

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

Offsite infrastructure requirements vary from site to site based on the scope of work utilization of land, site requirements and accessibility. Zoning verification is reviewed along with concurrency applications and an environmental condition assessment is completed. Site drainage, stormwater requirements and impact to adjacent properties and pedestrian access is also reviewed. All of these factors can affect offsite infrastructure requirements. In most cases, water and sewer lines, electrical power lines, telephone service and traffic lanes are extended. In some cases, new roads and/or de-acceleration lanes are built.

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

New K-8 @ AAA site in the Southside of the District to accommodate growth

Consistent with Comp Plan? Yes

Net New Classrooms

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

List the net new classrooms added in the 2010 - 2011 fiscal year.					List the net new classrooms to be added in the 2011 - 2012 fiscal year.			
"Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment.					Totals for fiscal year 2011 - 2012 should match totals in Section 15A.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Duval County School Board is exploring several possible solutions for the deduction of permanent student stations.

1. Magnet Schools: The magnet program began in 1991 and offers approximately 84 programs with over 22,000 enrolled students at various schools. Dedicated Magnet Schools in underutilized areas help reduce the need for permanent student stations in the over utilized areas.
2. Charter Schools: The District reviews new charter applications annually to help reduce the need for the District to provide permanent capacity.
3. Boundary Changes: the District considers boundary changes to reduce overcrowding and utilize available seats in other locations on a regular basis. Consideration is given to this option every year following the official 20 day enrollment count.
4. Portable Relocation: The District reviews the current location of portables in relation to the school utilization. Satisfactory portables are moved from under utilized to over utilized schools.
5. A Community Engegement process called ACE (Academic and Community Excellence) to involve stakeholders to help the District form long range facilities plans to include consolidations, boundary changes and facility conditions to balance enrollment throughout the District.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

There are no plans for school closure at this time. Please refer to the Class Size Reduction Planning above for closure planning. There is a School Board Policy in place for the disposition of any closed facilities.
