

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The District has sufficient permanent stations to meet its needs through 2014. The only district need is to replace the current High School and Middle School with a combined Middle/High School, which have significant safety issues. Some of which cannot be corrected and the balance are not economically feasible to correct.

School Closure Planning

After Construction of the New Dixie County Middle High School, The current Dixie High School and Ruth Raines Middle School will be converted to other local use except for the Athletic Facilities. The Current Ruth Rains Middle School will become an Elementary School, The Current Anderson Elementary will be converted to District Administration and PK
