#### INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

### Summary of revenue/expenditures available for new construction and remodeling projects only.

### CERTIFICATION

By submitting this electronic document, we certify that all information provided in this 5-year district facilities work program is accurate, all capital outlay resources are fully reported, and the expenditures planned represent a complete and balanced capital outlay plan for the district. The district Superintendent of Schools, Chief Financial Officer, and the School Board have approved the information contained in this 5-year district facilities work program; they certify to the Department of Education, Office of Educational Facilities, that the information contained herein is correct and accurate; they also certify that the plan has been developed in coordination with the general purpose local governments as required by §1013.35(2) F.S. We understand that any information contained in this 5-year district facilities work program is subject to audit by the Auditor General of the State of Florida.

Date of School Board Adoption 1/22/2025

Work Plan Submittal Date 2/28/2025

# **Expenditures**

# Expenditure for Maintenance, Repair and Renovation from 1.50-Mills and PECO

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district.

# Revenue

## 1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

The COFTE Projected Total (177,039) for 2028 - 2029 must match the Official Forecasted COFTE Total (165,691) for 2028 - 2029 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

| Projected COFTE for 2028 - 2029 |         |  |  |  |  |  |
|---------------------------------|---------|--|--|--|--|--|
| Elementary (PK-3)               | 49,442  |  |  |  |  |  |

## Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

Page 34 of 49 8/1/2025 11:49:19 AM

School Plans are coordinated with local governments. If there are necessary improvements or sidewalks to serve new schools, District staff meets with local governments requesting inclusion in their capital plan. Infrastructure for new schools or expansions to existing schools include turn lanes, water and sewer lines and connections and drainage improvements. These are necessary improvements to support the school.

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

Any and all new facilities will be consistent with the local government's comprehensive plan in which the school is located.

Consistent with Comp Plan?

Yes

### **Net New Classrooms**

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

| List the net new class   | ssrooms added in           | the 2023 - 2024 f        | List the net new classrooms to be added in the 2024 - 2025 fiscal year. |                      |   |   |   |   |  |  |
|--|----------------------------|--------------------------|---|----------------------|---|---|---|---|--|--|
| "Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment. |                            |                          |   |                      |   | Totals for fiscal year 2024 - 2025 should match totals in Section 15A |   |   |  |  |

# **Failed Standard Relocatable Tracking**

Relocatable units currently reported by school, from FISH, and the number of relocatable units identified as 'Failed Standards'.

Nothing reported for this section.

Page 46 of 49 8/1/2025 11:49:19 AM

# **Planning**

#### Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The District, monitors utilization of its schools to make sure sufficient school facilities exist to meet Class Size Reduction (CSR) requirements. The law requires that all classes in core subject areas, as defined by statute and the Florida Department of Education, not exceed the following maximums:

The maximum number of students who are assigned to each teacher for pre-k through grade 3 is 18; grades 4 through 8 is 22; and grades 9 through 12 is 25. Utilization of schools is continuously being monitored to determine where there is a need for improved or additional facilities to meet CSR. In some instances, on-site evaluation of school space is conducted to ensure optimum utilization of facilities to meet CSR. Through modular /relocatable locations on school site, CSR can be met at schools with increased enrollment. The District has converted all middle and high schools to choice to provide for program options, allowing CSR to be met at the School level. Palm Beach County is in full compliance with CSR requirements and is implementing District-wide Controlled Open Enrollment as required by statute.

#### School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

The School District has moved South Intensive Transition to the northern portion of the former South Tech. The buildings and portables at the current South Intensive Transition site have been demolished and the land is leased to The Education Foundation of Palm Beach County.

The former South Tech will become part of South Transportation and South Intensive Transition.

The School District has moved the Adult Education Center to a new location (former Gold Coast site). The buildings at the current Adult Education location will be demolished and the land will be land-banked.

# Long Range Planning

#### Ten-Year Maintenance

District projects and locations regarding the projected need for major renovation, repair, and maintenance projects within the district in years 6-10 beyond the projects plans detailed in the five years covered by the work plan.

Nothing reported for this section.

#### **Ten-Year Capacity**

Schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs for the future 5 years beyond the 5-year district facilities work program.

Nothing reported for this section.

Page 47 of 49 8/1/2025 11:49:19 AM

#### Ten-Year Planned Utilization

Schedule of planned capital outlay projects identifying the standard grade groupings, capacities, and planned utilization rates of future educational facilities of the district for both permanent and relocatable facilities.

Combination schools are included with the middle schools for student stations, capacity, COFTE and utilization purposes because these facilities all have a 90% utilization factor. Use this space to explain or define the grade groupings for combination schools.

No comments to report.

#### Ten-Year Infrastructure Planning

Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 06 thru 10 out years (Section 28).

Nothing reported for this section.

Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 06 thru 10 out years (Section 29).

Currently there are no plans for disposition of facilities or usage of facility space.

#### **Twenty-Year Maintenance**

District projects and locations regarding the projected need for major renovation, repair, and maintenance projects within the district in years 11-20 beyond the projects plans detailed in the five years covered by the work plan.

Nothing reported for this section.

#### **Twenty-Year Capacity**

Schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs for the future 11-20 years beyond the 5-year district facilities work program.

Nothing reported for this section.
