

## INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

## Summary of revenue/expenditures available for new construction and remodeling projects only.

## Revenue

### 1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

## Planning

---

### Class Size Reduction Planning

**Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.**

The District is currently repaying a QZAB note with a portion of its tax revenue. The following repairs are planned by the District to maintain the integrity of our current facilities without the ability to add new student stations. The District has and will continue to use multi-track scheduling, block scheduling, and grade level organization to handle class size issues. Planned projects are as follows, but not limited to: ROOFING REPAIRS AND REPLACEMENTS AT LAKE BUTLER ELEMENTARY SCHOOL, Lake Butler Middle School and Union County High School. Fire alarm and intercom repairs throughout district. Chiller replacement and repair at Union County High School. Chiller repair/replacement at LBMS. Boiler replacements and repairs at LBMS and UCHS. Electrical and Plumbing Maintenance and Repairs throughout district. Paving and fencing repairs throughout all district.

### School Closure Planning

**Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.**

No school closures planned.

## Long Range Planning

**Combination schools are included with the middle schools for student stations, capacity, COFTE and utilization purposes because these facilities all have a 90% utilization factor. Use this space to explain or define the grade groupings for combination schools.**

No comments to report.

### Ten-Year Infrastructure Planning

#### Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 06 thru 10 out years (Section 28).

After the District repays the QZAB note, the Board has begun discussions about the possibility of building pod type classroom buildings at our elementary school to replace relocatable buildings (portables). This type of project would allow for permanent classroom structures.

#### Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 06 thru 10 out years (Section 29).

If classroom pods were constructed, portable classroom facilities would be disposed of and replaced by the newly constructed classrooms.
