---

## By the Numbers

**85** – Number of charter school applications districts received last year

**32** – Number of applications districts approved

**38 percent** – Average approval rate of applications submitted

**47** – Number of applications to five counties alone: Palm Beach (14); Miami-Dade (10); Broward (8); Hillsborough (8); and Orange (7).

**46** – Number of applications withdrawn from consideration before a local school board could make a decision at a publicly noticed meeting

**1** – Number of virtual charter school applications submitted; it was later withdrawn from consideration

## 2018 Authorizer Report

Published November 1, 2019 (for data reported by Florida charter school authorizers from the prior year)

*Office of Independent Education and Parental Choice  
Florida Department of Education*

### Summary

School districts throughout Florida received 85 charter school applications last year, a slight increase from the number of applications submitted in 2017. This represents a reversal of a steady decline in charter applications submitted to districts – a decline that first began around 2013.

The rate at which district charter authorizers approved these newer applications was around 38 percent. That rate of approval has remained steady over the last few application cycles. For the past three years, a little more than a third of all charter applications submitted to local school district were approved.

As with previous years, this statewide average masks a wide variation in approval rates between districts. Specific findings are referenced below. However, as with all districts, applications not approved were either denied by their local school board during a publicly noticed meeting, or were withdrawn from consideration before the school board acted.

### Key Findings

***The biggest still account for the most.*** More than half of the 85 charter applications statewide were submitted to five of Florida’s largest districts – Palm Beach (14 applications); Miami-Dade (10); Broward (8); Hillsborough (8); and Orange (7).

***Statewide approval rate was identical to 2017’s rate:*** About 38 percent of all charter applications were approved by local school districts. A little more than half of all charter applications were withdrawn by applicants

before their local school board could make a decision at a publicly noticed meeting. The rest (about 8 percent) were outright denied by local school boards.

***Approval rates vary widely between districts:*** The 38-percent approval rate statewide masks wide variation between district authorizers. In Miami-Dade County, for instance, the district approved 22 percent of the 10 applications it received, while Palm Beach County approved just 9 percent of the 14 it received.

## **Authorizer development and accountability**

The State of Florida continued to provide school districts professional development through the support of the federal Charter Schools Program initiative (CSP). In 2016, the Department was competitively awarded a \$71 million grant from the CSP due, in part, to its proposals to enhance charter school authorizing and accountability. Notably, during the past year, the Department undertook the following two major initiatives to aid charter school authorizing in Florida:

***Florida Leaders in Authorizing:*** This fellowship program provided select, high-potential leaders among Florida's authorizers an opportunity to strengthen and hone their skills. Participants had the chance to build their capacity by visiting four of the top charter school authorizers in their nation. Two fellows were chosen (from Hillsborough and Miami-Dade counties) and visited and observed the best practices at the following authorizers:

- The D.C. Public Charter School Board
- The State University of New York Charter School Institute
- The Massachusetts Department of Education
- Denver Public Schools

The fellows have been disseminating their lessons learned with their colleagues throughout Florida.

***Targeted training and support.*** Through a partnership with the National Association of Charter School Authorizers (NACSA) the Department has undertaken a series of trainings for authorizers that dive deeply into [\*the Florida Principles and Standards of Quality Charter School Authorizing.\*](#)

## **About this report**

This report satisfies the requirements set forth in Section 1002.33(5)(b)1.k.(III), Florida Statutes. This provision in the charter school law requires charter authorizers to report the number of applications they received the prior year and whether they approved or denied those applications, or whether any applicants withdrew. Further, the charter school law requires the Department to report the results of a survey it administered to charter schools. This survey asked schools to rate the timeliness and quality of services provided by their local school districts. Lastly, districts are required to report to the Department, by September 15 of each year, the total amount of funding withheld from charter schools in administrative fees. Those aggregate fees are featured on the final page of this report.

Q4

<p align="center"><b>SAMPLING OF COMMENTS</b>  regarding the timeliness and quality  of the services provided by the district.</p>		
<p>The district does not provide background testing in a timely fashion.</p>	<p>The finger printing process takes too long when we need teachers in the classroom as soon as possible. They require board members to do finger printing in our county (Dade) despite being cleared in other counties thus marking us out of compliance when the board member cannot come to Dade from Hillsborough, for example, to do finger prints.</p>	
<p>Reimbursements are not always timely. Our monthly FEFP is always on time and so is our Capital Outlay check.</p>	<p>All extracurricular activities are not open to charters.</p>	<p align="center"><b>EXCELLENT</b></p>
<p align="center"><b>MANAGEABLE</b></p>	<p>Review of Charter renewal took a few months due to district lacking a staff attorney apparently. Approved in September, initially submitted in May.</p>	<p>It takes an incredibly long amount of time to get results from fingerprints.</p>
<p>It would be nice if our employees did not have to go to the District offices to be re-fingerprinted every 5 years. Since the District automatically just runs the prints for their employees when they are about to expire, it would be nice if they would do the same for us. If the prints need to be paid for, the District can send us an invoice.</p>		<p align="center"><b>SATISFIED</b></p> <p>We have had some students be successful participating at their local schools while other families feel that they get push back.</p>
<p align="center"><b>TIMELINES ARE FINE</b></p>	<p>We still need to be able to retrieve data in a more feasible process.</p>	<p align="center"><b>Needs Improvement</b></p>

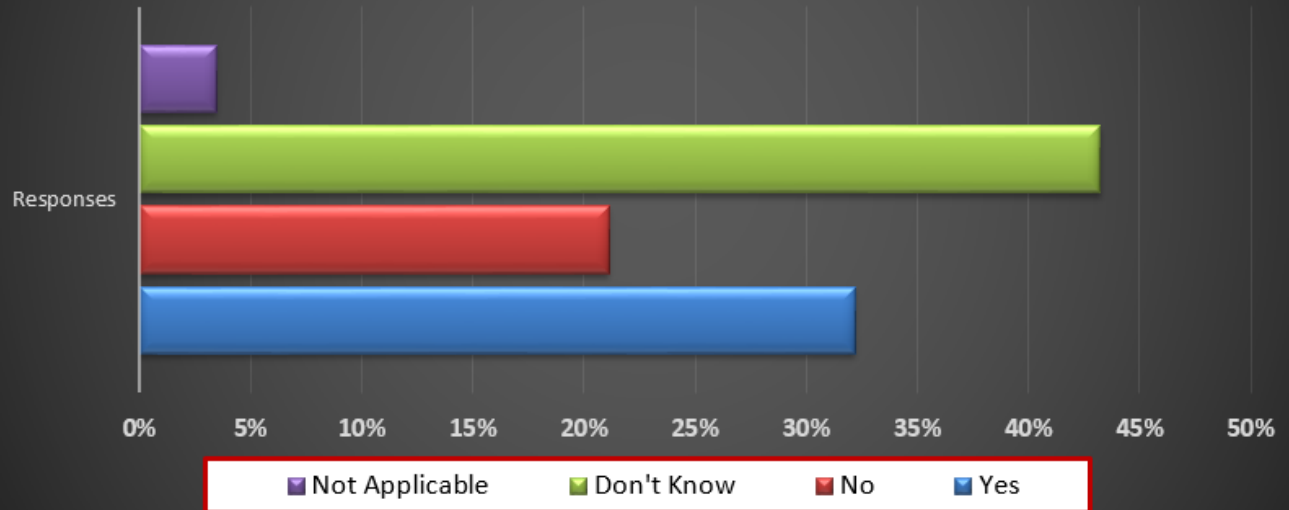

<p>Fingerprinting services takes very long, upwards of a month.</p>	<p>Background screening takes a very long time to get results.</p>	<p>VERY SATISFIED</p>

Q8

Q9

If your school operated for the 2018-19 school year, did the district provide your school with a year-end accounting of the total administrative fee (5% or 2%) withheld by the school district, pursuant to Section 1002.33(20), Florida Statutes?

District	How many years has your charter school been in operation?	Full-time equivalent and data reporting services	Exceptional student education administration services	Services related to eligibility and reporting duties related to the National School Lunch Program	Test administration services	Processing of teacher certificate data services	Providing equal access to student information systems that are used by public schools in the district	Providing student performance data for each student in the charter school in the same manner provided to other public schools in the district	If goods and services are made available to the charter school through the contract with the school district, they are provided to the charter school at a rate no greater than the district's actual cost unless mutually agreed upon by the charter school and the sponsor in a contract negotiated separately from the charter	To maximize the use of state funds, the district allows the charter school to participate in the sponsor's bulk purchasing program if applicable
