

**Schedule for the 2010 Just Read, Florida!
CATER Summer Professional Development Academies**

6-12 Career and Technical Education in Reading (CATER)

(Tuesday through Thursday from 8:30AM to 4:00PM)

This summer's CATER training will provide professional development for state certified career and technical education teachers who have completed CAR-PD. The purpose of this academy is to help teachers better understand how reading intervention is implemented in their classrooms, including changes in instructional practices and curricular modifications. As part of this pilot, CTE teachers completing this academy may serve fluent Level 1 and 2 students in reading intervention through their CTE courses. This will be the first three days of a 150-hour professional development requirement for these teachers who will work to complete their Reading Endorsement over the course of the 2010-11 school year.
