June 20, 2008

Dr. Fran Vandiver, Director  
P.K. Yonge Developmental Research School  
1080 Southwest 11<sup>th</sup> Street  
Gainesville, Florida 32601

Dear Dr. Vandiver:

The Bureau of Exceptional Education and Student Services is in receipt of your district's response to the preliminary findings of its Exceptional Student Education (ESE) Compliance Self-Assessment. This letter and the attached document(s) comprise the final report for P.K. Yonge Developmental Research School's (P.K. Yonge) 2007-08 ESE monitoring.

The self-assessment system is designed to address the major areas of compliance related to the State Performance Plan (SPP). SPP Indicator 15, Timely Correction of Noncompliance, requires that the state identify and correct noncompliance **as soon as possible, but no later than one year from identification.**

As indicated in prior communication with district ESE staff, it was anticipated that there might be an increase in the number of findings of noncompliance over previous monitoring activities due to the design of the self-assessment protocols and sampling system. While any incident of noncompliance is of concern, it is important to note that, in accordance with the language in SPP Indicator 15, the Bureau's current monitoring system considers the timeliness of correction of noncompliance to be of greatest significance.

On February 22, 2008, the preliminary report of findings from the self-assessment process was released to the district. The preliminary report detailed student-specific incidents of noncompliance that required immediate correction, and identified any standards for which the noncompliance was considered systemic (i.e., evident in  $\geq 25\%$  of the records reviewed). In the event that there were systemic findings, a corrective action plan (CAP) was required. In addition,

**BAMBI J. LOCKMAN**

*Chief*

*Bureau of Exceptional Education and Student Services*

the district participated in a validation review to ensure the accuracy of the self-assessment data. Your district's validation review revealed no inconsistencies in the original report of data.

In accordance with guidance from the Office of Special Education Programs (OSEP), U.S. Department of Education, a finding of noncompliance is identified by the standard (i.e., regulation or requirement) that is violated, not by the number of times the standard is violated. While each *incident* of noncompliance must be corrected for the individual student affected, multiple incidents of noncompliance regarding a given standard that occur within a school district are reported as a single *finding* of noncompliance for that district. These results are included in the Bureau's annual reporting to OSEP.

Districts were required to correct all student-specific noncompliance no later than April 25, 2008, and to provide evidence to the Bureau no later than April 30, 2008. We are pleased to report that P.K. Yonge completed the required corrective actions within the established timeline.

Upon additional review it was determined that, due to an error on the Bureau's behalf, P.K. Yonge had not been asked to submit a CAP, although one was required. Once notified, the CAP was timely submitted.

P.K. Yonge was required to assess 72 standards. One or more incidents of noncompliance were identified on 8 of those standards (11%). The following is a summary of P.K. Yonge's correction of student-specific incidents of noncompliance:

**Correction of Noncompliance by Student**

	<b>Number</b>	<b>Percentage</b>
Records Reviewed/Protocols Completed	8	–
Total Items Assessed	252	–
Noncompliant	8	3%
Timely Corrected	8	100%

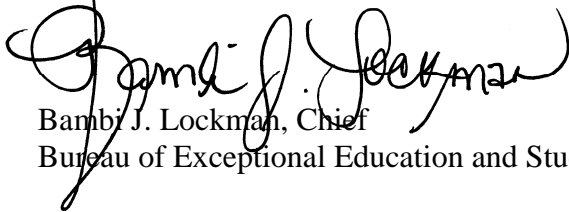

The *PK Yonge (UF Lab School) District Summary Report: Findings of Noncompliance by Standard* (Attachment 1) contains a summary of the findings reported by the individual standard or regulation assessed. These data include revisions to the preliminary report that resulted from the validation review. Systemic findings are designated by shaded cells in the table. As noted in this attachment, one or more findings of noncompliance were determined to be systemic in nature and the district was required to develop a CAP to address the identified standards. PK Yonge's CAP was submitted to the Bureau for review and approval, and is provided in Attachment 2. Please note that a timeline for implementation, evaluation, and reporting of results on the part of the district is included in the CAP. Your district's adherence to this schedule is required in order to ensure correction of systemic noncompliance within a year as required by OSEP and Florida's SPP.

Dr. Fran Vandiver

The results of district self-assessments conducted during 2007-08 will be used to inform future monitoring activities, including the selection of districts for on-site monitoring, and in the local educational agency (LEA) determinations required under section 300.603, Title 34, Code of Federal Regulations, which result in districts being identified as “meets requirements,” “needs assistance,” “needs intervention,” or “needs substantial intervention.”

We understand that the implementation of this self-assessment required a significant commitment of resources, and appreciate the time and attention your staff has devoted to the process thus far. If you have questions regarding this process, please contact your assigned district liaison for monitoring or Dr. Kim C. Komisar, Administrator, at [kim.komisar@fldoe.org](mailto:kim.komisar@fldoe.org) or via phone at (850) 245-0476.

Sincerely,

A handwritten signature in black ink, appearing to read "Bambi J. Lockman". The signature is fluid and cursive, with a large initial "B".

Bambi J. Lockman, Chief  
Bureau of Exceptional Education and Student Services

**PK Yonge (UF Lab School) District Summary Report: Findings of Noncompliance by Standard**

This report provides a summary of the district's results and must be used when developing a corrective action plan. Results are reported by standard, with systemic noncompliance (occurrence in  $\geq 25\%$  of possible incidents) indicated as appropriate. See the *Student Report: Incidents of Noncompliance* for student-specific findings. Results are based on the following:

Number of IEP protocols completed: 5  
 Number of standards per IEP: 38  
 Number of STA protocols completed: 1  
 Number of standards per STA: 6  
 Number of STB protocols completed: 2  
 Number of standards per STB: 28

Total number of protocols: 8  
 Total number of standards: 252  
 Total number of incidents of noncompliance (NC): 8  
 Overall % incidents of noncompliance: 3%

Percent of noncompliance is calculated as the # of incidents of noncompliance for a given standard divided by the # of protocols reviewed for that standard, multiplied by 100.

\* Correctable for the student(s): A finding for which immediate action can be taken to correct the noncompliance.

\*\* Individual CAP: For a finding which cannot be corrected for an individual student, a corrective action plan (CAP) is required to address how the district will ensure future compliance; this plan will be limited in scope, based on the nature of the finding.

\*\*\* Systemic CAP: For a finding of noncompliance on a given standard that occurs in  $\geq 25\%$  of possible incidents, a corrective action plan (CAP) is required to ensure future compliance; this plan must address the systemic nature of the finding and will be broader in scope than an individual CAP.

Note: In the event that there is a systemic finding of noncompliance on a standard that requires an individual CAP, only a systemic CAP is required.
