

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Franklin County Schools facility reduces the need for permanent student stations over the next five years. This facility will contain 1,132 student stations. That is in excess of the official forecasted COFTE of 1046.

School Closure Planning**Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.**

The H.G. Brown facility is in use as the campus for VPre-K program, Franklin Learning Center, Adult Education and Administrative offices. It is possible that this site either completely or partially may be vacated should the district be able to fund and construct new buildings for these departments. Upon construction of a new bus maintenance facility, the current facility located on the old Apalachicola High School site may possibly be vacated and sold. Expected revenues from the sale of either site will be nominal.
