Career and Professional Education Act Enrollment and Performance Report, 2013-14

Florida Department of Education
Division of Career and Adult Education
Rod Duckworth, Chancellor

December 2014

At a Glance

In academic year 2013-14, the seventh year of implementation of the Florida Career and Professional Education (CAPE) Act, school districts registered 1,650 high school and 166 middle school career and professional academies, representing 64 of Florida's school districts as well as the Florida Virtual School and Florida School for the Deaf and Blind. In addition, the Career and Professional Education Act was amended in 2012-13 to include career-themed courses. School districts registered 5,172 career-themed courses, representing all 67 of Florida's school districts, as well as the Florida Virtual School, Florida A&M University Laboratory School and Florida State University Laboratory School. This study found the following regarding enrollment patterns and student performance.

- The most frequent career cluster represented by academies was Information Technology with 264 registered high school and middle school academies followed by Arts, A/V Technology and Communication with 250 academies.
- High school CAPE participants were most likely to be ninth-graders and middle school CAPE participants were most likely to be eighth graders.
- The distribution of students by race and gender among CAPE Participants was similar to that of non-academy students.
- In the 2013-14 school year, 63,328 CAPE participants earned 69,317 certifications with a pass rate of 78.2 percent.
- Middle school and high school CAPE participants had higher average GPAs than their non-CAPE counterparts.
- Middle school and high school CAPE participants were less likely to have been chronically absent than their non-CAPE counterparts.
- There was no clear pattern indicating that CAPE participants were more or less likely to have been subjected to disciplinary action than non-CAPE students.
- High school CAPE participants were less likely to have dropped out of school than non-CAPE students.
- Students who earned a certification were more likely to take Advanced Placement or dual enrollment courses than their students who did not earn a certification.
- The earning of industry certifications and in some instances CAPE participation are correlated with higher student performance among high school students.
- Academy students with an industry certification earner graduates outperformed the academy students without an industry certification earner graduates with a higher placement rate in employment or postsecondary education.

Introduction

According to section 1003.492(5), Florida Statutes (F.S.), the Florida Department of Education (FDOE) shall conduct an annual analysis of student participation and performance in industry certified secondary career and technical programs authorized by the Career and Professional Education Act. Performance indicators for students enrolled in career and professional academies (also referred to as CAPE academies or simply academies in this report) and students enrolled in career-themed courses include, but are not limited to, graduation rates, retention rates, Florida Bright Futures Scholarship awards, additional educational attainment, employment records,

earnings, industry certification, return on investment and employer satisfaction. The results of this study shall be submitted to the President of the Senate and the Speaker of the House of Representatives annually by December 31.

Background

In 2007 the Florida Legislature passed the Career and Professional Education Act. The purpose of the act was to provide a statewide planning partnership between the business and education communities in order to attract, expand and retain targeted, high-value industry and to sustain a strong, knowledge-based economy. The objectives of the act are as follows:

- To improve middle and high school academic performance by providing rigorous and relevant curriculum opportunities;
- To provide rigorous and relevant career-themed courses that articulate to postsecondary-level coursework and lead to industry certification;
- To support local and regional economic development;
- To respond to Florida's critical workforce needs; and
- To provide state residents with access to high-wage and high-demand careers.

To implement the legislation, the act created statewide partnerships among the FDOE, the Florida Department of Economic Opportunity (DEO) and CareerSource Florida. s. 1003.491(2), F.S., requires that each district school board develops a three-year strategic plan to address and meet local and regional workforce demands. This plan must be developed in collaboration with a district's local workforce board and local postsecondary institutions. A required element in this plan was the provision for at least one operational career and professional academy per school district, pursuant to s. 1003.492(2), F.S., by the beginning of the 2008-09 school year. Beginning with the 2012-13 school year, the academy requirement was replaced with a requirement that each school district shall offer at least two career-themed courses.

Career and Professional Academies and Career-themed Courses

A career and professional academy is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs established by regional workforce boards or DEO.

A career-themed course is a course or a course in a series of courses that leads to an industry certification on the Industry Certification Funding List. They are designed to have an industry specific curriculum aligned to priority workforce needs established by regional workforce boards or DEO.

According to s. 1003.493(4), F.S., each career and professional academy and secondary school providing a career-themed course must:

- 1) Provide a rigorous standards-based academic curriculum integrated with a career curriculum;
- 2) Include one or more partnerships with postsecondary institutions, businesses, industry, employers, economic development organizations or other appropriate

- partners from the local community;
- 3) Promote and provide opportunities for students to earn, at a minimum, the Florida Gold Seal Vocational Scholars award pursuant to s. 1009.536, F.S.;
 - 4) Provide instruction in careers designated as high skill, high wage, and high demand by the regional workforce development board, the chamber of commerce, economic development agencies DEO;
 - 5) Deliver instruction relevant to the applicable career, including intensive reading and mathematics intervention;
 - 6) Offer applied courses that combine academic content with technical skills; and
 - 7) Provide instruction resulting in competency, certification or credentials in workplace skills.

Districts are required to annually register with FDOE career and professional academies and career-themed courses that meet the requirements of s. 1003.493, F.S., during registration windows. Superintendents certify that each registered academy and career-themed course meets all of the requirements in statute.¹

Industry Certifications

A key component of this act is a focus on industry certifications that are critical to Florida's employers. The legislation tasked DEO with defining "Industry Certification." The department's definition was the following:

A voluntary process, through which individuals are assessed by an independent, third-party certifying entity using predetermined standards for knowledge, skills and competencies, resulting in the award of a time-limited credential that is nationally recognized and applicable to an occupation that is included in the workforce system's targeted occupation list or determined to be an occupation that is critical, emerging or addresses a local need.

The act required that FDOE "develop and adopt rules for implementing an industry certification process" as an essential element of implementing the new law. For the 2013-14 year, the process described in Rule 6A-6.0573, Florida Administrative Code, included two stages. In the first stage, CareerSource Florida produces an annually updated list of industry certifications that ensure skill proficiency, address emerging labor market and industry needs, and are based on the highest available national standards. This list is reviewed and approved by the CareerSource Florida board and must be annually published according to the requirements of s. 1003.492(2), F.S. This list is known as the "Comprehensive Industry Certification List" and is published annually on March 1.

From this comprehensive list, FDOE develops the Industry Certification Funding List in the second stage of the process. This list is a subset of items on the Comprehensive Industry Certification List, based on the following criteria.

- 1) The certification must be achievable by a secondary student.
- 2) The certification must require a minimum of 150 hours of instruction.

¹ 6A-6.0573 (9), Florida Administrative Code

Funding Incentives

For each student enrolled in a registered career-themed course who earns a certification on the “Industry Certification Funding List,” the district of instruction may earn add-on full-time equivalent (FTE) student membership for the following year’s funding calculation in the FEFP.² Certifications earned through dual enrollment are not eligible for additional FTE. Prior to the 2013-14 school year, students enrolled in a registered career and professional academy who earned a certification on the “Industry Certification Funding List” were eligible for add-on full-time equivalent (FTE). The maximum additional FTE is capped at 0.3 per high school student. Add-on FEFP generated for certifications earned by students in grades 6-8 is not counted toward the 0.3 cap. Data reported for 2012-13 was used for the 2013-14 FEFP calculation. For the 2013-14 FEFP, CAPE participants who graduated in 2012-13 generated 6,908.80 additional FTE in the K-12 funding formula. The estimated value of this FTE in the FEFP calculation is about \$25.9 million.

For certifications earned prior to July 1, 2011, the eligible funding weight was 0.3. The law was amended in 2013 to require the State Board of Education to adopt annual weights for each industry certification that would yield 0.1 or 0.2 add-on FTE. The criteria are based on statewide gold standard articulation agreements approved by the State Board of Education in Rule 6A-10.0401, F.A.C. A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) and College Credit Certificate (CCC) programs. For certifications earned in 2013-14 and later, the weight is 0.2 for certifications with a gold standard articulation agreement and 0.1 for all others. These new weights will be implemented for the 2014-15 FEFP calculation. The funding weight for a certification is based on the year in which the certification was earned. The maximum add-on FTE generated for students in grades 9-12 remained 0.3.

Accountability

An accountability mechanism included in the act requires that the three-year strategic plan must be amended to include specific strategies to improve the passage rate if 50 percent of students taking industry certification exams in a career and professional academy or career-themed course do not pass the exam. The law was amended in 2012, striking requirements related to specific pass rates required to enroll new students in existing courses.

Middle School Academies and Career-themed Courses

Changes to the law in 2012 required each school district to plan the development of at least one middle school CAPE academy or career-themed course.³ Middle school academies and career-themed courses must

- 1) Be aligned with at least one high school CAPE academy or career-themed course offered in the district and maintain partnerships with local business and industry and economic development boards;
- 2) Provide instruction in courses leading to careers in occupations designated as high

² Section 1011.62(1)(o), Florida Statutes

³ Section 1003.4935, Florida Statutes

- skill, high demand and high wage;
- 3) Integrate content from core subjects;
 - 4) Integrate career content with intensive reading and mathematics;
 - 5) Maximize opportunities for students to earn high school credit;
 - 6) Provide access to virtual instruction courses;
 - 7) Provide instruction from teachers certified in the career subject matter;
 - 8) Offer externships; and
 - 9) Provide personalized student advisement.

Scope

With the introduction of career-themed courses, it is possible for a student to exclusively be enrolled in an academy, exclusively enrolled in a career-themed course or to be enrolled in an academy and career-themed course. Beginning with the 2013-14 year, only students enrolled in career-themed courses are eligible for add-on full-time equivalent (FTE) student membership for certifications earned. For this reason, in the majority of instances, students are found enrolled in at least one career-themed course. For the purposes of this report, CAPE participants include all students who met the criteria above. This analysis addresses the following questions.

- 1) How many career and professional academies and career-themed courses are there, and where are they located?
- 2) What are the characteristics of CAPE participants?
- 3) How many and what type of industry certifications have CAPE participants earned?
- 4) How did CAPE participants perform academically compared to other students?
- 5) What were the postsecondary and employment placement outcomes for CAPE participant graduates?

Method

Data were extracted from FDOE Student Information System for academic year 2013-14 (Survey 5 as of October 10, 2014).⁴ Data on career and professional academy characteristics are from FDOE academy registration database. Data on schools housing academies and career-themed courses was obtained from the Florida School Indicators Report. Data on employment and postsecondary enrollment were obtained from the Florida Education and Training Placement Information Program (FETPIP).

Findings

Profile of Career and Professional Academies and Career-themed Courses

In academic year 2013-14, 1,650 high school career and professional academies were registered in Florida, and 1,495 (90.6 percent) of these academies reported student enrollments. In 2013-14, there were 166 registered middle school academies, and 92 (55.4 percent) of these academies reported student enrollments. All but three of Florida's 67 school districts registered at least one career and professional academy with FDOE. The five districts with the most registered

⁴ Career and professional academy students were identified using the *Career and Professional Academy Identifier* data element (#107775). Career-themed courses were identified using Appendix FF.

academies (high school and middle school) were Hillsborough (242 academies), Miami-Dade (229), Broward (133), Palm Beach (109) and Polk (98).

In academic year 2013-14, 1,635 career-themed courses were registered in Florida. All of Florida's 67 school districts registered at least one career-themed course with FDOE and there were 296,452 students who were enrolled in at least one career-themed course. The five districts with the most registered courses were Miami Dade (334), Palm Beach (313), Broward (266), Hillsborough (251) and Pinellas (221). Table 1 shows the distribution trend of Florida's registered career and professional academies and career-themed courses and enrollment by school district.

Of the 361,334 participants, eighty-two percent are enrolled in at least one career-themed course. Forty-one percent of participants enrolled in a career-themed course are also enrolled in at least one academy. Eighteen percent of CAPE participants are only found enrolled in an academy.

Academy Curriculum

The curricular foci of registered academies fall under specific career clusters. A career cluster is a broad group of related occupations based on commonalities in knowledge and skills required to perform job tasks. The most frequent career cluster represented by academies registered in academic year 2013-14 was information technology with 202 high school and 62 middle school academies (see Table 2). The second most frequent cluster represented was health sciences with 213 high school and five middle school registered academies.

¹¹ Unduplicated count of students enrolled in at least one career-themed course and enrolled in no academies.

¹² Unduplicated count of students enrolled in at least one registered academy and enrolled in no career-themed courses.

¹³ Unduplicated count of students enrolled in at least one registered academy and at least one career-themed course.

¹⁴ Unduplicated count of students enrolled in either a registered academy or career-themed course. Students are counted more than once if they are reported in more than one district during the academic year.

Table 2
Number of Registered Career and Professional Academies by Career Cluster, 2013-14

| Primary Career Cluster | Number of High School Academies | Number of Middle School Academies |
|--|---------------------------------|-----------------------------------|
| Information Technology | 202 | 62 |
| Health Science | 213 | 5 |
| Hospitality & Tourism | 199 | 8 |
| Arts, A/V Technology & Communication | 223 | 27 |
| Agriculture, Food, and Natural Resources | 153 | 11 |
| Business Management and Administration | 129 | 36 |
| Engineering and Technology Education | 129 | 12 |
| Architecture & Construction | 120 | 1 |
| Education & Training | 61 | 0 |

| Government & Public Administration | 7 | 0 |
| Total | 1,650 | 166 |

Source: Career and Professional Academy Registration Database

In academic year 2013-14, there were 325,636 CAPE participants in grades 9-12, representing 37.1 percent of the entire high school population.¹⁵ There were 35,219 CAPE participants in grades 6-8 representing 5.3 percent of the middle school population. The distribution of high school CAPE participants was relatively similar among all grade levels with the highest population in ninth grade. Compared with high school participants, middle school CAPE participants represented less than 10 percent of the overall CAPE participants with the highest enrollment in eighth grade (see Table 3).

¹⁵ Based on data from the FDOE Student Information System as of October 10, 2014.

Table 3
Headcount by Grade Level of CAPE Participants¹⁶ and Non-CAPE Participants¹⁷, 2013-14

| School Level | Grade Level | CAPE Participants | Percent | Non-CAPE Participants | Percent |
|---------------|-------------|-------------------|---------|-----------------------|---------|
| Middle School | 6 | 6,685 | 1.9% | 209,794 | 17.8% |
| | 7 | 10,692 | 3.0% | 212,392 | 18.0% |
| | 8 | 17,842 | 4.9% | 206,446 | 17.5% |
| High School | 9 | 86,077 | 23.9% | 151,756 | 12.8% |
| | 10 | 82,524 | 22.9% | 142,390 | 12.0% |
| | 11 | 78,522 | 21.8% | 132,152 | 11.2% |

Demographic Profile

Table 4 shows that the distribution of CAPE participants (high school and middle school) by race/ethnicity and gender categories was similar to that of non-CAPE participants. Among CAPE participants, slightly more were male (53.5 percent) than female (46.5 percent). Forty six percent of CAPE participants were White, and the largest minority populations were Hispanics (27.6 percent) and African-Americans (20.4 percent). Compared to CAPE participants, a slightly lower percentage of non-CAPE participants were White (40.9 percent), and a slightly higher percentage were Hispanic (29.4 percent) and African-American (23.6 percent).

¹⁶ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

¹⁷ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Table 4
Distribution of CAPE Participants¹⁸ and Non-CAPE Participants¹⁹ by Gender and Race/Ethnicity, 2013-14

| CAPE Status | Gender | | Race/Ethnicity | | | | | | |
|-----------------|--------|-------|-----------------|-------|-------|----------|--------------------|------------------|-------|
| | Female | Male | American Indian | Asian | Black | Hispanic | More Than One Race | Pacific Islander | White |
| Participant | 46.5% | 53.5% | 0.4% | 2.5% | 20.4% | 27.6% | 2.8% | 0.1% | 46.2% |
| Non-Participant | 49.3% | 50.7% | 0.4% | 2.6% | 23.6% | 29.4% | 3.0% | 0.1% | 40.9% |

Performance

This section addresses the performance of students enrolled in career and professional academies and career-themed courses. The indicators addressed include the following:

- 1) The number and percentage of CAPE participants obtaining industry certifications;
- 2) Cumulative grade point average of CAPE and non-CAPE participants;
- 3) Student engagement indicators of CAPE and non-CAPE participants, including chronic absenteeism, disciplinary actions and dropout rates; and
- 4) Postsecondary readiness as indicated by the percentage of CAPE and non-CAPE participation in Advanced Placement and dual enrollment courses and eligibility for Florida Bright Futures Scholarships.²⁰

Performance levels on these indicators are reported at the aggregate state-level, summing up all CAPE and non-CAPE participants statewide. Performance levels for schools with CAPE participants can be found in Appendix B.

Industry Certification

Among the 361,334 CAPE participants, a total of 88,634 industry certifications on the Industry Certification Funding List were attempted by CAPE participants in 2013-14, of which 69,317 were passed, resulting in a pass rate of 78.2 percent. Among the 126 different certifications earned by CAPE participants, the top three were Adobe Certified Associate (Photoshop), Microsoft Office Specialist (MOS) Bundle and Adobe Certified Associate (Dreamweaver) (see Table 5).

¹⁸ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

¹⁹ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²⁰ Data was not available at the time this report was published.

Among the 88,634 certification attempts by CAPE participants, certifications weighted 0.1 was most commonly attempted representing 50.2 percent of attempts followed by weight-level 0.2, which represented 49.8 percent of all certification attempts by CAPE participants.

Table 5
Industry Certifications Attempted and Earned by CAPE Participants²¹ in 2013-14

| Industry Certification Title | Add-on Weight in the 14-15 FEFP | Certifications Attempted | Certifications Passed | Pass Rate |
|--|---------------------------------|--------------------------|-----------------------|-----------|
| Adobe Certified Associate (ACA) - Photoshop | 0.1 | 21,570 | 16,525 | 76.6% |

The higher the grade level of academy students, the greater the number of industry certifications earned. The majority of certifications (57.3 percent) were earned by eleventh and twelfth grade students. Thirty-one percent of industry certifications earned by CAPE participants were awarded to twelfth graders (see Table 6). Among ninth-graders, 13,185 certifications were earned, representing 19.0 percent of total certifications reported. The progression in the number of certifications as grade level increases is expected given the time and training required to earn industry certifications.

Table 6
Industry Certifications Earned by Grade Level of CAPE Participants²², 2013-14

| Grade Level | Certifications Earned | Percent |
|-------------|-----------------------|---------|
| 6 | 17 | 0.0% |

| Total | 69,317 | 100.0% |

Source: FDOE Student Information System

Table 7 shows the distribution of earned certifications by school district. Miami-Dade reported the highest number of reported certifications with 11,605, which represented 16.7 percent of all certifications reported in the state for CAPE participants. Second highest was Palm Beach with 8,401 certifications, or 12.1 percent; followed by Broward with 6,486 certifications, or 9.4 percent.

Table 7
Industry Certifications Earned by CAPE Participants²³ by School District and School Level, 2013-14

The 69,317 industry certifications earned by CAPE participants represent 93.2 percent of the 74,367 certifications earned in 2013-14. In addition, 5,050 industry certifications were reported as earned by non-CAPE participants representing 6.8 percent of the total number of certifications earned.

Grade Point Average (GPA)

Middle school CAPE participants in 2013-14 had a higher average cumulative GPA compared to the non-CAPE middle school population (see Table 8). High school CAPE participants had a higher average GPA than non-CAPE participants across all grade levels 9 through 12.

Table 8
Average Cumulative Grade Point Average of CAPE Participants²⁴ and Non-CAPE Participants²⁵
by Grade Level, 2013-14

| School Level | Grade Level | CAPE Participants: GPA | Non-CAPE Participants: GPA |
|---------------|-------------|------------------------|----------------------------|
| Middle School | 6 | 3.14 | 2.97 |
| | 7 | 3.09 | 2.98 |
| | 8 | 3.11 | 2.94 |
| High School | 9 | 2.66 | 2.54 |
| | 10 | 2.71 | 2.54 |
| | 11 | 2.75 | 2.65 |
| | 12 | 2.85 | 2.80 |
| All Grades | | 2.75 | 2.75 |

Source: FDOE Student Information System

²⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²⁵ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Student Engagement

Career and professional academies and career-themed courses were conceived as a way to offer a relevant curriculum to students. Student engagement can be measured through rates of absenteeism, disciplinary actions, graduation and dropping out of school. Middle school CAPE participants were less likely to be chronically absent than non-CAPE middle school participants (see Table 9).²⁶ Among high schools students, which represents the vast majority of CAPE participants, chronic absenteeism was less prevalent than among non-CAPE participants across grades 9 through 12.

Table 9
Percentage of CAPE Participants²⁷ and Non-CAPE Participants²⁸ Chronically Absent by Grade Level, 2013-14

| School Level | Grade Level | CAPE Participants: Chronically Absent | Non-CAPE Participants: Chronically Absent |
|---------------|-------------|---------------------------------------|---|
| Middle School | 6 | 6.9% | 7.5% |
| | 7 | 8.2% | 9.5% |
| | 8 | 9.5% | 11.0% |
| High School | 9 | 11.3% | 13.1% |
| | 10 | 12.4% | 15.7% |
| | 11 | 15.0% | 17.8% |
| | 12 | 18.9% | 21.2% |
| All Grades | | 13.7% | 12.8% |

Source: FDOE Student Information System

²⁶ Chronically absent is defined as 21 or more unexcused absences for the academic year.

²⁷ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²⁸ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

There is no consistent pattern when comparing the incidence of disciplinary actions between CAPE participants and non-CAPE students across grade levels. Overall CAPE participants were slightly less likely than non-CAPE students to have had disciplinary actions taken against them.

Table 10
Percentage of CAPE Participants²⁹ and Non-CAPE Participants³⁰ with Reported Disciplinary Actions by Grade Level, 2013-14

| School Level | Grade Level | CAPE Participants: At Least One Disciplinary Action | Non-CAPE Participants: At Least One Disciplinary Action |
|---------------|-------------|---|---|
| Middle School | 6 | 16.9% | 15.8% |
| | 7 | 20.0% | 18.2% |
| | 8 | 17.3% | 17.9% |
| High School | 9 | 18.1% | 18.8% |
| | 10 | 16.8% | 18.5% |
| | 11 | 15.5% | 14.7% |
| | 12 | 14.1% | 10.1% |
| All Grades | | 16.4% | 16.6% |

Source: FDOE Student Information System

²⁹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁰ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAPE participants were less likely to drop out than non-CAPE students, and CAPE participating seniors were more likely to graduate with a standard diploma than non-CAPE seniors. Among CAPE participating twelfth graders, 85.5 percent graduated with a standard diploma compared to 66.5 percent among non-CAPE 12th graders. The one-year dropout rate for academy students in grades 9-12 (0.8 percent) was 1.7 percentage points lower than that of non-CAPE students (see Table 11) and was lower across all grade levels.

Table 11
Percentage of CAPE Participants³¹ and Non-CAPE Participants³² Who Dropped out by Grade Level, 2013-14

| School Level | Grade Level | CAPE Participants: Dropout Rate | Non-CAPE Participants: Dropout Rate |
|--------------|-------------|---------------------------------|-------------------------------------|
| High School | 9 | 0.6% | 1.9% |
| | 10 | 0.7% | 2.2% |
| | 11 | 0.9% | 2.6% |
| | 12 | 1.2% | 3.6% |
| All Grades | | 0.8% | 2.5% |

Postsecondary Readiness and Employment

An important goal of the Career and Professional Education Act is to prepare students for postsecondary education by making them ready for the academic and technical work and giving them opportunities to earn postsecondary credit while in high school. One indicator of readiness for success in postsecondary education is eligibility for the Florida Bright Futures Scholarship. The 2013-14 data were not available at the time this report was published.

An indicator of postsecondary readiness is enrollment in accelerated courses (i.e., Advanced Placement, dual enrollment, International Baccalaureate and Advanced International Certificate of Education courses). Among CAPE participating high school students, 33.1 percent took one or more accelerated courses during the 2013-14 academic year. In comparison, the percentage for non-CAPE participant high school students was 30.2 percent.

³¹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³² Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Post-Graduation Outcomes

Data for all high school graduates was not available at the time this report was published. Placement data for the 2009-10, 2010-11 and 2011-12 graduate cohorts of CAPE participants and industry certification earners was available. These cohorts indicate that graduates who were CAPE participants and earned industry certifications are more likely to have been placed than the average CAPE participant graduate (see Table 12).³³ Because industry certification earners appear in the CAPE participant cohort and vice versa, firm conclusions cannot be drawn through this analysis alone, but the data do suggest that CAPE participation and, more clearly, industry certification, are correlated with and possibly influence positive post-graduation placement.

Table 12
Placement Rates of Three Cohorts of CAPE Participants³⁴ and Industry Certification Earner Graduates Compared to All High School Graduates

| Year | High School Graduate Cohort | Found Employed or Enrolled in Postsecondary Education | | | |
|---------|-------------------------------------|---|-----------|-----------|---------------|
| | | Fall 2010 | Fall 2011 | Fall 2012 | Fall 2013 |
| 2009-10 | All High School Graduates | 79.8% | 79.4% | 77.4% | Not Available |
| | CAPE Academy, No Certification | 79.9% | 79.9% | 78.0% | 76.8% |
| | Academy with Industry Certification | 83.5% | 82.4% | 80.8% | 80.0% |
| 2010-11 | All High School Graduates | | 80.1% | 79.4% | Not Available |
| | CAPE Academy, No Certification | | 80.3% | 79.9% | 78.6% |
| | Academy with Industry Certification | | 84.2% | 83.4% | 82.3% |
| 2011-12 | All High School Graduates | | | 79.4% | Not Available |
| | CAPE Academy, No Certification | | | 80.3% | 80.2% |
| | Academy with Industry Certification | | | 83.9% | 82.9% |

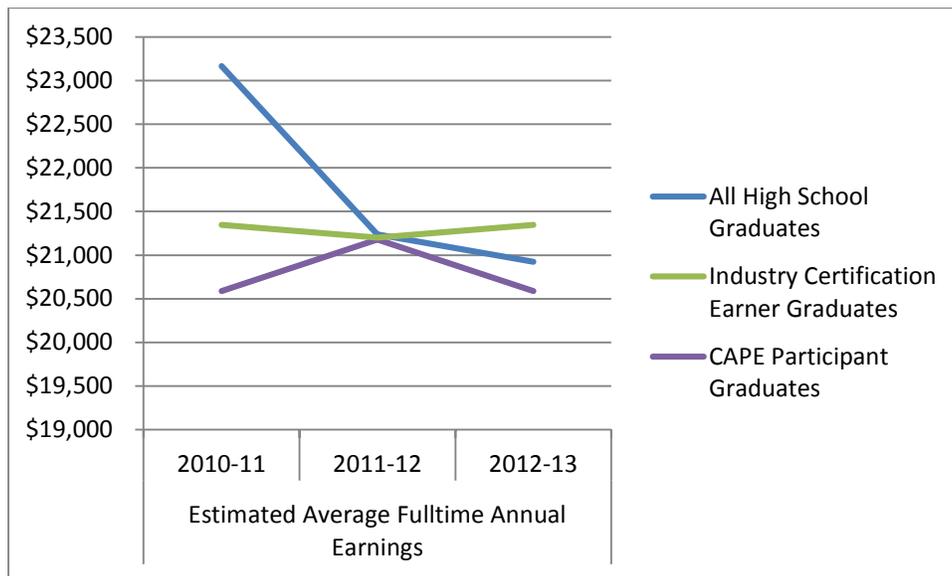

Sources: FDOE Student Information System and Florida Education & Training Placement Information System

³³ The outcome data have limitations. Regarding employment data, graduates employed outside the state of Florida would not be found unless they are in the military or working for the federal government. Some types of workers, e.g. self-employed, are not in the database. No assumptions can be made regarding occupation or wages. Regarding postsecondary placement, graduates enrolled outside the state would not be found.

³⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Data on average earnings over time of high school graduates indicates that industry certification may be correlated with higher earnings than those of the overall high school population. Exhibit 1 below shows the average estimated earnings (based on one quarter of data) of 2009-10 high school graduates found employed and earning a total dollar amount greater than the equivalent of working 40 hours a week, for the full quarter earning the minimum wage. While academy and industry certification graduates initially earned less, on average, than the general high school population, by the third year industry certification earners surpassed the overall average.

Exhibit 1
Average Estimated Annual Fulltime Earnings of CAPE Participants³⁵, Industry Certification Earner, and All High School Graduates, 2009-10 Cohort³⁶

Sources: FDOE Student Information System and Florida Education & Training Placement Information System

³⁵ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁶ Data for the 2013-14 follow-up was not available at the time this report was published.

Placement rates for 2012-13 graduates who had earned at least one industry certification are shown by certification earned in Table 13 below. This table includes all graduates who earned certifications regardless of whether they were a CAPE participant.

Table 13

Placement Rates of Industry Certification Earner High School Graduates by Certification, 2012-13 Cohort, Sorted by Percent Found Employed or Enrolled in Postsecondary Education

| Certification Title | Industry Certification Earner Graduates Identified for Follow-up ³⁷ | Number Found Employed or Enrolled in Postsecondary | Percent Found Employed or Enrolled in Postsecondary |
|--|--|--|---|

Comparison of CAPE Participants to Industry Certification Earners

In Table 14 below, CAPE participants and their comparison group peers are disaggregated by industry certification attainment to isolate the characteristics of CAPE participants and industry certification earners independently. The table includes high school students only because four of the indicators are not relevant for middle school students (dropout, graduation, acceleration and Bright Futures eligibility). The table shows a general trend that, as one moves from the leftmost column (non-CAPE student without certification) to the rightmost column (CAPE student with certification), the performance indicators tend to improve with few exceptions. Both CAPE participants and non-CAPE students who earn certifications performed at a higher level than their non-certified peers.

Table 14
Performance by CAPE Participation³⁸ and Industry Certification Attainment, 2013-14, Grades 9-12 Only

| Performance Indicator | Non-CAPE, No Certification | CAPE, No Certification | Non-CAPE + Certification | CAPE + Certification |

³⁸ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁹ Data was not available at the time this report was published.

Five-Year Trends

The number of registered career and professional academies grew from 246 in 2007-08 to 1,816 in 2013-14 (see Table 15). The percentage of Florida high school students enrolled in career and professional academies and career-themed courses grew from 2.2 percent to 37.1 percent. The number of CAPE participants earning industry certifications grew from 803 in 2007-08 to 63,328 in 2013-14. As CAPE participation increased, the pass rate of academy students taking certification exams dropped considerably from 85.7 percent in 2007-08 to 59.6 percent in 2009-10, but rose to 78.2 percent by 2013-14.

Table 15
Five-Year Trends in Career and Professional Participation⁴⁰ Data

Return on Investment

As of the 2013-14 year, there were 98 industry certifications with State Board Approved Gold Standard Articulation Agreements of which 67 appear on the 2013-14 Industry Certification Funding List. A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) and College Credit Certificate (CCC) programs. For the certifications on the current Industry Certification Funding List, the available articulated credit ranged from two credit hours to 36 depending on the industry certification and the degree program it articulated to. The majority of certifications articulated to three credit hours. Twelve of the certifications on the funding list had more than one articulation agreement. Students who earned one of these would have the option of receiving articulated credit in more than one degree program. In 2013-14 CAPE participants earned 35,798 industry certifications with at least one articulation agreement. Two of the industry certifications earned, Manufacturing Skill Standards Council (MSSC) - Certified Production Technician (CPT) and

⁴⁰ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CompTIA A+ articulated to more than one program. Table 16 shows the potential value of the college credit obtained through earning the certification.

Table 16
Return on Investment- Industry Certifications and College Credit

| Certification Title | Number of Certifications Earned | Potential College Credit Through Articulation | Value of College Credit Obtained through Articulation |
|--|---------------------------------|---|---|
| Microsoft Office Specialist (MOS) Bundle Certification (3 out of 6 - Word, Excel, PowerPoint, Access, Outlook, SharePoint) | 11,507 | 3 | \$215.94 |
| Adobe Certified Associate (ACA) Web Communication using Adobe - Dreamweaver | 9,121 | 3 | \$215.94 |

| Cisco Certified Network Associate (CCNA) | 1 | 12 | \$863.76 |
| Pharmacy Technician | 1 | 9 | \$647.82 |

Conclusion

In the seventh year of implementation, the number of career and professional academies, career-themed courses and enrolled students continues to grow across the state, and a change to the law opened two new frontiers: middle schools and career-themed courses. CAPE participants on average performed better than non-CAPE students on most indicators, and students with industry certifications clearly performed better on all the indicators in this report than non-certified students. Placement data of CAPE participant and industry certification earner graduates indicate that CAPE participant graduates were slightly more likely to be found employed or in postsecondary education and were earning, on average, about the same as the average high school graduate. Graduates earning industry certifications showed consistently higher performance in their placement rate and earnings over time.

¹ A number sign (#) indicates there were less than 10 students represented in the demographic subgroup or total membership.

² Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district, school and student. Students are counted more than once if they are reported in more than one school of instruction during the academic year.

³ “Fall 2013 Membership” is reported using school of enrollment and “CAPE Participant Headcount” is reported using school of instruction. Therefore, “Percent in Academy and/or Career-Themed Course” may exceed 100 percent due to students receiving instruction at a school at which they are not enrolled.

¹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district, school of instruction, and student. Students are counted more than once if they are reported in an academy or career-themed course in more than one district or school of instruction during the academic year.

² Data was not available at the time this report was published.
