PROGRAM: STATE GRANTS/K-12 PROGRAM - FEFP

The calculations of the Florida Education Finance Program (FEFP) for the 2006-2007 fiscal year are incorporated by reference in the act implementing the 2006-2007 General Appropriations Act. The calculations are the basis for the appropriations made in the General Appropriations Act.

91	AID TO LOCAL GOVERNMENTS	
	GRANTS AND AIDS - FLORIDA EDUCATIONAL	
	FINANCE PROGRAM	
	FROM GENERAL REVENUE FUND	6596,725,922
	FROM PRINCIPAL STATE SCHOOL TRUST FUND . .	89,169,746

Funds provided in Specific Appropriation 91 shall be allocated using a base student allocation of \$3,981.61 for the FEFP.

From the funds in Specific Appropriation 91, charter schools shall be provided an allocation pursuant to section 1002.33(17), Florida Statutes. However, for those charter schools that were in operation prior to July 1, 1999, funds per student shall be no less than they received in Fiscal Year 1998-1999.

From the funds provided in Specific Appropriation 91, all juvenile justice students in juvenile justice educational programs shall receive no less than the funds per student in Fiscal Year 1998-1999.

From the funds provided in Specific Appropriation 91, juvenile justice educational programs shall receive the basic allocation assigned to a juvenile justice student, including ESE special education funding when appropriate. If a school district provides incentive funding for teachers to work in a failing school, then an equal incentive bonus must be provided to teachers teaching in juvenile justice facilities.

A minimum guaranteed level of funding shall be calculated to provide each school district a 1.0 percent increase per unweighted full-time equivalent student over the amount per unweighted full-time equivalent student funded in the 2005-2006 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds, discretionary lottery, and actual discretionary local revenue for 2005-2006 with total state and local formula and categorical funds, discretionary lottery, and maximum potential discretionary local revenue for 2006-2007 and shall include the additional funds required for the increased Florida Retirement System contribution. Funds for the School Recognition Program shall not be included in the calculation of the Minimum Guarantee.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriation 91, \$35,000,000 is provided for the Sparsity Supplement as defined in section 1011.62(6), Florida Statutes, for school districts of 20,000 and fewer FTE in 2006-2007.

Total required local effort for 2006-2007 shall be \$7,357,994,671. The total amount shall include adjustments made for the calculation required in sections 1011.62(4)(a) and (c), Florida Statutes.

The maximum nonvoted discretionary millage which may be levied pursuant to the provisions of section 1011.71(1), Florida Statutes, by district school boards in 2006-2007 shall be:

- 1. 0.51 mills

If a 0.51 mill levy in any school district generates an amount of funds per unweighted FTE that are less than the state average amount per unweighted FTE, the school district shall receive from the funds

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

provided in Specific Appropriation 91, a discretionary millage compression supplement that when added to the funds generated by the district's 0.51 mill levy shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

2. 0.25 mills

An additional levy is authorized not to exceed 0.25 mills, that will raise an amount not to exceed \$100 per FTE. District school boards that levy the entire additional 0.25 mills and raise less than \$100 per K-12 FTE shall receive, from the funds provided in Specific Appropriation 91, an amount that, combined with funds raised by the 0.25 mills, will provide \$100 per K-12 FTE. To be eligible for state funds provided in this paragraph, a district must levy the full 0.25 mills and the full 0.51 mills.

Funds provided in Specific Appropriation 91 are based upon program cost factors for 2006-2007 as follows:

- 1. Basic Programs
 - A. K-3 Basic.....1.035
 - B. 4-8 Basic.....1.000
 - C. 9-12 Basic.....1.088
- 2. Programs for Exceptional Students
 - A. Support Level 4.....3.734
 - B. Support Level 5.....5.201
- 3. English for Speakers of Other Languages1.275
- 4. Programs for Grades 9-12
 - Career Education.....1.159

From the funds in Specific Appropriation 91, \$1,101,383,681 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation to provide educational programs and services for exceptional students. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. Each district's ESE Guaranteed Allocation for the 2006-2007 appropriation shall not be recalculated during the school year. School districts that have provided educational services in 2005-2006 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriation 91, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed 3 FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in section 1011.61, Florida Statutes, for funding pursuant to section 1011.62, Florida Statutes.

From the funds in Specific Appropriation 91, \$75,350,000 is provided for Safe Schools activities and shall be allocated as follows: \$50,000 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (3) alternative school programs for adjudicated youth; (4) suicide prevention programs; and (5) other improvements to make the school a safe place to learn. Each district shall determine, based on a review of its existing programs and priorities, how much of

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

its total allocation to use for each authorized Safe Schools activity.

From the funds in Specific Appropriation 91, \$707,826,199 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62(1)(f), Florida Statutes. First priority for use of these funds shall be the provision of supplemental intensive instruction, consistent with the Sunshine State Standards, including summer school and intensive English immersion instruction, for students in grades 3 and 10 who scored FCAT Level I in FCAT reading or math. Each district's Supplemental Academic Instruction allocation for the 2006-2007 appropriation shall not be recalculated during the school year.

From the funds in Specific Appropriation 91, \$111,800,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$50,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the state total K-12 base funding.

From the funds in Specific Appropriation 91, \$147,500,000 is provided for the Special Teachers Are Rewarded performance pay plan (STAR Plan). Funds shall be distributed to school districts for performance pay rewards to instructional personnel as defined in section 1012.01(2) (a)-(d), Florida Statutes, in all K-12 schools in the district, in accordance with the requirements of section 1012.22, Florida Statutes. STAR Plan funds shall be allocated based on each district's proportion of the state total K-12 base funding, subject to review and approval by the State Board of Education of the district's STAR Plan. The district's STAR Plan may include information from the district's instructional personnel assessment system, and shall include instructional personnel evaluation based on the performance of their students. The Department of Education shall develop model methodologies that ensure fairness and equity for all instructional personnel, and shall provide technical assistance upon request.

Each school district that chooses to participate in the STAR Plan shall submit its comprehensive STAR Plan, which shall include rewards for elementary, middle, and high school instructional personnel, to the State Board of Education by December 31, 2006. Any charter school that does not follow the district's salary schedule may submit a separate proposal with the district's plan. Charter school proposals shall be included with the district plans or may be submitted independently if the district does not submit a plan. Districts that do not submit a plan by December 31, 2006, shall not be eligible to receive STAR Plan funds. The State Board shall review each district's STAR Plan within 45 days of receipt and shall approve the plan or request revisions. If requesting revisions, the State Board must identify the specific area(s) of the proposed plan needing revision. Districts must submit their revised plan by March 1, 2007. The State Board shall review the revised plan and may either approve the revised plan or deny the district eligibility to receive STAR Plan funds for the 2006-2007 fiscal year. STAR Plan funds shall not be recalculated during the fiscal year except that funds allocated for districts that fail to adopt approved STAR Plans by April 1, 2007, shall be redistributed to those districts that have approved plans in place by the required date. The redistribution calculation shall be verified by the Florida Education Finance Program Appropriation Allocation Conference.

District STAR Plans must meet the following guidelines:

1. Eligibility - All instructional personnel are automatically eligible to receive rewards for improved student achievement without having to apply.
2. Determination of number of rewards - The district plan shall utilize funds received under this program for rewards of at least 5 percent of the base pay of the best performing 25 percent of instructional personnel. Districts shall use any remaining funds to provide bonuses to additional instructional personnel or school-based leaders pursuant to their plans. District school boards are encouraged to provide additional rewards to instructional personnel they determine to be outstanding. District school boards shall distribute funds for State Board approved charter school plans to charter schools based on each charter school's proportion of the district's total K-12 base funding.
3. Evaluation instrument - Each district school board shall select or develop an evaluation instrument. The instrument's primary determining

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

factor shall be the evaluation of improved student achievement. The instrument's factors shall be scored using the following categories, or categories that are substantially similar in number and connotation: unsatisfactory, needs improvement, satisfactory, high-performing, and outstanding. Instructional personnel must receive no unsatisfactory or needs improvement ratings and may receive no more than one satisfactory rating on the areas evaluated in order to receive a reward.

4. Instructional personnel evaluation based on student performance - District school boards shall determine appropriate methods to evaluate instructional personnel based on the performance of their students. The methods must measure improved student achievement during the course of the school year; and must be approved by the State Board of Education.

a. Evaluation of improved student achievement for instructional personnel linked by course numbers to instruction in reading or math shall be determined by a standardized test.

b. Evaluation of improved student achievement for instructional personnel not linked by course numbers to instruction in reading or math shall be determined by instruments that measure the Sunshine State Standards for the area, including challenging grade-level content and critical thinking skills. District school boards shall develop methods to evaluate improved student achievement in specialized areas, including exceptional student education, fine arts, career and technical education, and other specialties so that all instructional personnel are eligible for rewards.

c. Evaluation of improved student achievement for secondary instructional personnel linked by course number to instruction in social studies or science may be assessed by a standardized test; by linking improved student achievement in reading or mathematics of the students enrolled in the instructional personnel's social studies or science class, as measured by a standardized test; or by instruments that measure the Sunshine State Standards for the area, including challenging grade-level content and critical thinking skills.

District school board STAR Plan proposals may include a methodology for performance pay rewards for district-selected school-based leaders who supervise or directly assist the instructional personnel whose student achievement results in a STAR Plan reward.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

No funds are provided in Specific Appropriation 91 for charter school FTE student enrollment for on-line instruction received by students principally in their own homes. However, charter schools may serve students who are temporarily homebound or who receive a portion of their instruction on-line.

Funds in Specific Appropriation 91 for dual enrollment instruction of public school students provided at the Daytona Beach Advanced Technology Center shall be provided in an amount equal to the hours of instruction which would be necessary to earn the FTE and the funding for an equivalent course if it were taught in the school district.

The Department of Education may award remaining funds for continuation grants of up to \$1,000 per student. Any continuation grants awarded shall be distributed to ongoing partnerships based on their proportion of the total full-time equivalent enrollment within the ongoing programs.

From the funds provided in Specific Appropriations 20, 22, 164, and 166 each university may shift enrollment by level in a manner which is revenue neutral, but shall not increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 164 and 166.

The Chancellor of the Board of Governors shall submit a revised 5-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Florida Board of Governors by September 1, 2006. This revised 5-year enrollment plan must be developed with input from each state university. The State Board of Education shall include funding recommendations in its Fiscal Year 2007-2008 Legislative Budget Request to implement the revised 5-year state university enrollment plan.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2006-2007 enrollment plan for the State University System.

The maximum resident undergraduate tuition per credit hour is hereby established for the 2006-2007 fiscal year as follows:

	2006	2006-2007
	Summer Term	Fall/Spring Terms
Lower Level Coursework	\$ 71.57	\$ 73.71
Upper Level Coursework	\$ 71.57	\$ 73.71

Except as otherwise provided by law, each board of trustees shall set university tuition and fees for graduate, graduate professional, and nonresident students. The annual percentage increase in tuition and fees established by each board of trustees pursuant to this paragraph for students enrolled prior to the fall of 2006 shall not exceed five percent. The annual percentage increase in tuition and fees established by each board of trustees pursuant to this paragraph for students enrolled after the fall of 2006 shall not exceed ten percent. Tuition and out of state fees for nonresident students may not be lower than the rates in effect for the 2005-2006 fiscal year.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

Each university board of trustees is authorized to waive tuition and out-of-state fees for purposes which support and enhance the mission of the university. All fee waivers must be based on policies which are adopted by university boards of trustees. Each university shall report the purpose, number, and value of all fee waivers granted annually in a format which shall be prescribed and reviewed by the Florida Board of Governors.

Each university board of trustees is authorized to grant out-of-state fee waivers on a temporary basis for the 2006-07 academic year to those students who originally enrolled in a state university under the provisions of Executive Order 05-176 and who have maintained continuous enrollment since that time.

Funds provided in Specific Appropriation 164 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

In order to provide New College and USF Sarasota/Manatee with sufficient up-front operating capital to support shared services functions and to eliminate the significant current accounting inefficiencies, a total of \$5,000,000 from the funds in Specific Appropriation 164 shall be released in equal amounts to New College and USF/USF Sarasota-Manatee as part of the first cash distribution in the fiscal year. The remaining appropriated funds for these two institutions shall be distributed in accordance with normal release protocol, beginning with the first cash distribution in the fiscal year. New College and USF/USF Sarasota-Manatee are authorized to make lump sum budget transfers between the two institutions, as appropriate, to facilitate management of shared services.

Funds in Specific Appropriation 164 include \$3,067,000 to expand the number of Ph.D., Masters, and post-Masters graduates in nursing as reflected in the funded enrollments for the affected universities. These universities shall report on progress relating to numbers of new students admitted in post-graduate nursing programs and the projected time-line for completion to the Board of Governors and the chair of the Senate Ways and Means Committee and the chair of the House Fiscal Council by February 1, 2007. Students enrolled in post-graduate nursing programs at universities receiving these funds shall commit to practice in Florida for at least three years, and agree to repay any tuition or stipends provided by these universities for failure to comply with this commitment.

Grants and Donations Trust Fund and \$19,372,015 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to hospitals providing primary care to low-income individuals, hospitals operating as designated or provisional trauma centers, and rural hospitals. Hospitals providing primary care to low-income individuals and participating in the Primary Care DSH program in State Fiscal Year 2003-2004 shall be paid \$12,203,921 distributed in the same proportion as the Primary Care DSH payments for State Fiscal Year 2003-2004. Hospitals designated or provisional trauma centers shall be paid \$12,375,000. Of this amount, \$5,355,000 shall be distributed equally among hospitals that are a Level I trauma center; \$4,500,000 shall be distributed equally among hospitals that are either a Level II or pediatric trauma center; and \$2,520,000 shall be distributed equally among hospitals that are both a Level II and pediatric trauma center. Public hospitals receiving local tax support and having 150,000 or more Medicaid and charity care days shall be paid \$313,473,121 to be allocated to each hospital based on their percentage of Medicaid and charity care days to the total. These funds shall be allocated to the hospitals based on their percentage of Medicaid and charity care days to the total for all the hospitals in this group. If a system has more than 65,000 Medicaid and charity care days, then the days for each of their hospitals shall receive a weight of 1.24. Public hospitals or systems receiving local tax support and having less than 45,000 Medicaid and charity care days, but the hospital or system having more than 8,500 Medicaid and charity care days shall be paid \$50,000,000. These funds shall be allocated to the hospitals based on their percentage of Medicaid and charity care days to the total for all the hospitals in this group. Public hospitals or systems, except hospitals classified as rural, with no local tax support shall be paid \$10,000,000. These funds shall be allocated to each of the hospitals based on each hospital's percentage of Medicaid and charity care days to the total for the hospitals in that group. To determine the Medicaid and charity care days for the allocations described above, the agency shall use the average of the 2000, 2001 and 2002 audited DSH data available as of March 1, 2006. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2000, 2001 and 2002 that are available. Payments made under this section of proviso shall be deemed the LIP 1 Medicaid low-income pool payments.

From the funds in Specific Appropriation 214A, \$74,214,000 from the Grants and Donations Trust Fund and \$105,786,000 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to hospitals that receive local government support for health care expenditures for the uninsured or underinsured. To be included in this grouping, the local government must provide a minimum of \$1,000,000 in financial support for the hospitals in its political boundary. Payments will be allocated to each of the hospitals based on its percentage of charity care days to the total charity care days for all the hospitals in the group. In allocating the payments, each hospital will be capped at 120 percent of the amount of local funding it would have received from its local government for uninsured and underinsured individuals without the low-income pool program. Any funds that remain unspent after the first allocation shall then be reallocated to the hospitals based on their percentage of charity care days to the total charity care days for the group. The agency shall use the average of the 2000, 2001 and 2002 audited DSH data available as of March 1, 2006. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2000, 2001 and 2002 that are available. Additionally, if there are no audited DSH data for any of the prescribed years, the agency shall use the Medicaid and charity care days from the 2004 Financial Hospital Uniform Reporting System (FHURS) reports. Payments made under this section of proviso shall be deemed the LIP 2 Medicaid low-income pool payments.

Trust Fund are provided for Medicaid low-income pool payments to hospitals that do not receive local government support for health care expenditures for the uninsured or underinsured or whose local governments provide \$1,000,000 or less in support for the uninsured or underinsured. Additionally, to receive funds under this provision, a hospital's Medicaid days, charity care days and 50 percent of bad-debt days divided by the hospital's total days must equal or exceed 10 percent. Payments shall be allocated to hospitals that qualify under this provision based on their percentage of Medicaid days, charity care days and 50 percent of bad-debt days to the total Medicaid days, charity care days and 50 percent of bad-debt days for all the hospitals that qualify under this provision. The agency shall use the 2004 FHURS reports to determine the Medicaid days, charity care days and 50 percent of the bad-debt days. Payments made under this section of proviso shall be deemed the LIP 3 Medicaid low-income pool payments. Hospitals who receive Medicaid low-income pool payments from LIP 1 or LIP 2 do not qualify to receive payments under LIP 3.

From the funds in Specific Appropriation 214A, \$824,600 from the Grants and Donations Trust Fund and \$1,175,400 from the Medical Care Trust Fund are for Medicaid low-income pool payments to specialty pediatric facilities. To qualify for a Medicaid low-income pool payment under this section, a hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee-for-service days as a percentage to total inpatient days must equal or exceed 30 percent. The agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total Medicaid low-income pool payments made shall be distributed equally to the qualifying hospitals.

From the funds in Specific Appropriation 214A, \$43,744,370 from the Grants and Donations Trust Fund and \$62,354,030 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals that serve as a safety net in providing emergency, specialized pediatric trauma services and inpatient hospital care to low-income individuals. These payments may be used, in collaboration with the Department of Health, to provide funding for hospitals supporting primary care services in medically underserved areas.

From the funds in Specific Appropriation 214A, \$824,600 from the Grants and Donations Trust Fund and \$1,175,400 from the Medical Care Trust Fund are provided for county health initiatives emphasizing the expansion of primary care services. Of the \$2,000,000, \$1,000,000 is provided to St. Johns River Rural Health Network to develop and fund Provider Access Systems for Medicaid and the uninsured in rural areas. An allocation of \$200,000 for Bradford County and \$200,000 for Union County will be designated for services to low income, uninsured adults. The remaining \$1,000,000 is provided to expand primary care services to low income, uninsured individuals to be allocated as follows: \$200,000

SECTION 3 - HUMAN SERVICES

to Sarasota county, \$200,000 to Charlotte county, \$200,000 to Lee county, \$200,000 to Okaloosa county and \$200,000 to Walton county. Program Specifics will be finalized with consultation of respective county governments. The total low-income pool payments provided in this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds.

From the funds in Specific Appropriation 214A, \$1,308,537 from the Grants and Donations Trust Fund and \$1,865,212 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals. These payments may be used, in collaboration with the Department of Health to provide funding for hospitals providing poison control programs.

The agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis, subject to the availability of state, local and federal funds.

The agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

In the event that the amount of approved non-federal share of matching funds is not provided by local governmental entities as recommended by the Disproportionate Share Council, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient non-federal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local non-federal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received. For the purpose of this paragraph, the increase in low-income pool payments for the provider access system and the increase in non-federal share matching funds shall be calculated as the amount that exceeds the levels used in the Disproportionate Share Council's recommendations.

Funds provided in Specific Appropriation 214A are contingent upon the non-federal share being provided through grants and donations from state, county or other governmental funds. In the event the non-federal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval.

Distribution of such funds provided in Specific Appropriation 214A are contingent upon approval from the Centers for Medicare and Medicaid Services (CMS). In the event the CMS does not substantially approve the low-income pool distribution methodology, the agency shall coordinate with the Medicaid Low-Income Pool Council and may submit a revised low-income pool plan to the Legislative Budget Commission for approval.

~~From the funds in Specific Appropriation 217, \$702,780 in non-recurring funds from the General Revenue Fund and \$1,001,759 in non-recurring funds from the Medical Care Trust Fund are provided to reimburse hospitals 50 percent of the difference between their current Medicaid outpatient rate and their Medicaid outpatient rate if all ceilings and targets were eliminated. This provision shall only apply to those hospitals not exempt under another section of proviso and whose charity care and Medicaid days as a percentage of total adjusted hospital days are less than 11 percent but equal or exceed 9.70 percent and are listed below. The only hospitals that will receive additional Medicaid reimbursement under this paragraph of proviso are: Coral Gables Hospital; Manatee Memorial Hospital; Palm Springs General Hospital; Kendall Regional Medical Center; Florida Hospital - Heartland/Walker; South Florida Baptist Hospital; and Naples Community Hospital. The agency shall use the average of the 2000, 2001 and 2002 audited DSH data available as of March 1, 2006. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2000, 2001 and 2002 that are available.~~

From the funds in Specific Appropriation 217, \$24,381,570 from the Grants and Donations Trust Fund and \$34,753,939 from the Medical Care Trust Fund are provided to increase the outpatient cap for adults from \$1,000 to \$1,500 per year and to eliminate the outpatient reimbursement ceilings for teaching, specialty, Community Health Education Program hospitals and Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation.

From the funds in Specific Appropriation 217, \$3,176,689 from the Grants and Donations Trust Fund and \$4,528,113 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose charity care and Medicaid days as a percentage of total adjusted hospital days equals or exceeds 11 percent. For any public hospital that does not qualify for the elimination of the outpatient ceilings under this provision of proviso or any other proviso listed, the public hospital shall be exempt from the outpatient reimbursement ceilings contingent on the public hospital or local governmental entity providing the required state match. The agency shall use the average of the 2000, 2001 and 2002 audited DSH data available as of March 1, 2006. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2000, 2001 and 2002 that are available.

From the funds in Specific Appropriation 217, \$159,677 from the Grants and Donation Trust Fund and \$227,607 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2.

From the funds in Specific Appropriation 217, \$4,627,389 from the Grants and Donations Trust Fund and \$6,595,966 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose Medicaid days, as a percentage of total hospital days, exceed 7.3 percent, and are designated or provisional trauma centers. This provision shall apply to all hospitals that are designated or provisional trauma centers on July 1, 2006 or become a designated or provisional trauma center during State Fiscal Year 2006-2007. The agency shall use the average of the 2000, 2001 and 2002 audited DSH data available as of March 1, 2006. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2000, 2001 and 2002 that are available.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 217 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

SECTION 3 - HUMAN SERVICES

From the funds in Specific Appropriation 217, \$6,184,500 from the Grants and Donations Trust Fund and \$8,815,500 from the Medical Care Trust Fund are appropriated so that the agency may amend its current rules and contracts regarding the billing of Medicaid outpatient clinic facility fees and physician services to allow for payments to public hospitals for the cost of providing health care services to Medicaid recipients, when the public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to public hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, or taxing districts.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The monies contained herein are appropriated from the named funds to the Department of Corrections, Florida Department of Law Enforcement, Department of Juvenile Justice, Parole Commission, Department of Legal Affairs/Attorney General and the Justice Administration as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 695 through 864, the Department of Corrections shall support the Office of Program Policy and Governmental Accountability (OPPAGA) which shall conduct a comprehensive review of the Department of Corrections. OPPAGA shall examine the department's mission and purpose, scope of services, and programs to identify those programs or services that fall outside the department's mission, or programs or services that should more appropriately be delivered by another state agency or local entity. In the course of the review, OPPAGA shall identify and report on specific organizational or programmatic deficiencies that diminish agency efficiency or effectiveness. The review shall include an examination of agency personnel deficiencies using pay scales, salaries, and benefits data. An assessment of all staffing levels within the department shall be conducted to ensure that levels are appropriate in fulfilling the department's statutory mission. The department shall provide sufficient data to OPPAGA to conduct these studies. OPPAGA shall submit a report to the chair of the Senate Ways and Means Committee and the chair of the House Fiscal Council by February 1, 2007.

From the funds in Specific Appropriations 695 through 864, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2007.

Funds in Specific Appropriations 695 through 864 shall not be used to pay for unoccupied leased space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2006, and for which it has been determined by the secretary of the department that there is no longer a need.

	FROM GENERAL REVENUE FUND	5,002,675	
	From the funds in Specific Appropriation 1122A, \$1,982,675 from recurring general revenue is provided to continue the redirection program initially authorized in FY 2004-2005 and expanded in FY 2005-2006. As part of the treatment alternative, the redirection program shall include short-term residential placement sufficient to stabilize the youth and shall utilize electronic monitoring for a sufficient number of youth to allow for a statistically valid evaluation of electronic monitoring as an additional supervision tool. Treatment services shall include multi-systemic therapy or functional family therapy for youth for whom these services are appropriate.		
	Only youth who are before the court solely for a non-law violation of probation and whom the judge determines would otherwise need long-term residential commitment to address treatment needs shall be eligible for placement into this program. Further, youth who have been adjudicated or convicted of a violent crime or first degree felony, or otherwise have a criminal history of such offenses, shall not be eligible for placement into this program. The department and each participating court shall agree on a protocol to identify youth appropriate for diversion into this program.		
	In addition, \$3,020,000 from the General Revenue Fund is provided to expand community-based redirection services to 360 additional youth, at least 50 of whom must be females. Eligibility for the expanded services shall be limited to youth who are before the court for a non-law violation of probation or conditional release or a misdemeanor unless the child has been adjudicated delinquent for a violent felony or has been convicted or had adjudication withheld for any felony offense in adult court.		
	The department, in consultation with the Office of Program Policy Analysis and Governmental Accountability (OPPAGA), shall develop reporting protocols to gather and maintain the data necessary to allow OPPAGA to conduct a longitudinal evaluation of the program, including the program expansion, which shall include a comparison of the effectiveness of the various components of the program.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

It is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

No supervisor of elections shall receive any funds until the supervisor of elections provides to the Department of State a detailed description of the voter-education programs, such as those described above, to be implemented.

The department shall distribute an amount to each eligible county supervisor equal to the funding level per voter multiplied by the number of registered voters in the county for the 2004 General Election. The department shall determine the funding level per voter based on the number of registered voters in the state for the 2004 General Election.

In order for a county supervisor of elections to be eligible to receive state funding for voter education, the county must certify to the Division of Elections that the county will provide matching funds for voter education in the amount equal to fifteen percent of the amount to be received from the state. Additionally, to be eligible, a county must segregate state voter education distributions and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Any funds remaining in the fund at the end of the fiscal year shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended.

SPECIFIC
APPROPRIATION

SECTION 8. EMPLOYEE COMPENSATION AND BENEFITS - Fiscal Year 2006-2007

Statement of Purpose

This section provides instructions for implementing the Fiscal Year 2006-2007 salary and benefit increases provided in Specific Appropriation 2229. All allocations, distributions and uses of these funds are to be made in strict accordance with the provisions of this act.

References to "eligible" employees refer to employees who are, at a minimum, meeting their required performance standards. If an ineligible employee achieves performance standards subsequent to the salary increase implementation date but on or before the end of the fiscal year, the employee may receive an increase; however, such increase shall be effective on the date the employee becomes eligible but not retroactively.

Pay Grade Adjustments

It is the intent of the Legislature that, effective October 1, 2006, the minimums for each pay grade and pay band shall be increased by no more than 2.0 percent and the maximums for each pay grade and pay band shall be increased by at least 3 percent, consistent with the salary increases authorized in this act. After the maximum of the pay grade or pay band is increased, if an employee's base rate of pay is equal to or greater than the adjusted maximum of the employee's pay grade and pay band, the employee will be granted a one-time, lump-sum payment in lieu of an increase to the employee's base rate of pay. When an employee's base rate of pay is less than the adjusted maximum of the employee's pay grade or pay band and the increase to the base rate of pay will be greater than the adjusted maximum, the employee's salary will be increased to the adjusted maximum and the portion of the increase that exceeds the adjusted maximum shall be granted instead in a one-time lump-sum payment.
