

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

- If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
- If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
- If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Duval County School Board is exploring several possible solutions for the deduction of permanent student stations.

1. Magnet Schools: The magnet program began in 1991 and offers approximately 84 programs with over 22,000 enrolled students at various schools. Dedicated Magnet Schools in underutilized areas help reduce the need for permanent student stations in the over utilized areas.
2. Charter Schools: The District reviews new charter applications annually to help reduce the need for the District to provide permanent capacity.
3. Boundary Changes: the District considers boundary changes to reduce overcrowding and utilize available seats in other locations on a regular basis. Consideration is given to this option every year following the official 20 day enrollment count.
4. Portable Relocation: The District reviews the current location of portables in relation to the school utilization. Satisfactory portables are moved from under utilized to over utilized schools.
5. A Community Engagement process called ACE (Academic and Community Excellence) to involve stakeholders to help the District form long range facilities plans to include consolidations, boundary changes and facility conditions to balance enrollment throughout the District.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

The District closed Lake Forest Elementary No. 74 at the end of the 2019 school year and will be converting Northwestern Middle No. 155 to an elementary school. Please refer to the Class Size Reduction Planning above for closure planning. There is a School Board Policy in place for the disposition of any closed facilities. The School Board has approved a Districtwide Master Plan, however without a funding source, the plan may be reduced in scope.
