Element Name:	Teenage Parent Program - Number of Children Born to a Student **DELETED**

Definition/Domain

This data element reflects the cumulative number of live births (up to nine), born to a female participant in the Teenage Parent program. The count should include all live births, including those born through the end of the school term being reported.

Example:

1   The female participant in a Teenage Parent program has had a total of one live birth.

0   The female participant had no live births or the participant was a father.
