

Chapter 8

School Internal Funds

SECTION I – PRINCIPLES

1. The district school board, as the custodian, shall be responsible for safeguarding, record keeping, reporting and general oversight of internal funds held by the district school system, and in connection therewith shall:
 - a. Adopt written rules governing the receipt and disbursement of all internal funds and the accounting for property pursuant to Florida Statutes; and
 - b. Provide for an annual audit of internal funds.
2. In meeting a requirement of Governmental Accounting Standards Board (GASB) Statement 84, *Fiduciary Activities*, the financial transactions of school organizations shall be accounted for and reported as custodial funds, if designated as fiduciary. If the financial activities are not designated as fiduciary, the activities are reported in special revenue funds 491-499, Miscellaneous.
3. If district school board faculty or staff determine the general use of funds, or if funds are used for the benefit of faculty and staff, they should not be considered as custodial funds, but special revenue funds.
4. All organizations of the school, or organizations operating in the name of the school, that obtain money from the public shall be accountable to the board for receipt and expenditure of those funds in the manner prescribed by the board.
5. Each school organization, student club or other entity operating in the name of the school that holds custodial funds should establish appropriate policies and procedures that cover fee assessment, cash collection, purchasing authorization, check signing, and record keeping at a minimum, and are encouraged to adopt district school board policy, wherever applicable, as a best practice.
6. Funds collected by a cooperative school organization where the school participates with outside groups through planning, staging or conducting school-related activities, such as a Parent Teacher Association (PTA) or booster club, are generally not considered custodial funds, pursuant to GASB 84.
7. Custodial funds shall be used to benefit activities authorized by the district school board.
8. The objective and procedures of fundraising activities by any group within the school, or in the name of the school, shall not conflict with programs as administered by the district school board.
9. Funds collected shall be expended to benefit those students in school unless the funds are being collected for a specific documented purpose or are generated by career education production shops. Career education production revenues shall benefit the students or program that generated the funds, or the entire student body. Funds designated for general purposes shall be used to benefit the student body.
10. Collecting and expending custodial funds shall be in accordance with the Constitution of the State of Florida, Florida Statutes, Florida Administrative Code and district school board rules. Sound business practices should be observed in all transactions.

11. Each school organization should operate within a budget formulated by the organization members. The format of the budget shall be prescribed by district school board policies.
12. Purchases from internal accounts shall not exceed the resources of the applicable student activity/project account, except for items acquired for resale or items authorized by district school board rules.
13. An adequate system of internal controls shall be maintained in order to safeguard the assets of the school internal funds.

SECTION II – GENERAL PRACTICES

1. All employees responsible for handling and recording internal funds financial transactions shall be bonded through the school district.
2. Purchases from internal funds must be authorized in writing by the organization designee or members. Neither the school nor the district school board shall be liable for any purchase made in the name of the school without express written approval.
3. School district-approved, pre-numbered receipt forms shall be used to record and account for cash received.
4. Approved pre-numbered checks shall be used to disburse and account for funds, with the exception of disbursements from properly established petty cash funds.
5. Promissory notes, installment contracts and lease purchase agreements shall not be executed in the name of a school or any school organization except as authorized by the district school board.
6. Internal funds shall not be used to cash checks to accommodate individuals, make any kind of loans, pay any form of compensation directly to employees or extend credit. Employees of the school district who are compensated for additional services, such as working at athletic events, shall be paid through the school district payroll department or, when appropriate, as prescribed by district school board rules. Designated area career centers may cash checks and make loans as necessary to administer student grant and loan programs funded by federal, state and private sources.
7. Internal funds shall be accounted for on the same fiscal year basis as all other school district funds. No school organization shall make expenditures that exceed the cash resources available to that organization. All accounts payable shall be disclosed to the district school board at the end of the fiscal year.
8. Bank statements shall be reconciled as soon as received, preferably by a person other than the person who receives and disburses funds.
9. Monthly financial reports shall be made in approved written form to provide the school's administration with necessary financial information. An annual report will provide data for inclusion of internal funds in the school district's annual financial statements.
10. Account balances shall be subject to limits that the district school board may prescribe.

SECTION III – STANDARDS, PRACTICES AND PROCEDURES

1.0 CONTROL OF CASH RESOURCES

The name of such grant or program shall be identified in the account title.

Audit. An examination of records and documents by an auditor in the process of securing evidence for one or more of the following purposes: 1) determining the propriety of completed transactions, 2) ascertaining whether all transactions have been recorded and 3) determining whether transactions are accurately recorded in the accounts and in the statements drawn from the accounts.

Capital Assets. Land, buildings, machinery, furniture and other equipment that the school system intends to hold or continues to use over a long period of time.

Capital Outlay. Expenditures for land or existing buildings, improvement of grounds, construction of buildings, additions to buildings and remodeling of buildings or equipment.

Cash. Currency, checks, postal and express money orders and bank deposits, including certificates of deposit.

Cash Basis. The basis of accounting under which revenues are recorded only when actually received and only cash disbursements are recorded as expenditures.

Cash Discount. An allowance received or given if payment is completed within a stated period. The term is not to be confused with “trade discount.”

Change Fund. An amount of money obtained by issuing a check to a designated individual for the purpose of making change for a specific event. No expenditures are to be made from these monies.

Check. A written order on a bank to pay on demand a specified sum of money to a named person, to his or her order, or to bearer from money on deposit to the credit of the maker. The check is canceled when it has been paid by the bank and has, thus, “cleared.”

Closing the Books. The process of putting the account books in order at the end of a month, or a fiscal period, so that the trial balance and financial reports may be prepared.

Commemorative Items. Personalized articles such as class jewelry, announcements, caps and gowns, yearbooks, cards and invitations, insignia and school pictures.

Commission. A share of sale proceeds from any company or individual given the school in return for the sale, rental or promotion of any items within the school.

Concession. The act of granting to an individual or group a right that resides with the school.

Current Assets. Cash and other assets readily converted into cash, such as accounts receivable, inventory and some prepaid expenditures.

Deficit. The excess of the obligations of an account over its resources.

Deposit in Transit. A deposit that has been transmitted to the bank and recorded in the school ledgers, but is not yet reflected on the monthly bank statement because it was not received before the bank's preparation of the statement.

Depositories. Banks or savings and loan institutions where schools deposit and withdraw money.

Double Entry. A system of bookkeeping that requires, for every entry made to the debit side of an account or accounts, an entry for the corresponding amount or amounts made to the credit side of another account or accounts.

Dues. A regular charge made to students for the privilege of being a member of a particular club or student body organization.

Encumbrance. A restriction of available money by issuance of a purchase order.

Equipment. A material item of a nonexpendable nature, such as a built-in facility, a movable or fixed unit of furniture or furnishings, an instrument or apparatus, a machine (including attachments), instructional skills training device or a set of small articles whose parts are replaceable or repairable, the whole retaining its identity and utility over a period of time that is characteristic for items of its class.

Expenditures. Decreases in net financial resources. If accounts are kept on the accrual basis, this includes total charges incurred, whether paid or unpaid. For accounts kept on the cash basis, payments are termed "disbursements."

Intact, or Deposit Intact. The practice in which money is presented to a bank or bookkeeper for the credit of the school's internal fund in the same form as received. This means that any receipt of funds in the form of cash shall be deposited as cash. The cashing of a check from funds on hand would be a violation of this concept, as would be the substitution of a check for cash.

Internal Control. A plan of organization under which employees' duties are so arranged, and records and procedures so designed, as to make it possible to exercise effective accounting control over assets, liabilities, revenues and expenditures. For example, under such a system, work is subdivided so that no single employee performs a complete cycle of operations. The procedures to be followed are definitely identified and such procedures call for proper authorizations by designated officials for all actions to be taken.

Inventory. The cost of supplies and equipment on hand but not yet distributed to requisitioning units.

Inventory Record. A detailed list or record showing quantities, descriptions, values, units of measure and unit prices.

Investments. Securities and nonfinancial assets held primarily for income or profit that have present service capacity based solely on their ability to generate cash or to be sold to generate cash.

Journal. The accounting record in which financial transactions of the school are formally recorded for the first time.

Liabilities. Debt or other legal obligations arising out of transactions that are payable but not necessarily due. Encumbrances are not liabilities; they become liabilities when the services or materials for which they were established have been rendered or received.

Memoranda (Memo) Account. An informal record of an internal fund transaction that cannot be recorded under the regular financial accounts, but for which a record is desired (e.g., encumbrances).

Net Position. The residual of all other elements presented in the statement of net position for fiduciary funds. It is measured by the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources (GASB Concepts Statement 4, paragraph 36).

Outstanding Check. A check issued and recorded by the school that has not been presented to the bank for payment prior to issuance of the monthly bank statement.

Outstanding Deposit. See Deposit in Transit.

Overdrawn. A situation in which a check has been written for an amount in excess of that on deposit. An overdraft is the amount by which withdrawals exceed the depositor's available balance.

Perpetual Inventory. An inventory system that is initiated by a physical inventory and perpetuated by entry of receipts and withdrawals, thereby reflecting current balances on hand for each item.

Petty Cash. Cash paid out in small amounts for authorized expenditures. Petty cash may be used to reimburse persons or to make a direct purchase (petty cash funds must be authorized). Payments must be evidenced by petty cash vouchers, which are signed receipts that show the purpose, date and amount of the transaction.

Posting. The act of recording to an account in a ledger the detailed or summarized data contained in the documents of original entry.

Pre-Numbered Documents. Checks, receipt forms, tickets and similar items that have been consecutively numbered and controlled before use.

Requisition. A written request, usually from one department to the purchasing officer or to another department, for specified articles or services.

This includes the various types of student clubs and class organizations that, with proper approval by school authorities, are managed and operated by students under the direction or supervision of authorized adults.

Trust and Custodial Funds. Funds used to account for money and property held by a governmental unit in the capacity of trustee, custodian or agent.

Voided Check. A check that has been declared void. A check on which an error has been made in writing, such as an incorrect amount or signature, or a discrepancy in the information included. The check is made void by mutilating the signature space and the check is retained.
