Automated Staff Reporting Format**

1998-99 Staff Experience

1. The experience elements are to be reported only for instructional personnel and instructional administrators excluding on-call substitute teachers. Submit this format during reporting period 2.
2. Each type of professional experience of the staff member should be submitted. In the case of instructional administrators who previously held instructional positions, all experience in instructional positions should be reported. The eight experience types are not mutually exclusive. Each year of professional experience should be reported in as many of the experience categories as are applicable.
3. An Experience Length of "00" indicates that the employee is in the first year for the indicated Experience Type. One year is added for each year of professional experience during which the staff member was employed more than one-half the number of days required for the normal contractual period of service for the position held.
4. KEY FIELDS: The key fields for this format are item numbers 1, 2, 3, 4, and 5. If a key field needs to be changed, the record must be deleted and re-submitted as an add.
