Student Demographic Information (I/S01)

Revised: October 21, 2025

1. Record Type: I01 - Items 1-39a, 44, 50-55, 58-69 and 72-73 are valid for interdistrict and Bright Futures records transfer.
S01 - Items 1-12, 16-17, 19d-19h, 21, 23-30, 33-35, 37-55, 57, 58-69, and 72-73 are valid for secondary transcripts and Bright Futures records transfer.
2. Transfer one record per student.
3. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use. Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
4. Required fields are indicated by an asterisk (*) next to the field name.
5. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Item 36f, Adult Fee Status, includes a new indicator 4, and indicator H has been phased out.

Item 37, Withdrawal Code, WPO is only valid through 2024-25 school year.

Item 46, Diploma Type, added new code WAG.

Item 47, Certificate of Completion, Date, is no longer required.

Item 48, Certificate of Completion, Type, no longer applies to Grade 12; added new code W56, codes W08, W8A, W8B, and W09 are only valid through 2024-25 school year.

13	97-108	12	A/N	<p>MSIX Identification Number (MSIX ID) Unique number generated and assigned by the MSIX System to a migrant child student for use in identifying the child's student's consolidated record.</p> <ul style="list-style-type: none"> • This field must be blank when the student's transcript is being sent to the MSIX System by a district for the first time. This will result in the execution of the MSIX matching process and the return of a MSIX ID for the student from the federal MSIX system to Florida and subsequently to the district via a FASTER Response. This eliminates any need for district Migrant Education Program (MEP) staff to search the MSIX system for the MSIX ID of the student. This also prevents the submission of incorrect MSIX Identification numbers by a district. • This field must be blank if the student's transcript has previously been submitted by the district but no MSIX ID has been assigned by the Federal MSIX System. • This field will be required on subsequent submissions by the district for the student once the MSIX ID has been assigned by the Federal MSIX System and returned to the sending district via a FASTER response. • FASTER edits for this field will only be performed when the transcript submission is addressed to the Federal MSIX System (District 99, School 0006). • Districts are no longer required to submit the MSIX ID when transmitting a transcript of a migrant student to other districts. <p>NOTE: This field only applies to Migrant Students. For non-Migrant Student records this field should be left blank.</p>

Student Immunization Information (I/S02)

Revised: October 21, 2025

1. All items 1-48 are valid for interdistrict, Bright Futures and secondary transcript records transfer.
2. Transfer one record per student.
3. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
4. This record is required for all interdistrict transfers with the exception of adult students aged 21 or older. An adult transmission is identified as having a Grade Level of 30 or 31, and a Birth Date less than the transmission date minus twenty-one years. Both Grade Level and Birth Date are required fields on the I/S01 format. This record is not required when addressed to Bright Futures (95).
5. Required fields are indicated by an asterisk(*) next to the field name.
6. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Student School Year Information (I/S03)

Revised: October 21, 2025

1. Record Type: I03 Items 1-14e are valid for interdistrict record transfer and Bright Futures record transfer.
S03 - Items 1-7 and 11 are valid for secondary transcripts and Bright Futures record transfer.
Items 15-22 are not used for records transfer, but for running the print program in-house.
2. Send one record per school year for non-migrant students. For migrant students, send one record for each school attended during the school year.
3. If a student transfers to another Florida public school district prior to the end of a school year the Grade Promotion Status field would contain 'N'.
The Annual Days Absent and Present would contain the information as of the time the student left the district.
4. The presence of LOW-VALUES in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
5. Required fields are indicated by an asterisk (*) next to the field name.
6. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Item 14c, Migrant District Attended, revised to include district numbers 01-68, 71-76, 80-83.

Item 14d, Migrant School Attended, revised to include district numbers 01-68, 71-76, 80-83.

Added new Item 14e, Grade Promotion Status: Good Cause Exemption, reduced Filler by 1 and renumbered as 14f.

Student Course Information (I/S04)

Revised: October 21, 2025

1. Record Type: I04 - All items 1-65 are valid for interdistrict record and Bright Futures record transfer.
S04 - Items 1-20, 28, 34, 40, 46, 52, 58, and 60-65 are valid for transcripts and Bright Futures record transfer.
2. Transfer one record per course per year or credit earned period per year. The one exception is credit recovery courses. These courses are repeatable multiple times. However, the maximum credit that can be awarded is 1.00. A maximum of 40 course records, excluding credit recovery courses, may be sent for a student during a school year.
3. If the district grading scale is different from the state 4.0 scale, the district grading scales and the definition of any local flags should be in the comment fields on the Student School Year record.
4. If elementary students are in self-contained courses the self-contained course number should be used with each subject area in which the student is participating. The abbreviated course title would be district defined with a maximum of 20 characters. For example, a first grade self-contained class could be sent as: 5100070 Int Lang Arts, 5100070 Mathematics, 5100070 Sci/Health/Soc St
5. Courses in progress at the time a student transfers must contain a 'P' on the Course Flag field.
6. Course in Progress Information: See the attached course in progress grades write-up for an explanation of each field and examples of how the fields should be used.
7. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
8. Required fields are indicated by an asterisk (*) next to the field name.
9. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Item 7, District Number, Where Credit Earned, revised to include district numbers 01-68, 71-76, 80-83.

Item 8, School Number, Where Credit Earned, added new school numbers 3450 and 3950.

ATTACHMENT 1: COURSE IN PROGRESS GRADES TO FORMAT I/S04

When a student moves between Florida public school districts prior to the completion of a term, course in progress grade information should be included in the electronic interdistrict records transfer. A course is considered in progress when one of the following conditions exists:

1. The final course grade has not been assigned; or
2. Credit has not been awarded (unless the student has received a failing grade in a course) to a student in grades 9-12.

Course in progress grades will not apply to adult students unless the student is working toward high school graduation or if the district assigns grades to adult courses.

Course in progress fields have been included in the Student Course Information format. Course in progress grades will be sent as part of the course format for interdistrict records when one or more courses have not been completed at the time the student transfers.

The course in progress fields will be blank when a student transfers to another Florida public school district upon completion of a course after final grades have been assigned and entered in item 19 the 'Course Grade' (final grade only) field. "A course grade is considered a final grade when the course has been completed for students in grades PK-8 or when credit has been awarded for students in grades 9-12. Any district which awards one half (.50) credit for annual courses when half of the course has been successfully completed should consider the grade to be a final grade when the credit is awarded.

If a course is not complete when a student transfers, the course in progress grades should be pulled from the district's automated report card system, when possible.

Following is a list of the field numbers and names and the definition of each element included in an interdistrict record transfer for course in progress information. The item numbers shown are the same as the item numbers indicated for the fields on the Student Course Information format. The data element '[Term](#)' is not a course in progress field, but will be needed to determine where grades are to be placed in the course in progress grade fields.

The 'Course Flag' field must contain a 'P' for all courses in progress at the time a student transfers.

12. TERM

The time of the school year during which the student is enrolled in courses.

16. COURSE FLAG

Up to four characters describing course attributes which give additional information needed by the district for counseling, tracking of credits, flagging for use with weighted grade point averages, etc. courses in progress at the time a student transfers must contain a 'P' in the course flag.

Interdistrict/Secondary Record Formats

21. COURSE IN PROGRESS HOURS (Students in grades 9-12 only)

The number of classroom hours which a student attended a class for a course not completed prior to the student's withdrawal from school. This element is necessary for the receiving district to determine whether a transferring student meets the 135-hour attendance requirement for high school graduation credit. This field must be blank for students in grades PK-8. The number of hours is equal to the total minutes divided by 60. Excess minutes should be rounded up to the next hour.

22. COURSE ABSENCES (Students in grades 9-12 only)

The number of periods of instruction which a grade 9-12 student has not attended while in course membership. This field must be blank for students in grades PK-8.

23. WEEKS IN GRADING CYCLE

This element consists of two alpha/numeric characters which define the number of weeks in each grading period. This number can vary between districts and across grade levels within the same district. For example:

- a. If report cards are distributed every six weeks for students in grades 6-12, a '6' will be entered which would indicate there may be up to six sets of six week grades during the 180-day school year.
- b. If report cards are distributed every nine weeks for students in grades PK-5, a '9' will be entered which would indicate there may be up to four sets of nine week grades during the 180-day school year.
- c. If a district distributes report cards every 12 weeks for students in grades 9-12, a '12' will be entered which would indicate there may be up to three sets of 12 week grades during the 180-day school year.

Since districts may operate on an annual basis, semesters, trimesters, quarters, quinesters, seximesters, and also provide summer sessions, six sets of course in progress grades information have been provided in items 24-58 on the Course Information transfer record.

The course in progress grade fields are positional. The time of year that the transfer occurs and the district grading policy will dictate which fields will contain data. All other fields will be left blank. Any grades in progress associated with the first term will be entered in items 24-28. The additional fields would be used if additional grading blocks are needed. Any fields that do not apply will be left blank.

The only exception to this rule is annual courses. Since some districts award semester credit to students in grades 9-12 even if the course is indicated as an annual course, the longest time period associated with a grading block is 18 weeks. If a district awards credit on an annual course at the end of each semester the term may be shown as two separate courses using the appropriate semester (term) codes or the course may be shown as an all year course for transfer purposes. If the annual term code is used and a student transfers after the completion of the first semester, that portion of the course will be sent as a final grade with credit awarded. Only the second portion of the course would be shown in the course in progress area, with the term code of '3'.

Interdistrict/Secondary Record Formats

24. COURSE GRADE - 1st Grading Block, 1st Grading Period

A Grading Block is defined as the 'TERM', which is entered in item 12 of the Course Information transfer record (annual, semester, trimester, quarter, quinmester, seximester, or a summer session). The only exception to this is annual courses as explained above. The 1st Grading Period is defined as the first grade assigned within the grading block (Term).

a. If a district operates on semesters for students in grades 6-12 with '6' weeks in each grading period, this field would represent the first grade or partial grade assigned during the first semester.

b. If the district operates on an annual basis for students in grades PK-5 with '9' weeks in each grading period, this field would represent the first grade or partial grade assigned during the school year.

25. COURSE GRADE - 1st Grading Block, 2nd Grading Period

This is the 2nd grade or partial grade assigned during the first Grading Block (Term). The field will be blank if one of the following conditions exists:

a. Only one grade is assigned for a Grading Block (Term) based on the number of weeks in a grading period and the course is not complete and a partial grade cannot be given; or

b. Only one grade has been assigned at the time the student transfers.

26. COURSE GRADE - 1st Grading Block, 3rd Grading Period

This is the 3rd grade or partial grade assigned during the 1st Grading Block (Term). The field will be blank if one of the following conditions exists:

a. only one or two grades are assigned for a Grading Block (Term) based on the number of weeks in a grading period and the course is not complete and a partial grade cannot be given; or

b. Only one or two grades have been assigned at the time the student transfers.

27. COURSE GRADE - 1st Grading Block, Exam Grade

If an exam grade is given prior to the end of the 1st Grading Block (Term), the grade may be recorded in this field. If no exam grades are given, the field will be blank.

28. COURSE GRADE - 1st Grading Block, Cumulative Grade

If a cumulative grade is given at the end of the 1st Grading Block (Term), which is not a final grade, the grade may be recorded in this field. If no cumulative grade is given at the end of the 1st Grading Block (Term) the field will be blank.

29. FILLER

This field is provided in the event that additional fields may need to be added for course in progress information at a later date.

NOTE: The course in progress grade fields are three positions each. The two left most characters are used for grades in progress for students in grades 9-12. All three characters may be used for grades in progress for students in grades PK-8.

Items 24-28 are repeated five additional times. The six sets of grades in progress will cover any districts who are on semesters, trimesters, quarters, quinesters, seximesters and summer sessions for a one year period.

Interdistrict/Secondary Record Formats

The following pages contain examples of course in progress grades information. Items 1-11, and 13-15 have been included in the examples but have not been defined in the definitions included in this attachment.

EXAMPLE 1: Grades 9-12

Parameters:

1. The district operates on an annual basis
2. The grades are assigned each nine weeks
3. Exam grades are assigned
4. Cumulative grades are assigned at the end of each semester, but final grades and credits are assigned at the end of the course
5. The student transfers during the second grading period of the second semester

Note: Any semester courses that the student successfully completed at the end of the first semester will show as courses with final grades. They will not appear as course in progress. Course B in the example is a second semester course. '.' denotes blank.

Student CTE/ELL/Dropout Information (I/S05)

Revised: October 21, 2025

1. Record Type: I05 - Items 1-52 are valid for interdistrict and Bright Futures record transfer.
 S05 - Items 1-25 and 52 are valid for transcripts and Bright Futures record transfer.
2. Transfer up to 6 records per student.
3. Send up to 24 of the most relevant Career and Technical programs the student has completed or in which the student is participating.
4. Send the three most recent Dropout/DJJ Prevention records within the most recent year of instruction.
5. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
6. Required fields are indicated by an asterisk (*) next to the field name.
7. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Replace Filler in Field 41, with English Language Learners: Program Participation. Filler 41 was renumbered as 41a.

Exceptional Student Information (I06)

Revised: October 21, 2025

1. Record Type: I06 - All items 1-105 are valid for interdistrict and Bright Futures record transfer.
2. Transfer one record per student.
3. Send up to 10 exceptional student programs in which the student is participating or has been dismissed from **during the CURRENT year**.
4. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
5. Required fields are indicated by an asterisk (*) next to the field name.
6. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Added new optional Item 13, Alternate Assessment Administered, and reduced Filler by 1. Filler renumbered 13a.

Student Comment (I/S07)

Revised: October 21, 2025

1. Record Type: I07, S07 - This record would be sent only if additional comments need to be included with any student records or transcripts. SAT and ACT or norm reference test scores may be included.
2. Transfer up to five records per student. If the data exceeds the five records allowed (as it may if it comes from SPEEDE/ExPRESS), Comment Line 12 of the fifth record will read "Exceeded Maximum Comments Allowed."
3. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
4. Required fields are indicated by an asterisk (*) next to the field name.
5. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Student Test Information (I/S08)

Revised: October 21, 2025

1. All items 1-308 are valid for interdistrict, Bright Futures, secondary transcript record transfer.
2. Transfer up to nine (9) records per student.
3. Send national and State of Florida test information for no less than the current and two previous years. NOTE: Limited English Proficiency (LEP) students: Test scores used as the basis of entry into the LEP program must be maintained in the automated system and electronically sent as part of a student's record if the student moves between Florida public school districts. The test information used as the basis of entry into program must be maintained and sent even if the test records are more than three years old. NOTE: Tests that affect high school graduation evaluation must be maintained and sent even if the test records are more than four years old.
4. Up to six test scores may be sent on one record. Send additional records if necessary. If less than six tests are sent leave all fields after last valid test blank.
5. If a subject area for a test has more than two score types/scores repeat the subject area information with the additional score.
6. If a test has more than nine subject areas, repeat the test information with the additional subject areas.
7. Always send a total score if one is available; sub-tests may also be sent.
8. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
9. A score may contain an implied decimal point. The presence or absence of such a decimal point in this field depends entirely on the value of Test Name. For example, if Test Name XYZ provides its scores in terms of "tenths," then a value of 0274 in this field indicates a score of 27.4.
10. Required fields are indicated by an asterisk (*) next to the field name.
11. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

Item 9, Test Name, and Item 12, Test Subject Content, added new tests from Student Information Database Manual [Appendix L](#).

Student Discipline Information (I09)

Revised: October 21, 2025

1. All items 1-10 are valid for interdistrict transcript record transfer.
2. Send the latest 3 year's data. Receiving districts will need to store the data from the sending district and send it if the student moves within 3 years. Discipline information may be printed on Interdistrict transcripts. District defined codes are not to be reported on FASTER unless there is a Discipline/Resultant Action, in which case the incident should be reported as ZZZ.
3. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
4. Required fields are indicated by an asterisk (*) next to the field name.
5. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.

PAS Number (I/S10)

Revised: October 21, 2025

1. All items 1-158 are valid for interdistrict record transfer. For Scaled Score Reading and Math FCAT tests taken on or after 1/1/2008, that are being sent between school districts (I record types), PAS numbers are required on the FASTER Type 10 record. When sending to postsecondary schools (S record types) or to Bright Futures, this requirement does not apply, and a Type 10 record should not be included in the transmission.
2. Transfer up to 1 record per student.
3. Up to thirty PAS Numbers may be sent on one record. If less than thirty tests are sent, leave all fields after last valid test blank.
4. The presence of binary zeroes in data fields causes significant problems for several institutions in the receipt of student records. A transaction will be rejected if non-displayable characters are sent in the data unless found in Filler Reserved for Local Use (last 9 bytes of each record type). Please use some other appropriate character (e.g., SPACES) with which to initialize your records before sending them.
5. Required fields are indicated by an asterisk (*) next to the field name.
6. Special characters, tilde (~), caret (^), and grave accent (`), are used as delimiters in the translation of FASTER to SPEEDE/ExPRESS. They are reserved symbols and as such cannot be included in data sent through FASTER to a SPEEDE/ExPRESS institution.

Item 4, District Number, Current Enrollment, revised to remove district 69.

Item 5, School Number, Current Enrollment, added new school numbers 3450 and 3950.
