

**2025-26 Annual School Year Cutover
FASTER User Manual and System Updates
Effective November 17, 2025**

This year's implementation of the new version of the FASTER System will go into final production on November 17, 2025, between 8:00 a.m. and 9:00 a.m., Eastern. The test environment is now available to FASTER users for testing local programming changes to align with the 2025-2026 version of FASTER. The testing environment allows users to make the necessary changes to local systems and then run test records through the programs at Northwest Regional Data Center (NWRDC) before the cutover date. The programming and FASTER User Manual changes are listed below.

To test annual cutover updates, any FASTER user can test their updated code against the new versions by using the Parameter Record Process. See Chapter 6, Section 1 of the [FASTER User Manual](#), Process Qualifier information (TEST), for test submissions.
