

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Expenditures

Expenditure for Maintenance, Repair and Renovation from 1.50-Mills and PECO

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district.

Revenue

1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

The COFTE Projected Total (94,548) for 2021 - 2022 must match the Official Forecasted COFTE Total (94,548) for 2021 - 2022 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

Installation of water, sewer, telephone, gas, electrical, fiber optics, etc. necessary for the construction of new schools and the expansion of existing schools.

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

Failed Standard Relocatable Tracking

Relocatable units currently reported by school, from FISH, and the number of relocatable units identified as 'Failed Standards'.

Nothing reported for this section.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Polk County School Board has been and continues to be a leader in the awarding of charter status to applicants which meet the statutory requirements as well as being receptive to public-private partnerships. As an ongoing process, a utilization of schools will be completed on a room by room basis with the results being shared with the Superintendent, Principal and the Regional Assistant Superintendent, having supervision responsibility for the school. This utilization will also include site visits to increase the utilization of the school(s) to the DOE utilization percentages. Rezoning to achieve the best utilization of space is under consideration by the Board; not only as new schools or additions come on line but also when additions to schools are added or on as needed basis depending on the life cycles of existing neighborhoods and the construction of new developments. The usage of year round schools is an option but is used infrequently and the use of double sessions is an emergency option only. The District continually reviews scheduling models to increase efficiency but State mandated programs as well as Federal mandated programs must be taken into account and do affect the usage of buildings. Changing demographics as well as programs needed to prepare students for successful passage of required testing as well as meeting the requirements Common Core put additional strain upon the utilization of the facilities.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

At this time there are no plans to close any current active school sites. However, several school sites are being evaluated for repurposing possibilities, and combining to achieve maximum efficiency and delivery of the educational process. The District has implemented a "Facilities Condition Inventory" in concert with a "Validation and Utilization process to analyze every site regarding the physical status and future of the campus. This process will be reflected in future work plans and plant surveys.

Long Range Planning

Ten-Year Maintenance

District projects and locations regarding the projected need for major renovation, repair, and maintenance projects within the district in years 6-10 beyond the projects plans detailed in the five years covered by the work plan.

Nothing reported for this section.

Ten-Year Capacity

Schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs for the future 5 years beyond the 5-year district facilities work program.

Nothing reported for this section.

Ten-Year Planned Utilization

Schedule of planned capital outlay projects identifying the standard grade groupings, capacities, and planned utilization rates of future educational facilities of the district for both permanent and relocatable facilities.
