B.E.S.T. ELA Standards – Secondary Vocabulary Development and Instruction

Just Read, Florida!
Session Objectives

• Learn evidence-based approaches to directly and indirectly teaching vocabulary in a secondary classroom.
• Practice four strategies to directly teach vocabulary in a secondary classroom.
• Make connections between the B.E.S.T. ELA vocabulary benchmarks, vocabulary research and application.
## B.E.S.T. ELA Standards Grades 6-8

Direct Vocabulary Instruction

Provide students with instruction in specific words that are important to students’ content learning or understanding of a particular text. Teaching students more general word-learning strategies that they can apply to a variety of words, such as analyzing parts of words (e.g., root words.)

Indirect Vocabulary Learning

Children learn the meanings of words indirectly through everyday experiences with oral and written language.
Direct Vocabulary Instruction

1. What words to teach
2. How to teach them
Vocabulary Tiers

In their three-tiered model of vocabulary development, Beck, McKeown & Kucan (2002) classify words as follows:

- **Tier 1:** These are the common, everyday words that most children enter school knowing already. Since we do not need to teach these, this is a tier without tears!

- **Tier 2:** This tier consists of words that are used across the content areas and are important for students to know and understand. Included here are process words like *analyze* and *evaluate* that students will run into on many standardized tests and that are also used at the university level, in many careers and in everyday life. We really want to get these words into students' long-term memory.

- **Tier 3:** This tier consists of content-specific vocabulary—the words that are often defined in textbooks or glossaries. These words are important for imparting ideas during lessons and helping to build students' background knowledge.
B.E.S.T. ELA Standards: Appendix D

Academic Vocabulary Selection Decision Map

Selecting a word for direct instruction

Is the word representative of: a family of words the student will need to know OR a concept the student will need to know?

NO

The word is not a good candidate for direct instruction

YES

Will the word or phrase be needed in discussion, reading, and/or writing tasks?

NO

Does the word or phrase:
• appear frequently in the text?
  AND
• present an opportunity for students to use context to determine the meaning of the word?
  OR
• present an opportunity for students to use morphology/structural analysis to determine the meaning of the word?

NO

Use direct instruction to teach the word to students

YES

Allow students to resolve the meaning using context or structural analysis
“If a word appears frequently, and presents opportunities to resolve word meaning using contextual or structural analysis, the word probably does not need direct instruction. If the word is essential, and yet cannot be resolved through frequent use, contextual analysis or structural analysis, the word or phrase should be introduced through direct instruction.”

Let’s Practice!

- Read chapter 5 from *Hatchet*.
- Choose one to two vocabulary words that would require instruction.
- Create a student-friendly definition.
  - Characterize the word and how it is typically used.
  - Explain the meaning using everyday language—language that is accessible and meaningful to the student.

**Example:**
*Motivated (verb)* a reason for doing something
Developing Vocabulary in Secondary Classrooms

Instruction should:

• Explore facets of meaning;
• Consider relationships among words;
• Introduce how affixes change meaning;
• Explore word origins; and
• Create opportunities for student use of the words.

“Everything Teachers Need to Know About Teaching Vocabulary” by Mark Ankuci (2019)
“Bringing Words to Life” by Isabel Beck, Margaret McKeown & Linda Kucan (2002)
“Students need a wide range of independent word-learning strategies. Vocabulary instruction should aim to engage students in actively thinking about word meanings, the relationships among words and how we can use words in different situations. This type of rich, deep instruction is most likely to influence comprehension.”

Ask students to differentiate between two descriptions by labeling them ‘example’ or ‘non-example’ of the target word.

Example:

*bantor*

A husband and wife argue about what to have for dinner. A husband and wife kid each other about who ate more at dinner.

“Bringing Words to Life” by Isabel Beck, Margaret McKeown & Linda Kucan (2002)
Use the context of a story or text as a basis for discussing the words.

Example:
When Tom decided that the prisoner should not be boiled in oil, the earl’s face showed profound gratification. What other profound feelings are shown in the story?

“Bringing Words to Life” by Isabel Beck, Margaret McKeown & Linda Kucan (2002)
Have students share relevant personal experiences related to the word.

- Talk about situations a word would describe.
- Consider instances when a word would be an appropriate choice.

Example: *berate*

In the parking lot this morning, I saw a student berate a driver whose car was blocking the entrance to campus.

“Bringing Words to Life” by Isabel Beck, Margaret McKeown & Linda Kucan (2002)
### Let’s Practice!

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Practice</th>
</tr>
</thead>
</table>
| **Example/Non-example:**  
  Ask students to differentiate between two descriptions by labeling them example or non-example of the target word. Or students can create their own example and non-example |          |
| **Using context:**   
  Use the context of a story or text as a basis for discussing the word. |          |
| **Personal experience:**  
  Have students share relevant personal experiences related to the word. |          |
Word Sorts with Roots and Affixes

<table>
<thead>
<tr>
<th>-cracy</th>
<th>-crat</th>
<th>-archy</th>
<th>-arch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Autocracy</td>
<td>Autocrat</td>
<td>Monarchy</td>
<td>Monarch</td>
</tr>
<tr>
<td>Democracy</td>
<td>Democrat</td>
<td>Oligarchy</td>
<td>Oligarch</td>
</tr>
<tr>
<td>Plutocracy</td>
<td>Plutocrat</td>
<td>Anarchy</td>
<td>Anarchist</td>
</tr>
<tr>
<td>Aristocracy</td>
<td>Aristocrat</td>
<td>Hierarchy</td>
<td>Hierarchical</td>
</tr>
<tr>

<td>Bureaucrat</td>
<td>Matriarchy</td>
<td>Matriarch</td>
</tr>
<tr>
<td>Technocracy</td>
<td>Technocrat</td>
<td>Patriarchy</td>
<td>Patriarch</td>
</tr>
</tbody>
</table>
Let’s Practice!

• Examine and discuss the words at the bottom of Handout #4 Word Sort.
• Group the words into categories.
• Label your categories. Be sure you can explain your categories and justify your reasons for including words in each category.

FCRR Student Activity: Word-by-Word
Let’s Practice!

• Choose a word from the excerpt of Hatchet and create a Word-by-Word activity.
• Share your words and continuum with the participants at your table.
• Discuss instructional implications (e.g., purpose, word choice, monitoring, opportunities for authentic writing tasks, etc.).
Vocabulary Instruction in Action

Reflect on the following as you watch the video:

1. What steps were used in the vocabulary instructional routine to introduce each of the vocabulary terms?

2. What other procedures were used to extend vocabulary instruction?

3. What strategies were used to engage students?

Dr. Anita Archer - Vocabulary Instruction - YouTube
Indirect Vocabulary Instruction

Creative ways to focus on vocabulary instruction so that students are continually reinforcing their skills!
Ways to Indirectly Support Vocabulary Development

1. Use rich vocabulary in grading and feedback to students.
2. Incorporate rich vocabulary into discussion of literary elements.
3. Make a word wall (noun, verb, adverb, adjective).
4. Incorporate vocabulary into peer conferencing.
5. Acknowledge students’ use of strong vocabulary.
6. Do a vocabulary warm-up.
