SUBJECT: Annual CTE Instructor Day One Vacancy Survey

Colleagues:

Annually, the Division of Career and Adult Education reaches out to school districts, technical colleges, and Florida College System institutions to gather data on day one CTE faculty vacancies. The data gathered provides essential information to support planning for recruitment and retention and is used to determine critical instructor shortages.

As in the past, this survey asks for an inventory of instructor vacancies by CTE program. Since this survey is subdivided by educational level, please respond to each that are relevant for your agency. For instance, colleges that offer clock hour programs and college credit programs, should complete both respective surveys.

Please respond to this survey by midnight, September 25th, 2020.
