LIST OF TABLES AND FIGURES

Table 1a: CAPE Participants in Registered Career and Professional Academies and Career-themed Courses by School District, 2019-2020.....	15
Provides counts, by school district and by middle or high school level, of registered career-themed courses, career and professional academies, academy participants, and CAPE participants	
Table 1b: CAPE Participants by Grade Level and Type, 2019-2020	18
Provides counts of students, by grade level, who are only registered in career-themed courses, only registered in academies, or who are both registered in a career-themed courses and in academies	
Table 1c: CAPE Participants and Industry Certification Attempts by School District, 2019-2020.....	19
Provides counts, by school district and by middle or high school level, of CAPE participants and the number of CAPE participants who attempted an industry certification	
Table 2: Number of Registered Career and Professional Academies by Career Cluster, 2019-2020	24
Provides a count, by career cluster, or middle and high school academies	
Figure 1: Percentage of CAPE Participants by Grade Level, 2019-2020	26
A pie chart depicting the percentage of CAPE participants by grade level	
Table 3: Percentage of CAPE Participants by Grade Level, 2019-2020	27
A table comparing counts of CAPE and Non-CAPE participants, by grade level, as well as providing the percentage of CAPE students by grade and state-wide	
Table 4: Distribution of CAPE Participants and Non-CAPE Participants by Gender and Race/Ethnicity, 2019-2020.....	28
A table providing percentage distribution of CAPE participants and Non-CAPE participants by gender and by race/ethnicity	
Table 5a: Industry Certifications Attempted and Earned by CAPE Participants in 2019-2020	30
A table providing the funding weight, the number of certifications attempted, the number of certifications passed, and the pass rate for industry certifications earned by CAPE participants	
Table 5b: CAPE Digital Tool Certificates Attempted and Earned in 2019-2020	47
Provides a list of digital tool certifications with a count of certificates attempted and passed as well as a pass rate percentage by certification	
Table 6a: Industry Certifications Earned by Grade Level of CAPE Participants, 2019-2020	48
Provides a count of CAPE and CAPE acceleration industry certifications earned, by grade level	
Table 6b: CAPE Digital Tools Earned by Grade Level of Student, 2019-2020	49
Provides a count, by grade level, of the CAPE digital tools earned	
Table 7a: Industry Certifications Earned by CAPE Participants by School District and School Level, 2019-200	50
By school district, this table provides a count of certifications earned by high school and middle school students including totals for all and the percentages of state totals	
Table 7b: : Number of CAPE Participants who Earned Industry Certification by Count Earned, 2019-2020	54
Provides a count of students by the number of industry certifications earned	
Table 7c: CAPE Digital Tool Certificates Earned by School District and School Level, 2019-2020.....	55
By school district, this table provides a count of CAPE digital tool certifications earned by elementary school and middle school students including totals for all and the percentages of state totals	

Table 8: Average Cumulative Grade Point Average of CAPE Participants and Non-CAPE Participants by Grade Level, 2019-202059

Provides a comparison of the average cumulative GPA of CAPE participants and non-CAPE participants by grade level

Table 9: Percentage of CAPE Participants and Non-CAPE Participants Chronically Absent by Grade Level, 2019-202061

Provides a comparison of the percentage of CAPE participants and non-CAPE participants who demonstrated chronic absenteeism, by grade level

Table 10: Percentage of CAPE Participants and Non-CAPE Participants with Reported Disciplinary Actions by Grade Level, 2019-202062

Provides a comparison of the percentages of CAPE participants and Non-CAPE participants with disciplinary actions by grade level

Table 11: Percentage of CAPE Participants and Non-CAPE Participants Who Dropped Out by Grade Level, 2019-2020.....63

Provides a comparison of the dropout rates of CAPE Participants and Non-CAPE Participants by grade level

Table 12: Placement Rates of Various Cohorts of CAPE Participants and Industry Certification Earner Graduates Compared to All High School Graduates65

This table compares placement rates of all high school graduates, CAPE Academy participants without industry certifications, and CAPE Academy participants who earned industry certifications.

Figure 2: Average Estimated Annual Fulltime Earnings of CAPE Participants, Industry Certification Earners, and All High School Graduates, 2019-202068

This line graph visually compares average estimated annual fulltime earnings for three groups: all high school graduates, industry certification earners who graduated, and CAPE participants who graduated over multiple years.

Table 13: Placement Rates of Industry Certification Earner High School Graduates by Certification Funding Weight, 2018-2019 Cohort.....69

By certification weight, this table provides the percentage of Industry Certification Earner Graduates found employed or enrolled in postsecondary education

Table 14: Performance by CAPE Participation and Industry Certification Attainment, 2019-2020, Grades 9-12 Only70

This tables compares multiple populations across multiple performance measures for students in ninth through twelfth grade. The populations include Non-CAPE participants who did not earn an industry certification, CAPE participants who did not earn an industry certification, Non-CAPE participants who did earn a certification, CAPE participants who earned an industry certification, all high school students who earned an industry certification, and all high school students who did not earn an industry certification. The performance measures include average GPA, chronic absence, disciplinary actions, dropout rates, 12th graders earning standard diplomas, percentage of students enrolled in at least one accelerated course, and Bright Futures eligible seniors.

Table 15: Five-Year Trends in Career and Professional Participation Data72

This table provides a comparison over five years of various indicators including academies registered, career-themed courses registered, percentage of middle school students participating in CAPE, percentage of high school students participating in CAPE, CAPE participants earning industry certifications, certification pass rates, students earning CAPE digital tools, digital tool pass rates, number of students enrolled in CAPE Innovation courses, and the percent of students meeting all CAPE Innovation requirements.

Table 16: Return on Investment – Industry Certifications and College Credit74

By industry certification, provides a count of students who earned the industry certification, the potential college credits earned through articulation, and the potential value of the industry certification in terms of college credits obtained.

Appendix A: Characteristics of Schools with CAPE Participants, 2019-2020 A-1

By district and school, this table provides characteristics of schools with CAPE participation including school type, school membership, number of CAPE participants, the percent in a CAPE Academy or Career Themed Course, the number of students earning one or more certifications, and the percent of CAPE Participants earning one or more industry certifications.

Appendix B: Placement Rates of Industry Certification Earner High School Graduates by Certification, 2018-2019 Cohort, Sorted by Percent Found

Employed or Enrolled in Postsecondary Education B-1

By industry certification title, this table provides the certification weight, the number of industry certification earner graduates with valid SSNs, as well as the number and percent of those students found employed or enrolled in postsecondary education.

AT A GLANCE

The 2019-2020 academic year saw statewide participation in the Florida Career and Professional Education (CAPE) Act with all 67 county school districts as well as the Florida Virtual School (FLVS), Florida School for Deaf and Blind (FSDB), the Florida State University School (FSUS), and the Florida A&M University Laboratory School, registering career themed courses. Although professional academies have been de-emphasized with the introduction of career themed courses in 2012, they still remain a valuable tool in 51 of Florida's school districts as well as FSUS. This study found the following findings regarding enrollment patterns and student performance.

PARTICIPATION FINDINGS

- The most frequent career cluster represented by academies was Information Technology with 295 registered high school and middle school academies followed by the Arts, A/V Technology and Communication with 264.
- High school CAPE participants were most likely to be ninth graders and middle school CAPE participants were most likely to be eighth graders.
- The distribution of students by race and gender among CAPE participants was similar to that of non-academy students.
- 74,295 CAPE participants earned 88,756 certifications with a passing rate of 70.1 percent.
- 33,196 students earned 49,926 CAPE digital tools with a passing rate of 67.1 percent.

OUTCOMES RESULTS

- Middle school and high school CAPE participants had higher average Grade Point Averages (GPAs) than their non-CAPE counterparts.
- Middle school and high school CAPE participants were less likely to have been chronically absent than their non-CAPE counterparts.
- There was no clear pattern indicating that CAPE participants were more or less likely to have been subjected to disciplinary action than non-CAPE students.
- High school CAPE participants were less likely to have dropped out of school than non-CAPE students.
- CAPE and Non-CAPE students who earned a certification were significantly more likely to take Advanced Placement or dual enrollment courses than students who did not earn a certification.
- The earning of industry certifications is correlated with higher student performance among high school students.
- Academy students who graduate with an industry certification outperform the academy students who graduate without an industry certification, with a higher placement rate in employment or postsecondary education.

INTRODUCTION

According to section 1003.492(5), Florida Statutes (F.S.), the Florida Department of Education (FDOE) shall conduct an annual analysis of student participation and performance in industry certified secondary career and technical education programs authorized by the CAPE Act. Performance indicators for students enrolled in career and professional academies (also referred to as CAPE academies or simply academies in this report) and students enrolled in career-themed courses include, but are not limited to, graduation rates, retention rates, Florida Bright Futures Scholarship awards, additional educational attainment, employment records, earnings, industry certification, return on investment and employer satisfaction. The results of this study shall be submitted to the President of the Senate, the Speaker of the House of Representatives, and the Governor annually by December 31.

BACKGROUND

In 2007 the Florida Legislature passed the CAPE Act. The purpose of the act was to provide a statewide planning partnership between the business and education communities in order to attract, expand and retain targeted, high-value industry and to sustain a strong, knowledge-based economy. The objectives of the act are as follows:

- To improve middle and high school academic performance by providing rigorous and relevant curriculum opportunities;
- To provide rigorous and relevant career-themed courses that articulate to postsecondary-level coursework and lead to industry certification;

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

- To support local and regional economic development;
- To respond to Florida’s critical workforce needs; and
- To provide state residents with access to high-wage and high-demand careers.

To implement the legislation, the CAPE Act created statewide partnerships among the FDOE, the Florida Department of Economic Opportunity (FDEO) and CareerSource Florida. Section 1003.491(2), F.S., requires that each district school board develops a three-year strategic plan to address and meet local and regional workforce demands. This plan must be developed in collaboration with a district’s local workforce board and local postsecondary institutions. A required element in this plan was the provision for at least one operational career and professional academy per school district, pursuant to s. 1003.492(2), F.S., by the beginning of the 2008-2009 school year. Beginning with the 2012-2013 school year, the academy requirement was replaced with a requirement that each school district shall offer at least two career-themed courses.

CAREER AND PROFESSIONAL ACADEMIES AND CAREER-THEMED COURSES

Student participation in CAPE is identified through two academic activities: enrollment in a career and professional academy, enrollment in a career-themed course, or a combination of enrollment in an academy as well as career-themed courses. A career and professional academy is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs established by regional workforce boards or FDEO.

A career-themed course is a course or a course in a series of courses that leads to an industry certification on the CAPE Industry Certification Funding List.

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

A career-themed course is designed to have an industry specific curriculum aligned to priority workforce needs established by regional workforce boards or the FDEO.

According to s. 1003.493(4), F.S., each career and professional academy and secondary school providing a career-themed course must:

1. Provide a rigorous standards-based academic curriculum integrated with a career curriculum;
2. Include one or more partnerships with postsecondary institutions, businesses, industry, employers, economic development organizations or other appropriate partners from the local community;
3. Promote and provide opportunities for students to earn, at a minimum, the Florida Gold Seal Vocational Scholars award pursuant to s. 1009.536, F.S.;
4. Provide instruction in careers designated as high skill, high wage, and high demand by the regional workforce development board, the chamber of commerce, economic development agencies or the FDEO;
5. Deliver academic context through instruction relevant to the applicable career, including intensive reading and mathematics intervention;
6. Offer applied courses that combine academic content with technical skills; and
7. Provide instruction resulting in competency, certification or credentials in workplace skills.

Districts are required to annually register with FDOE their career and professional academies and career-themed courses that meet the requirements of s. 1003.493, F.S., during registration windows. Superintendents certify that each registered academy and career-themed course meet all of the requirements in statute.¹

¹ 6A-6.0573 (14), Florida Administrative Code

INDUSTRY CERTIFICATIONS

A key component of this act is its focus on industry certifications that are critical to Florida employers. Industry certification is defined in Florida Statutes as follows:

Industry certification as used in this section is a voluntary process through which students are assessed by an independent, third-party certifying entity using predetermined standards for knowledge, skills, and competencies, resulting in the award of a credential that is nationally recognized and must be at least one of the following: within an industry that addresses a critical local or statewide economic need; linked to an occupation that is included in the workforce system’s targeted occupation list; or linked to an occupation that is identified as emerging.²

The act required that FDOE “develop and adopt rules for implementing an industry certification process” as an essential element of implementing the new law. As of the 2014-2015 year, the process described in Rule 6A-6.0573, Florida Administrative Code (F.A.C.), includes two stages. In the first stage, CareerSource Florida produces a list of recommended industry certifications that ensure skill proficiency, address emerging labor market and industry needs, and are based on the highest available national standards. These recommendations are reviewed and approved by the CareerSource Florida board and must be annually published according to the requirements of s. 1003.492(2)(4), F.S. This list is published annually on March 1.

From this list of recommended industry certifications, FDOE develops the CAPE Industry Certification Funding List in the second stage of the process. This list is a subset of the CareerSource Florida Board recommendations and is based on the following criteria.

² Section 1003.492 (2), Florida Statutes

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

1. The certification must be achievable by students in a secondary level program.
2. The certification must require a minimum of 150 hours of instruction.

Additionally, the Florida Department of Agriculture and Consumer Services (DACS) may recommend industry certifications for farm occupations. For inclusion, the Department reviews and approves certifications which meet the criteria set forth in rule.

FUNDING INCENTIVES

For each student enrolled in a registered career-themed course who earns a certification on the CAPE Industry Certification Funding List, the district of instruction may earn add-on full-time equivalent (FTE) student membership for the following year's funding calculation in the Florida Education Finance Program (FEFP).³ Certifications earned through dual enrollment are not eligible for additional FTE. The following table provides a summary of the types of fundable certifications, certificates, and courses:

³ Section 1011.62(1)(o), Florida Statutes

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

Type of Certification/ Certificate/ Course	Description	Funding Weight
CAPE Digital Tool Certificates	These are assessments of digital skills in the following areas: word processing; spreadsheets; sound, motion, and color presentations; digital arts; cybersecurity. The certificates are available to students in elementary school and middle school grades.	0.025 FTE
CAPE Industry Certifications	These are industry certifications that either do not articulate for college credit or do articulate for up to 14 college credits based on a statewide articulation agreement. The certifications are available to students in grades six through 12.	0.1 FTE, OR
CAPE Acceleration Industry Certifications	These are industry certifications that articulate for 15 or more college credit credits based on a statewide articulation agreement. ⁴	0.5 FTE for certifications with 15-29 articulation credits, 1.0 FTE for certifications with 30 or more articulated credits
CAPE Innovation Courses	These courses combine academic and career performance outcomes with embedded industry certifications.	0.3 FTE

⁴ Gold standard articulation agreements are approved by the State Board of Education in Rule 6A-10.0401, F.A.C. A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) and College Credit Certificate (CCC) programs.

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

CAPE Industry Certifications and CAPE Acceleration Industry Certifications must be earned in career-themed courses to be eligible for funding. Funding for CAPE Digital Tool Certificates is not dependent upon enrollment in a career-themed course or academy. For CAPE Innovation Courses, funding is based upon successful completion of the industry certification exam and earning college credit from the academic exam (Advanced Placement for all courses implemented to date).

Elementary and middle school students are capped at 0.1 FTE per fiscal year for the CAPE additional FTE calculation. CAPE activity during the 2019-2020 year is funded based on the funding weights shown above and allocated during the 2020-21 FEFP.

The 2019-2020 FEFP calculation for add-on FTE for industry certifications was based upon 2018-2019 data reporting and funded based upon the funding categories and weights on the 2018-2019 CAPE Industry Certification Funding List. For this same year, students enrolled in career-themed courses who earned industry certifications generated 19,093.44 additional FTE in the K-12 funding formula. The estimated value of this FTE in the FEFP calculation is about \$81.7 million.

ACCOUNTABILITY

An accountability mechanism included in the act requires that the three-year strategic plan must be amended to include specific strategies to improve the passage rate if 50 percent of students taking industry certification exams in a career and professional academy or career-themed course do not pass the exam. The law was amended in 2012, striking requirements related to specific pass rates required to enroll new students in existing courses.

The Department adopts test administrative procedures in administrative rule

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

⁵for the implementation of the CAPE Act for the administration of written examinations associated with industry certifications. To report industry certifications, the following procedures must be followed for all written examinations:

- Exam is not proctored by the individual providing the direct instruction for the industry certification or certificate, except under extremely limited conditions.
 - » If only one individual is approved by the certifying agency as a proctor, the teacher may proctor the exams and must be independently monitored by a second individual who does not provide direct instruction for the industry certification content to the individuals taking the test(s).
- Exam questions are delivered in a secure manner and paper-based tests are not available to the proctor for an extended period of time.
- Exam is scored by certifying agency (cannot be scored by anyone at the district).
- Exam is administered in accordance with the certifying agency procedures.
- Exam must not have been administered more than three times during the academic year with a minimum of 20 days between test administrations.

MIDDLE SCHOOL ACADEMIES AND CAREER-THEMED COURSES

Current CAPE statutes require each school district to plan the development of at least one middle school CAPE academy or career-themed course.⁶ Middle school academies and career-themed courses must:

5 Rule 6A-6.0573, Florida Administrative Code

6 Section 1003.4935, Florida Statutes, introduced in 2012 requires the development of middle school participation in CAPE

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

1. Be aligned with at least one high school CAPE academy or career-themed course offered in the district and maintain partnerships with local business and industry and economic development boards;
2. Provide instruction in courses leading to careers in occupations designated as high skill, high demand and high wage;
3. Integrate content from core subjects;
4. Integrate career content with intensive reading and mathematics;
5. Maximize opportunities for students to earn high school credit;
6. Provide access to virtual instruction courses;
7. Provide instruction from teachers certified in the career subject matter;
8. Offer externships; and
9. Provide personalized student advisement.

CAPE DIGITAL TOOL CERTIFICATES

CAPE Digital Tools Certificates⁷, available to elementary and middle school students, S are eligible for an additional 0.025 full-time equivalency (FTE) membership in the FEFP. CAPE Digital Tool Certificates are described in s. 1003.4203, F.S., as “targeted skills to be mastered for the certificate include digital skills that are necessary to the student’s academic work and skills the student may need in future employment.” FDOE is responsible for identifying up to 30 CAPE Digital Tool Certificates for the CAPE Industry Certification Funding List in the areas of word processing; spreadsheets; sound, motion, and color presentations; digital arts; cyber security; and coding each academic year.

For the 2019-2020 CAPE Industry Certification Funding List, the State Board of Education approved 19 certificates, of which all were attempted and earned. These certificates are included in the 2020-2021 FEFP calculation.

⁷ Established in Sections 1003.4203 and 1008.44, Florida Statutes

CAPE INNOVATION COURSES

CAPE Innovation Courses⁸ are also authorized as a type of course which combines academic and career content with performance expectations that will result in college credit and industry certification attainment. According to the statutory framework, each approved CAPE Innovation Course must have at least two third-party assessments, one of which must be associated with an industry certification on the CAPE Industry Certification Funding List. These courses are eligible for an additional 0.3 FTE membership in the FEFP.

All CAPE Innovation Courses that are partnered with AP course content use the current College Board Advanced Placement (AP) course descriptions and require AP teachers to deliver a series of activities that emphasize applied learning of the AP content. The goal of this unique instructional approach is to prepare students for success on AP exams while learning new knowledge and skills associated with CAPE Industry Certifications. The following table lists the 2019-2020 CAPE Innovation Courses and performance expectations.

CAPE Innovation Course	Academic Performance Expectation	Associated CAPE Certification
AP Microeconomics Innovation	"3" or higher on the AP exam	Microsoft Office Specialist for Excel (2013 or later)
AP English Language and Composition Innovation	"3" or higher on the AP exam	Microsoft Office Specialist for Word (2013 or later)
AP Studio Art 2-D Design Portfolio Innovation	"3" or higher on the AP exam	Adobe Certified Associate for Adobe Photoshop (Creative Cloud 2015 or later)
AP Computer Science A Innovation	"3" or higher on the AP exam	CIW Javascript Specialist certification

8 Established in Sections 1003.4203 and 1008.44, Florida Statutes

SCOPE

For the purposes of this report, CAPE participants include:

- Students enrolled exclusively in an academy
- Students enrolled exclusively in a career-themed course
- Students enrolled in an academy and a career-themed course

Beginning with the 2013-2014 year, only students enrolled in career-themed courses are eligible for add-on FTE student membership for certifications earned. For this reason, in the majority of instances, students are found enrolled in at least one career-themed course. This analysis addresses the following questions.

1. How many career and professional academies and career-themed courses are there, and where are they located?
2. What are the characteristics of CAPE participants?
3. How many and what type of industry certifications have CAPE participants earned?
4. How did CAPE participants perform academically compared to other students?
5. What were the postsecondary and employment placement outcomes for CAPE participant graduates?

METHOD

Data were extracted from FDOE Student Information System for academic year 2019-2020 (Survey five as of November 8, 2020).⁹ Data on career and professional academy characteristics are from FDOE academy registration database. Data on employment and postsecondary enrollment were obtained from the Florida Education and Training Placement Information Program (FETPIP). For the purposes of this report, a CAPE participant is a student who was enrolled in a registered career-themed course or an academy. Students reported earning only CAPE Digital Tool Certificates were not included as CAPE participants.

FINDINGS

Profile of Career and Professional Academies and Career-themed Courses

In academic year 2019-2020, 1,706 high school career and professional academies were registered in Florida, and 1,246 (73 percent) of these academies reported student enrollments. In 2019-2020, there were 301 registered middle school academies, and 149 (49 percent) of these academies reported student enrollments. All but 16 of Florida's 67 school districts registered at least one career and professional academy with FDOE. The five districts with the most registered academies (high school and middle school) were Miami-Dade (358), Broward (234), Hillsborough (169), Palm Beach (104)

⁹ Career and professional academy students were identified using the Career and Professional Academy Identifier data element (#107775). Career-themed courses were identified using Appendix FF.

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

and Polk (104).

In academic year 2019-2020, 1,158 unique career-themed courses were registered in Florida. All of Florida’s 67 school districts registered at least one career-themed course with FDOE and there were 445,331 students who were enrolled in at least one career-themed course. The five districts with the most registered courses (which can include duplicate courses at multiple schools) were Broward (443), Miami-Dade (395), Escambia (292), Palm Beach (263), and Lee (259). Tables 1a and 1c show the distribution trend of Florida’s registered career and professional academies and career-themed courses and enrollment by school district.

Table 1a

CAPE Participants¹⁰ in Registered Career and Professional Academies and Career-themed Courses by School District, 2019-2020¹¹

School District	Number of Registered Career-themed Courses ¹²	Middle School (Gr. 6-8) Career-themed Course Participants ¹³	High School (Gr. 9-12) Career-themed Course Participants ¹⁰	Number of Middle School Academies Registered	Number of High School Academies Registered	Middle School (Gr. 6-8) Academy Participants ¹⁴	High School (Gr. 9-12) Academy Participants ¹¹	Middle School (Gr. 6-8) CAPE Participants ¹⁵	High School (Gr. 9-12) CAPE Participants ¹²
Alachua	79	907	2,386	0	5	0	705	908	2,772
Baker	52	109	1,263	0	10	0	1,166	109	1,292

10 Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

11 Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

12 Unduplicated count of registered courses by district. Courses were reported at the school of instruction level. If the same course was registered at more than one school in a district, it was only included once.

13 Unduplicated count of students enrolled in at least one career-themed course. If the district of instruction and the district of enrollment were different, students are reported in their district of enrollment.

14 Unduplicated count of students enrolled in at least one registered academy

15 Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the student and district. Students are counted more than once if they are reported in more than one district during the academic year.

ACADEMY CURRICULUM

The curricular foci of registered academies fall under specific career clusters. A career cluster is a broad group of related occupations based on commonalities in knowledge and skills required to perform job tasks. The most frequent career cluster represented by academies registered in academic year 2019-2020 was Information Technology with 205 high school and 90 middle school academies (see Table 2). The second most frequent cluster represented was Arts, A/V technology, and Communication with 240 high school and 24 middle school registered academies.

In academic year 2019-2020, there were 404,182 CAPE participants in grades 9-12, representing 44.3 percent of the entire high school population.²¹ There were 87,441 CAPE participants in grades 6-8 representing 12.2 percent of the middle school population. The distribution of high school CAPE participants was relatively similar among all grade levels with the highest population in ninth grade. Compared with high school participants, middle school CAPE participants represented 17.8 percent of the overall CAPE participants with the highest enrollment in eighth grade (see Table 3).

²¹ Based on data from the FDOE Student Information System as of November 8, 2020.

Demographic Profile

Table 4 shows that the distribution of CAPE participants (high school and middle school) by race/ethnicity and gender categories was similar to that of non-CAPE participants. Among CAPE participants, more were male (53.6 percent) than female (46.4 percent). Approximately 41 percent of CAPE participants were White, and the largest minority populations were Hispanic (32.2 percent) and Black (20.3 percent). Compared to CAPE participants, a lower percentage of non-CAPE participants were White (36.0 percent), and a higher percentage were Hispanic (35.1 percent) and Black (22.2 percent).

²³ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

PERFORMANCE

This section examines the performance of students enrolled in career and professional academies and career-themed courses. The indicators addressed include the following:

1. The number and percentage of CAPE participants obtaining industry certifications;
2. Cumulative grade point average of CAPE and non-CAPE participants;

²⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²⁵ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

3. Student engagement indicators of CAPE and non-CAPE participants, including chronic absenteeism, disciplinary actions and dropout rates; and
4. Postsecondary readiness as indicated by the percentage of CAPE and non-CAPE participation in Advanced Placement and dual enrollment courses and eligibility for Florida Bright Futures Scholarships.²⁶

Performance levels on these indicators are reported at the aggregate state-level, summing up all CAPE and non-CAPE participants statewide. Performance levels for schools with CAPE participants can be found in Appendix B.

INDUSTRY CERTIFICATION

Among the 491,623 CAPE participants, a total of 122,118 industry certifications on the CAPE Industry Certification Funding List were attempted in 2019-2020, of which 85,657 were earned, resulting in a pass rate of 70.1 percent. The CAPE Industry Certification Funding List contains 298 different certifications, with at least one CAPE participant attempting 180 of the listed industry certifications. The top three were Adobe Certified Associate (Photoshop), Microsoft Office Specialist (MOS) Bundle, and Certified Internet Web (CIW) Internet Business Associate (see Table 5a).

Among the 122,118 certification attempts by CAPE participants, industry certifications with an FEFP funding weight of 0.1 were most commonly attempted representing 56.2 percent of attempts. These were followed by funding weight-level 0.2, which represented 43.7 percent of all certification attempts by CAPE participants. CAPE industry certifications with a 0.2 FTE funding weight are those certifications which articulate for up to 14 college credits based on statewide articulation agreements.

²⁶ Data was not available at the time this report was published.

CAPE Digital Tool Certificates may be earned by elementary and middle school students. There were 74,360 digital tool attempts in 2019-2020 of which 49,926 were earned, resulting in a pass rate of 67.1 percent. Unlike industry certifications, funding weights for Digital Tool Certificates are set at 0.025 for all certificates.

The higher the grade level of CAPE participants, the greater the number of industry certifications earned. The largest percentage of certifications (46.5

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

percent) were earned by 11th and 12th grade students. About 25.0 percent of industry certifications earned by CAPE participants were awarded to 12th graders (see Table 6a). Among 9th graders, 18,352, certifications were earned, representing 21.4 percent of total certifications reported. The progression in the number of certifications as grade level increases is expected given the time and training required to earn industry certifications.

Table 6a

Industry Certifications Earned by Grade Level of CAPE Participants²⁸, 2019-2020

Grade Level	CAPE Industry Certifications Earned	CAPE Acceleration Industry Certifications Earned	Total CAPE Certifications Earned	Percent

Source: FDOE Student Information System

Table 7a shows the distribution of earned certifications by school district. Palm Beach district reported the highest number of reported certifications with 9,983, which represented 11.7 percent of all certifications reported in the state for CAPE participants. Second highest was Miami-Dade with 6,968 certifications, or 8.1 percent; followed by Hillsborough with 6,913 certifications, or 8.1 percent. The 85,657 industry certifications earned by CAPE participants represent 96.5 percent of the 88,756 certifications earned in 2019-20. Non-CAPE participants earned 3,099 industry certifications representing 3.5 percent of the total number of certifications earned.

²⁹ Totals do not match due to error in reporting.

CAPE PARTICIPANT SECONDARY ENGAGEMENT

GRADE POINT AVERAGE (GPA)

Middle school CAPE participants in 2019-2020 had a higher average cumulative GPA compared to the non-CAPE middle school population (see Table 8). High school CAPE participants had a higher average GPA than non-CAPE participants across all grade levels nine through 12.

Table 8

Average Cumulative Grade Point Average of CAPE Participants³¹ and Non-CAPE Participants³² by Grade Level, 2019-2020

School Level	Grade Level	CAPE Participants: GPA	Non-CAPE Participants: GPA
Middle School	6	3.07	2.96
	7	3.15	3.08
	8	3.13	2.99

31 Includes students enrolled in either a registered academy or career-themed course, unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

32 Includes students not reported enrolled in a registered academy or career-themed course, unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

School Level	Grade Level	CAPE Participants: GPA	Non-CAPE Participants: GPA
High School	9	2.82	2.78
	10	2.82	2.75
	11	2.89	2.82
	12	2.94	2.94
	All Grades	2.82	2.88

STUDENT ENGAGEMENT

Career and professional academies and career-themed courses were conceived as a way to offer a relevant curriculum to students. Student engagement can be measured through rates of absenteeism, disciplinary actions, graduation and dropping out of school. Middle school CAPE participants were less likely to be chronically absent than non-CAPE middle school participants (see Table 9).³³ Among high school students chronic absenteeism was less prevalent than among non-CAPE participants across grades nine through 12.

³³ Chronically absent is defined as 21 or more unexcused absences for the academic year.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

Table 9

Percentage of CAPE Participants³⁴ and Non-CAPE Participants³⁵ Chronically Absent by Grade Level, 2019-2020

School Level	Grade Level	CAPE Participants: Chronically Absent	Non-CAPE Participants: Chronically Absent
Middle School	6	5.9%	6.7%
	7	6.5%	8.0%
	8	7.0%	9.3%
High School	9	9.3%	11.0%
	10	11.5%	13.0%
	11	12.5%	14.8%
	12	17.9%	21.0%

Source: FDOE Student Information System

There is no consistent pattern when comparing the incidence of disciplinary actions between CAPE participants and non-CAPE students across grade levels.

³⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁵ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

Table 10

Percentage of CAPE Participants³⁶ and Non-CAPE Participants³⁷ with Reported Disciplinary Actions by Grade Level, 2019-2020

Middle School	6	13.2%	11.8%
	7	14.1%	12.6%
	8	11.9%	12.9%
High School	9	12.9%	11.8%
	10	11.6%	11.7%
	11	9.5%	9.3%
	12	8.2%	6.6%

Source: FDOE Student Information System

CAPE participants were less likely to drop out than non-CAPE students, and CAPE participating seniors were more likely to graduate with a standard diploma than non-CAPE seniors. Among CAPE participating twelfth graders, 88.3 percent graduated with a standard diploma compared to 73.2 percent among non-CAPE twelfth graders. The one-year dropout rate for academy students in grades 9-12 (0.5 percent) was 1.3 percentage points lower than that of non-CAPE students (see Table 11) and was lower across all grade levels.

³⁶ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁷ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

Table 11

Percentage of CAPE Participants³⁸ and Non-CAPE Participants³⁹ Who Dropped Out by Grade Level, 2019-2020

³⁸ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁹ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAPE PARTICIPANT OUTCOMES

POSTSECONDARY READINESS AND EMPLOYMENT

An important goal of the CAPE Act is to prepare students for postsecondary education by making them ready for the academic and technical work and giving them opportunities to earn postsecondary credit while in high school. An indicator of postsecondary readiness is enrollment in accelerated courses (i.e., Advanced Placement, dual enrollment, International Baccalaureate, and Advanced International Certificate of Education courses). Among CAPE participating high school students, 40.0 percent took one or more accelerated courses during the 2019-2020 academic year. In comparison, the percentage for non-CAPE participant high school students was 38.4 percent.

Another indicator of readiness for success in postsecondary education is eligibility for the Florida Bright Futures Scholarship. The eligibility rates for 2018-2019 graduates are examined in table 14, as 2019-2020 data were not available at the time this report was published.

POST-GRADUATION OUTCOMES

Placement data for the 2014-2015, 2015-2016, 2016-2017, 2017-2018, and 2018-2019 graduate cohorts of CAPE participants and industry certification earners was available. These cohorts indicate that graduates who were CAPE participants and earned industry certifications were more likely to have been placed than the average CAPE participant graduate (see Table 12).⁴⁰

⁴⁰ The outcome data have limitations. Regarding employment data, graduates employed outside the state of Florida would not be found unless they are in the military or working for the federal government. Some types of workers, e.g. self-employed, are not in the database. No

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

Because industry certification earners appear in the CAPE participant cohort and vice versa, firm conclusions cannot be drawn through this analysis alone, but the data do suggest that CAPE participation and, more clearly, industry certification, are correlated with and possibly influence positive post-graduation placement. Data for all high school graduates were not available at the time this report was published.

Table 12

Placement Rates of Various Cohorts of CAPE Participants⁴¹ and Industry Certification Earner Graduates Compared to All High School Graduates

Year	High School Graduate Cohort	Found Employed or Enrolled in Postsecondary Education				
		Fall 2014	Fall 2015	Fall 2016	Fall 2017	Fall 2018
2013-2014	All High School Graduates	80.5%	80.2%	78.3%	76.1%	Not Available
	CAPE Academy, No Certification	81.5%	80.8%	78.7%	76.4%	72.9%
	Academy with Industry Certification	84.2%	83.6%	81.6%	79.6%	75.6%
	CTC, No Certification	80.0%	79.6%	77.8%	75.7%	72.2%
	CTC with Certification	83.6%	83.2%	81.2%	79.1%	75.2%

assumptions can be made regarding occupation or wages. Regarding postsecondary placement, graduates enrolled outside the state would not be found.

⁴¹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Data on average earnings over time of high school graduates indicate that industry certification may be correlated with higher earnings than those of the overall high school population. Figure 2 below shows the average estimated earnings (based on one quarter of data) of 2012-2013 high school graduates found employed and earning a total dollar amount greater than the equivalent

CAREER AND PROFESSIONAL EDUCATION ACT

Enrollment And Performance Report: Program Year 2019-2020

of working 40 hours a week, for the full quarter earning the minimum wage. While academy and industry certification graduates initially earned less, on average, than the general high school population, by the third year industry certification earners surpassed the overall average.

Figure 2

Average Estimated Annual Fulltime Earnings of CAPE Participants⁴², Industry Certification Earners, and All High School Graduates, 2012-2013 Cohort⁴³

Sources: FDOE Student Information System and Florida Education & Training Placement Information System

Placement rates for 2018-2019 graduates who had earned at least one industry certification are shown by certification earned in Table 13 below. This table

42 Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

43 Data for the 2018 All High School Graduates follow-up was not available at the time this report was published.

includes all graduates who earned certifications regardless of whether they were a CAPE participant. The attached Appendix B includes a detailed table showing placement rates by the identified industry certification.

Table 13

Placement Rates of Industry Certification Earner High School Graduates by Certification Funding Weight, 2017-2018 Cohort

COMPARISON OF CAPE PARTICIPANTS TO INDUSTRY CERTIFICATION EARNERS

In Table 14 below, CAPE participants and their comparison group peers are disaggregated by industry certification attainment to isolate the characteristics of CAPE participants and industry certification earners independently. The table includes high school students only because four of the indicators are not

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

relevant for middle school students (dropout, graduation, acceleration, and Bright Futures eligibility). The table shows a general trend that, as one moves from the leftmost column (non-CAPE student without certification) to the rightmost column (CAPE student with certification), the performance indicators tend to improve with few exceptions. Both CAPE participants and non-CAPE students who earn certifications performed at a higher level than their non-certified peers.

Table 14

Performance by CAPE Participation⁴⁴ and Industry Certification Attainment, 2019-2020, Grades 9-12 Only

Performance Indicator	Non-CAPE, No Certification	CAPE, No Certification	Non-CAPE + Certification	CAPE + Certification	All High School Students + Certification	All High School Students, No Certification

FIVE-YEAR TRENDS

The number of registered career and professional academies grew from 1,567 in 2011-2012 to 2,004 in 2019-2020 (see Table 15). In that same time period, the percentage of Florida high school students enrolled in career and professional academies and career-themed courses grew from 21.5 percent to 44.3 percent. The number of CAPE participants earning industry certifications grew from 28,533 in 2011-2012 to 85,611 in 2019-2020. As CAPE participation increased, the pass rate of academy students taking certification exams dropped from 84.3 percent in 2011-12 to 70.1 percent in 2019-2020. Note: The COVID-19 pandemic resulted in the closing of school districts and testing centers during

⁴⁵ Data was not available for 2019-2020 graduates at the time this report was published. 2018-2019 graduates are presented here.

CAREER AND PROFESSIONAL EDUCATION ACT
Enrollment And Performance Report: Program Year 2019-2020

a time period when a large number of industry certification assessments would have been attempted resulting in a drop in industry certifications earned to the lowest levels since before 2016-2017.

Table 15

Five-Year Trends in Career and Professional Participation⁴⁶ Data

Indicator	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020

RETURN ON INVESTMENT

As of the 2019-2020 year, there were 127 industry certifications with State Board Approved Gold Standard Articulation Agreements of which 117 appear on the 2019-2020 CAPE Industry Certification Funding List.⁴⁸ A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) programs. For the certifications on the current CAPE Industry Certification Funding List, the available articulated credit ranged from one credit hour to 36 depending on the industry certification and the degree program to which it articulated. The majority of certifications articulated to three credit hours. 30 of the certifications on the funding list had more than one articulation agreement. Students who earned one of these would have the option of receiving articulated credit in more than one degree program. In 2019-2020 CAPE participants earned 35,914 industry certifications with at least one articulation agreement. Four of the industry certifications earned, Certified Food Safety Manager, NIMS Maching Level 1 – CNC Milling, MSSC Certified Production Technician, and COMPTIA

⁴⁷ CAPE Innovation courses require completion of academic performance expectations (such as passing an AP exam with a designated score) as well as earn an industry certification on the CAPE funding list. See pages 8 and 9 for further details

⁴⁸ Includes articulation agreements for industry certifications that are no longer available from the certifying agency.

A+ articulated to more than one program. Table 16 shows the potential value of the college credit obtained through earning each certification with an agreement.

Table 16

Return on Investment- Industry Certifications and College Credit

Certification Title	Number of Certifications Earned	Potential College Credit Through Articulation	Value of College Credit Obtained through Articulation⁴⁹
Microsoft Office Specialist (MOS) Bundle Certification (3 of 6: Access, Excel, Outlook, PowerPoint, SharePoint, Word)	12,671	3	\$215.94
Certified Food Protection Manager (ServSafe®)	4,681	3	\$215.94

50 For certifications with multiple articulation agreements resulting in multiple potential

CONCLUSION

In the 12th year of implementation, the number of career and professional academies, career-themed courses and students enrolled in CAPE courses continues to grow across the state. CAPE participants on average performed better than non-CAPE students on most indicators, and students with industry certifications clearly performed better on all the indicators in this report than non-certified students. Placement data of CAPE participant and industry certification earner graduates indicate that CAPE participant graduates were slightly more likely to be found employed or in postsecondary education and were earning, on average, about the same as the average high school graduate. Graduates earning industry certifications showed consistently higher performance in their placement rate and earnings over time.

Despite the COVID-19 pandemic effect on student opportunities to attempt an industry certification assessment during the 2019-2020 school year. A very interesting finding is that CAPE participants, especially those that attempted an industry certification, still maintained consistent performance rates above their non-CAPE counterparts.

college credit amounts, the lowest potential college credit was used to calculate the estimated total value of college credit.

APPENDIX B

Placement Rates of Industry Certification Earner High School Graduates by Certification, 2018-2019 Cohort, Sorted by Number of Industry Certification Earning Graduates with Valid SSN¹

Certification Title	Certification Weight	Industry Certification Earner Graduates with Valid SSN ²	Number Found Employed or Enrolled in Postsecondary, Fall 2019	Percent Found Employed or Enrolled in Postsecondary, Fall 2019
Microsoft Office Specialist (MOS) Bundle Certification (3 of 6)	0.2	8,687	7,243	83.38%
Adobe Certified Associate (ACA) - Photoshop (Creative Cloud 2015 or later)	0.1	7,009	5,777	82.42%
Certified Food Protection Manager (ServSafe®)	0.2	3,850	3,170	82.34%
Adobe Certified Associate (ACA) - Illustrator	0.1	3,677	3,035	82.54%
Certified Internet Web (CIW) Internet Business Associate	0.1	3,318	2,741	82.61%
Adobe Certified Associate (ACA) - Premiere Pro	0.1	2,718	2,255	82.97%
Adobe Certified Associate (ACA) - InDesign	0.1	2,572	2,148	83.51%
Adobe Certified Associate (ACA) - Dreamweaver	0.2	2,542	2,075	81.63%
Certified Medical Administrative Assistant (CMAA)	0.1	1,857	1,650	88.85%
Autodesk Certified User - Inventor	0.2	1,480	1,242	83.92%
Certified EKG Technician (CET)	0.1	1,436	1,297	90.32%
Certified Nursing Assistant (CNA)	0.1	1,391	1,254	90.15%
Agriculture Associate Certification	0.2	1,067	829	77.69%
Adobe Certified Associate (ACA) - Flash/Animate	0.2	1,017	819	80.53%
Quickbooks Certified User	0.2	897	771	85.95%

1 Certifications with less than ten graduates with valid SSNs are indicated with an asterisk (*) accompanied by the percentage found employed or enrolled in postsecondary education.

2 Industry certification graduates who earned more than one certification are included for each certification earned.

Certification Title	Certification Weight	Industry Certification Earner Graduates with Valid SSN²	Number Found Employed or Enrolled in Postsecondary, Fall 2019	Percent Found Employed or Enrolled in Postsecondary, Fall 2019
Emergency Medical Responder	0.1	889	802	90.21%
