

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

Yearly, the School Board avails itself of a number of different tools to address class size reduction planning requirements. Most salient among them are: the yearly attendance boundary process which is used to ascertain whether any schools should be reviewed for possible boundary adjustments as a means to balance the need for student stations (see attendance boundary plan developed in 09-10 for implementation in 10-11 and Attendance Boundary Process information, respectively at http://schooloperations.dadeschools.net/pdfs/abc_final_11-12.pdf, and <http://schooloperations.dadeschools.net/abc.asp>); implementation of magnet programs in under enrolled areas of the district or different grade configurations as a means to promote enrollment without the need for new facilities; and the yearly process of reviewing, processing and approving charter school applications, which has had the effect of increasing choices available to parents and students (see <http://charterschools.dadeschools.net/> for process, timelines and activities).

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

Presently, there is no Board approved plan in place for school closures.
