submit annual assurances, provide a justification within the annual SP&P for their 1% data, and complete a self assessment task.

- Targeted technical assistance is provided to districts

- We are currently working on a waiver extension request for 2020-21.
  - No assessment data from 2020, using course enrollment data to approximate participation.
Reminders about Access Courses:

1. Only students determined to have the most significant cognitive disabilities may be enrolled in access courses (Rule 6A-1.0943(5), Florida Administrative Code (F.A.C.)).

2. Students determined to have a specific learning disability have been determined not to have the most significant cognitive disability and must not be enrolled in access courses (Rule 6A-6.03018, F.A.C.).

3. Students correctly enrolled in access courses must take the Florida Standards Alternate Assessment (FSAA).
Eligibility Criteria for Instruction in Florida Standards Access Points and Participation in the FSAA

Questions to Guide the Decision-Making Process

1. Does the student have a most significant cognitive disability?

2. Even with appropriate and allowable instructional accommodations, assistive technology, or accessible instructional materials, does the student require modifications, as defined in Rule 6A-6.03411(1)(z), F.A.C., to the grade-level general state content standards pursuant to Rule 6A-1.09401, F.A.C.?

3. Does the student require direct instruction in academic areas of English language arts (ELA), mathematics, social studies, and science based on Access Points in order to acquire, generalize, and transfer skills across settings?

Assessment Planning Resource Guide For Individual Educational Planning

Students Eligible for FSAA

- **Science**: 10,369
- **Math**: 27,047
- **ELA**: 26,084

- Count of Students Eligible To Be Tested Enrolled in ACCESS Course 18/19
- Count of Students Eligible To Be Tested Enrolled in ACCESS Course 19/20
Progress Made

- Cannot show a statewide decrease in percentage of students taking access courses and alternate assessment
  - Course enrollments were used in 2019-20 as a proxy for participation data
- Can show decreases in districts
  - Almost 62% of districts improved in at least one content area
Addressing ESE Pre-Kindergarten (PreK) Federal Indicators
Florida’s PreK ESE Landscape

- In 2019-20, there were 42,980 PreK ESE Students
  - 8,947 were age 3
    - 17.69% enrolled Regular EC and services inside EC
    - 12.47% enrolled Regular EC and services outside EC
    - 66.53% enrolled Total Separate Class, School, or Residential
  - 14,631 were age 4
    - 31.10% enrolled Regular EC and services inside EC
    - 10.63% enrolled Regular EC and services outside EC
    - 55.10% enrolled Total Separate Class, School, or Residential
  - 19,402 were age 5 (data included 5 year old in K)
    - 56.54% enrolled Regular EC and services inside EC
    - 9.46% enrolled Regular EC and services outside EC
    - 34.01% enrolled Total Separate Class, School, or Residential

Florida Department of Education
fidel.org
Reminders for Providing Free Appropriate Public Education (FAPE)

- Least Restrictive Environment (LRE) is determined by the student’s Individual Educational Plan (IEP) team. Students are to be placed in the regular education environment and are only removed from this setting if the “nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.”

- The 2012 Dear Colleagues Letter from the U.S Department of Education supports the LRE requirements in section 612(a)(5) of the IDEA applies to all children with disabilities who are served under Part B of the IDEA, including preschool children with disabilities aged three through five.

- The statutory provision on LRE does not distinguish between school-aged and preschool-aged children and therefore, applies equally to all preschool children with disabilities.
Florida’s Current Status

- The majority of Florida’s PreK ESE students are enrolled in a Total Separate Class, School, or Residential educational environment at each age group.

Source: Survey 2
Federal Indicator Outcome Data for PreK ESE

State Performance Plan/Annual Performance Report (SPP/APR) Indicator 7

- Preschool Improved Outcomes - Percent of preschool children aged 3-5 with IEPs who demonstrate improved:
  - A. Positive Social-Emotional Skills (including social relationships)
  - B. Acquisition and Use of Knowledge and Skills (including early language/communication and early literacy)
  - C. Use of appropriate behaviors to meet their needs

- We measure overall growth of the child and functioning within age-expectation of their peers.
2018-19 State Target:
- Social/Emotional Target = 73.6%
- Communication = 73.9%
- Adaptive = 65.4%
Indicator 7 Functioning within Age-Expectations of Peers

2018-19 State Target:
- Social/Emotional Target= 84.9%
- Communication=78.9%
- Adaptive= 82.0%
Resources Available to Support PreK ESE

- The BEESS PD Portal offers a variety of online courses for Florida stakeholders that will increase their ability to respond to the needs of students with disabilities. [https://fl-pda.org/](https://fl-pda.org/)

- The Technical Assistance and Training System (TATS) provides technical assistance and training for school districts and facilitates collaboration with their early childhood community partners to ensure all young children in Florida achieve their greatest potential in evidenced-based and inclusive early learning environments. [http://tats.ucas.edu](http://tats.ucas.edu)
  - TATS site also includes links to the following:
    - Early Childhood Technical Assistance Center (ECTA) [https://ectacenter.org/](https://ectacenter.org/)
    - The Center of IDEA Data Systems (DaSY) [https://dasycenter.org/](https://dasycenter.org/)
Thank you.
