

Florida's Mathematics Ranking 2003–2015, Grades 4 and 8

Average Scale Scores, All Students

Grade 4 Florida Mathematics Rankings

The number of other states with scores not significantly different from Florida's is shown in parentheses.

	2003	2005	2007	2009	2011	2013	2015
All	32 (15 not significantly different)	25 (16 not significantly different)	21 (18 not significantly different)	23 (20 not significantly different)	30 (16 not significantly different)	27 (20 not significantly different)	18 (20 not significantly different)
White	21 (29 not significantly different)	13 (20 not significantly different)	11 (16 not significantly different)	12 (18 not significantly different)	16 (22 not significantly different)	18 (23 not significantly different)	12 (21 not significantly different)
Black	26 of 41 (29 not significantly different)	9 of 41 (18 not significantly different)	10 of 44 (24 not significantly different)	6 of 44 (26 not significantly different)	14 of 44 (29 not significantly different)	15 of 44 (27 not significantly different)	9 of 42 (27 not significantly different)
Hispanic	4 of 42 (16 not significantly different)	7 of 41 (18 not significantly different)	2 of 45 (16 not significantly different)	2 of 45 (14 not significantly different)	9 of 47 (22 not significantly different)	4 of 47 (22 not significantly different)	2 of 47 (13 not significantly different)
Eligible for NSLP	27 (25 not significantly different)	17 (20 not significantly different)	10 (15 not significantly different)	8 (13 not significantly different)	17 (24 not significantly different)	18 (22 not significantly different)	5 (13 not significantly different)

Grade 8 Florida Mathematics Rankings

The number of other states with scores not significantly different from Florida's is shown in parentheses.

	2003	2005	2007	2009	2011	2013	2015
All	38 (9 not significantly different)	36 (8 not significantly different)	35 (11 not significantly different)	34 (8 not significantly different)	42 (7 not significantly different)	35 (12 not significantly different)	42 (9 not significantly different)
White	28 (25 not significantly different)	28 (18 not significantly different)	29 (26 not significantly different)	35 (18 not significantly different)	41 (16 not significantly different)	31 (22 not significantly different)	40 (17 not significantly different)
Black	29 of 40 (26 not significantly different)	24 of 40 (24 not significantly different)	18 of 40 (21 not significantly different)	15 of 42 (26 not significantly different)	31 of 43 (26 not significantly different)	15 of 43 (32 not significantly different)	21 of 39 (37 not significantly different)
Hispanic	6 of 36 (28 not significantly different)	13 of 37 (28 not significantly different)	11 of 42 (26 not significantly different)	10 of 44 (27 not significantly different)	12 of 46 (28 not significantly different)	20 of 46 (27 not significantly different)	16 of 47 (38 not significantly different)
Eligible for NSLP	39 (18 not significantly different)	33 (21 not significantly different)	33 (23 not significantly different)	22 (21 not significantly different)	39 (22 not significantly different)	23 (20 not significantly different)	38 (29 not significantly different)
