

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

- If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
- If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
- If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The School District of Jefferson has sufficient student stations to implement the Constitutional requirements for class size throughout the planning period.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

There is a possibility that the District will merge its Elementary and Middle/High school students onto one site at David Road Monticello and close its existing elementary school.

Combination schools are included with the middle schools for student stations, capacity, COFTE and utilization purposes because these facilities all have a 90% utilization factor. Use this space to explain or define the grade groupings for combination schools.

The consolidation of district school eliminated 779 student stations at the elementary school, and only eight portable classrooms were added to the existing middle high school. Current enrollment is 776 students, which is at capacity for the facility. There are no other school sites for use that do not require new construction or renovation.

Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 06 thru 10 out years (Section 28).

Project proposed is the major renovation of the Jefferson High School (Old) located on Waters Street. Currently, the consolidated schools are at capacity having lost 648 seats, and there are no other facilities within the district to support student growth.
