Fall 2020
133,632 Students Screened

The following considerations are appropriate when reviewing performance for Fall 2020 FLKRS, when compared to fall 2019.
• Statewide, there were nearly 60,000 fewer students screened.
• Some of Florida’s largest counties have only a fraction of the students screened.
• Due to differences in school start dates, administration of FLKRS was not standardized in terms of the screening window.

Florida Non-Degree Credentials of Value Decision Tree

HB 1507 created requirements that nondegree credentials must meet in order to be included on the Master Credential List. Per state law, at a minimum, nondegree credentials included on the list must:

a. Have evidence that the credential meets labor market demand as identified by the Labor Market Estimating Conference, or meets local demand as identified in the criteria adopted by the Credentials Review Committee. Evidence must include employer information on present credential use or emerging opportunities.

b. Have evidence that the competencies mastered upon completion of the credential are aligned with labor market demand.

c. Have evidence of the employment and earnings outcomes for individuals after obtaining the credential. Earnings outcomes must provide middle-level to high-level wages with preference given to credentials generating high-level wages.

Credentials that do not meet the earnings outcomes criteria must be part of a sequence of credentials that are required for the next level occupation that does meet the earnings outcomes criteria in order to be identified as a credential of value.

For new credentials, this criteria may be met with conditional eligibility until measurable labor market outcomes are obtained.

• Ideal for data staff, institutional effectiveness administrators, and those desiring a “deeper dive”

• Provides a comprehensive view of all CTE audit fields reviewed.

• For example, this version includes the program’s Retention Rate, as well as the numerator and denominators used to derive the Retention Rate percentage

- How do we integrate education for democratic citizenship alongside technical training?
- How do we drive economic development and ensure for the economic self-sufficiency of our residents?
- How do we reimagine adult education and integrate it with postsecondary workforce education and training?
- How do we scale experiential learning and work-based learning opportunities?
- How do we ensure for sufficient funding for continued programmatic growth?
